## GAS ROUTS MOB FROM PRISON

### BRITAIN SEEKS LEAGUE RETURN OF SEA SCEPTER

Would Revise 5-5-3,  
Ban Battleship.

BY ARTHUR SEARS HENNING.

(Chicago Tribune Press Service.)

Washington, D. C., Feb. 1.—[Special.]—Great Britain, it was learned today, aims to regain at the league of nations disarmament conference her old position of acknowledged mistress of the seas.

She relinquished that position at the Washington arms conference and accepted naval parity with the United States for the purpose, it now seems, of inducing us to scrap a naval building program that would have made America the greatest sea power on earth. Having attained our definite acceptance of that position and found us neglectful of maintaining parity in fact, Britain is maneuvering for a new agreement according to her recognized actual naval superiority.

Early Conference Postponed.

How much of the British scheme will be revealed at the preparatory conference remains to be seen, but some of the details have trickled through to Washington from our observers abroad. It appears now as if the preparatory conference would be postponed from Feb. 15, the original date, to some time between March 1 and May 15, such postponement having been asked by France, Italy, Japan, Czechoslovakia and Uruguay. To notification by the league of the postponement request, Secretary of State Kellogg replied today that we were ready to proceed on Feb. 15, but would not object to the proposed delay.

Three English Plans Conveyed.

British plan, in the first place, proposes an agreement by all nations to abolish not only the submarine but the battleship. Britain sought at the Washington conference to scrap the submarine, but France declined even to a limitation, and that's where the British armament reduction plan was torpedoed and only salvaged in part, for the British in retaliation declined to limit cruiser and other auxiliary tonnage.

Now the British contemplate going a step farther and proposing not only to abolish the submarine but to scrap the battleship as too expensive. The Washington conference provided for the replacement of the existing battleships beginning in 1920 and the British now would allow battleships to disappear gradually as they become useless.

Wants 5-5-3 Ratio Dropped.

Under the British scheme navies would consist of cruisers (limited to 10,000 tons by the Washington treaty), destroyers, and minor auxiliaries, aircraft and aircraft carriers. But Britain does not contemplate acceptance of a 5-5-3 ratio applying to cruisers and other craft, and that's where her ambition to regain her supremacy of the seas comes in.

Britain wants far more cruisers, destroyers, and other craft than the United States on the ground that the sea-faring British empire requires more ships for adequate protection. Even if eventual agreement were to be on the basis of a parity of cruisers Britain would be in reality superior to America, for there are scores of British merchant ships which are potential cruisers, having been built with that possible use in view.

To promote acceptance of these ideas in the United States, the British have been propagandizing in this country. First came Prof. Ross, naval historian of Cambridge University; then Lord Lee of Fareham, and finally Sir Francis Bridgeman, formerly first sea lord of the admiralty. The latter urged on President Coolidge, Secretary of the Navy Wilbur, and others abandonment of battleships as well as submarines.

### POLICE CAPTAIN LOSES WATCH TO HOLDUP MEN

Joseph Palczynski Jr., son of Capt. Joseph Palczynski Sr. of the West Chicago avenue police district, was robbed of \$78, jewelry valued at \$350, and his father's watch last night by two men who held him up as he was putting his car in the garage in the rear of his home at 1625 North Sacramento avenue.

The bandits were described as small, one weighing about 125 pounds and the other 115. Both wore black overcoats and gray caps and carried revolvers.

The watch which was taken was presented to Capt. Palczynski by his friends when he became a lieutenant in 1894. It was reported during the evening that it was the captain, not his son, who was robbed.

### Vanderbilt Girl Rewed as Catholic

New York, Feb. 1.—[AP.]—An unusual double wedding took place on the afternoon of Jan. 7 in the Vanderbilt home in Fifth avenue.

While hundreds of guests were gathered in the great drawing room to await the marriage of Miss Consuelo Vanderbilt to Earl E. T. Smith, a quiet ceremony was being concluded in an adjoining room to effect the remarriage, in the ritual of the Catholic church, the family faith, of his sister, Muriel, to Frederick Cameron Church Jr.

Few, if any of the guests had the slightest inkling of the unscheduled ceremony.

Mother Confirms Report.

Confirmation of the report that the two ceremonies—so dissimilar in the staging—took place almost simultaneously came tonight from an authorized spokesman of Mrs. W. K. Vanderbilt, mother of both girls.

"Muriel's remarriage occurred just a few minutes before the wedding of her sister," the statement said, "and Father Thomas F. Murphy officiated at both." Earlier in the day dispatches from Boston said Mrs. Vanderbilt had announced that Muriel had been remarried to Church by a priest following their marriage by an Episcopal clergyman in Newport last July.

Refuses to Comment.

Mr. Church refused to comment on Mrs. Vanderbilt's announcement. He made it clear that he wanted the announcement to come from her, and would not say whether he had signed the agreement to rear his children in the Catholic faith.

Mr. and Mrs. Church were married at Newport, R. I., on July 25. The wedding was one of the most brilliant events of the Newport season.

Up until the hour set for the wedding there had been much speculation as to whether the ceremony would be performed by a Catholic priest or by a Protestant clergyman. It was reported that young Church had steadfastly refused to sign an agreement to have his children reared in the Catholic faith, although he was perfectly willing that a priest should conduct the ceremony.

It is believed that the romantic setting of the Vanderbilt home influenced the Churches to accede to Mrs. Vanderbilt's wish and go through a ceremony in the form which had marked those of the family for generations.

U. S. Seaplane Squadrons

in Cuba for Maneuvers

HAVANA, Cuba, Feb. 1.—[AP.]—The American naval seaplane squadrons on their way to Guantanamo bay for winter maneuvers have arrived at Cienfuegos. They probably will resume their journey on Wednesday.

### RUBENS-CORTEZ MARRIAGE HITS SNAG AT LAW

Riverside, Cal., Feb. 1.—[AP.]—An investigation of the marriage here Saturday of Alma Rubens and Ricardo Cortez, motion picture stars, is to be made by Albert Ford, district attorney of Riverside county.

Ford said late today that he had received advice that the divorce obtained in Los Angeles last year by Miss Rubens from Dr. Daniel C. Goodman does not become final until Feb. 6.

Cortez issued a statement at Hollywood that before going to Riverside to be married his bride called up her attorney to ask whether she was free to marry. She is declared by Cortez to have received a reassuring answer. The attorney countered with a denial in which he insisted that Miss Rubens was advised that she might legally marry.

Questions Meaning of Law.

In their petition for a writ of mandamus compelling the return of the agents to the state courts for trial on the murder charge, the Maryland state authorities contended that the judicial code which guards certain government agents from state court prosecution, did not contemplate throwing the same protection about prohibition agents.

The court, however, in deciding against the state on this point, went further to assert that even if the judicial code did not specifically exempt prohibition agents, they were brought within the protective section of the law by clauses in the national prohibition act setting out that they "shall have all the power and protection in the enforcement of the act which is conferred by law for enforcement of existing laws relating to the manufacture and sale of liquor."

Code Gives Protection.

"We have no doubt," reads the opinion, "that the word 'protection' was inserted for the purpose of giving to officers and persons acting under the authority of the prohibition act in the enforcement of its provisions, the same protection of a trial in a federal court of state prosecutions as is accorded to revenue officers."

"Congress," the opinion continues, "not without reasons assumed that the enforcement of the national prohibition act was likely to encounter in some quarters a lack of sympathy and even obstruction, and sought by making section 22 applicable to defeat the use of local courts to embarrass those who must execute it."

"The constitutional validity of the section rests on the right and power of the United States to secure the efficient execution of its laws and to prevent interference therewith, and to possible local prejudice, by state prosecutions, instituted against federal officers in enforcing such law, by removal of the prosecution to a federal court."

(Continued on page 4, column 3.)

### U. S. DRY AGENTS SENT TO STATE COURT FOR TRIAL

Partial Victory for  
Maryland Won.

(Chicago Tribune Press Service.)

Washington, D. C., Feb. 1.—[Special.]—Federal prohibition agents accused of murder while enforcing the liquor laws are entitled to trial in federal courts. They must, however, be prepared to show the killing was in line of duty if they would escape trial in state courts and they may not claim federal court protection from state indictments for perjury or conspiracy to obstruct justice in connection with their activities.

This is the gist of two opinions of the United States Supreme court delivered today by Chief Justice Taft, which climax the clash of Maryland state authorities with a Baltimore federal district court over the right to try four prohibition agents indicted on Nov. 19, 1924, by a county grand jury for the murder of Lawrence Wenger, an alleged moonshiner, in Harford county, Maryland.

State to Try Four.

Holding that the petition filed by the four agents—R. D. Ford, John M. Barton, Wilton L. Stevens, and E. Franklin Ely—in the District court did not clearly establish their contention that Wenger was killed while resisting arrest, the Supreme court remanded them for trial in the state courts. The opinion, however, reserved to the agents the right to make a more definite showing on which the District court would be justified in again assuming jurisdiction.

It is the opinion of the four men are remanded outright to the state courts to stand trial on indictments for perjury and conspiracy to obstruct justice, growing out of their testimony concerning Wenger's killing to the coroner's jury the day after the killing near Madonna, Md. Regardless of how or why Wenger was killed, the testimony of the agents, perjured or otherwise, before the coroner's jury, was not in performance of their duty as federal officers, the opinion holds, and they must submit to trial.

Anticipating that the denial of federal court trial to the agents in the latter opinion may encourage "evil minded persons" to obstruct prohibition agents by bringing about indictments, the courts suggest. "It will be for congress in its discretion to amend the judicial code to mean that any prosecution of a federal officer for any state offense which can be shown by evidence to have had its motive in a wish to hinder him in the enforcement of federal law, may be removed for trial to the proper federal court."

Questions Meaning of Law.

In their petition for a writ of mandamus compelling the return of the agents to the state courts for trial on the murder charge, the Maryland state authorities contended that the judicial code which guards certain government agents from state court prosecution, did not contemplate throwing the same protection about prohibition agents.

The court, however, in deciding against the state on this point, went further to assert that even if the judicial code did not specifically exempt prohibition agents, they were brought within the protective section of the law by clauses in the national prohibition act setting out that they "shall have all the power and protection in the enforcement of the act which is conferred by law for enforcement of existing laws relating to the manufacture and sale of liquor."

Code Gives Protection.

"We have no doubt," reads the opinion, "that the word 'protection' was inserted for the purpose of giving to officers and persons acting under the authority of the prohibition act in the enforcement of its provisions, the same protection of a trial in a federal court of state prosecutions as is accorded to revenue officers."

"Congress," the opinion continues, "not without reasons assumed that the enforcement of the national prohibition act was likely to encounter in some quarters a lack of sympathy and even obstruction, and sought by making section 22 applicable to defeat the use of local courts to embarrass those who must execute it."

"The constitutional validity of the section rests on the right and power of the United States to secure the efficient execution of its laws and to prevent interference therewith, and to possible local prejudice, by state prosecutions, instituted against federal officers in enforcing such law, by removal of the prosecution to a federal court."

### Kentucky's Troops Guard Negro in Jail

BULLETIN.

Frankfort, Ky., Feb. 2.—[AP.]—Under heavy artillery guard and concealed in an armored tank, Ed Harris was taken from the reformatory here at 3:14 a. m., and started to Lexington, where he will stand trial today.

BULLETIN.

Frankfort, Ky., Feb. 1.—[AP.]—Tear gas was used for the first time in Frankfort tonight to disperse a large crowd around the state reformatory, where Ed Harris, slayer and rapist, was confined in the dungeon. The gas was released by units of the National Guard, who were waiting for orders to go to Lexington.

The fumes penetrated to the main section of the city and caused some discomfort, but the crowds did not again gather about the armory and reformatory.

Harris is to make the trip to Lexington hid away in a tank of the 38th tank company. Adj. Gen. Kehoe, who will lead the military guard, has ten officers with him, seventy men of the local cavalry troop, 54th machine gun squadron, and headquarters company. The tank will be pulled by two Liberty trucks and accompanied by six other trucks and five passenger cars. Harris will be placed inside the tank with one officer and the entourage will be armed with pistols, machine guns, and tear gas.

BY ORVILLE DWYER.

Lexington, Ky., Feb. 1.—[Special.]—Kentucky tonight stands ready to enforce the constitutional right of trial by jury for Edward Harris, slayer and rapist, despite the fact that he is a Negro. The law will be upheld at a trial at the point of rifle and machine gun fire if threats and gun butts and bayonets fail.

It is the gesture of a southern state to set a precedent against mob rule; to go on record against lynchings and vengeance in any other form than that set down by law and administered by constituted authority.

One thousand Kentucky National Guardsmen, with four tanks, thirty-five machine guns and sixty Browning automatic rifles, in addition to their regular equipment, are in Lexington to see that the determination of Gov. William Jackson Fields and the Fayette county authorities is carried out.

Order to Fire Given.

Although the military authorities are making no announcements, it is understood that the order to fire as a last resort has been given. Beyond being, as the authorities say, a new order of procedure in the south for such crimes as he is committed, there is another purpose. That is to prevent a repetition of the tragedy of six years ago in a similar case when sixteen persons were killed.

The elaborate effort to protect Harris is made in spite of the fact that every possible precaution in the case of a man accused of the crimes for which Harris is to be tried. The prisoner is not only the slayer of a white man and his two children but he has confessed an attack on the wife and mother.

Will Be Smuggled Into City.

Harris, now in the reformatory at Frankfort, 28 miles away, will be brought into Lexington secretly some time before daybreak tomorrow. All roads leading into Lexington are under guard and no one without a military pass will be allowed to enter the city. A "dead line," beyond which no citizen may pass, was established several blocks in each direction from the courthouse.

Harris will not be charged with murder; he will be charged with rape. The prisoner has no money and no clothes was appointed by the court for him. One of his lawyers is J. T. Farmer, president of the Lexington Bar association. It is understood Harris will plead guilty. If he does, he may be sent to the gallows in thirty days. He will face the court at 9 a. m. It is expected the trial will take less than two hours. Harris will be returned at once to the reformatory.

The guard at the prison is due to the fact Harris was attacked by white prisoners there a few days ago and it is rumored here "they tried to throw him into the furnace."

Arrest Rockford Man

for Threat to Coolidge

Rockford, Ill., Feb. 1.—[AP.]—Gothard Stromborg, 42, was arrested at midnight tonight by deputy sheriffs at the request of postal authorities, who charge Stromborg with sending threatening letters through the mails to President Coolidge and other prominent persons.

### QUACKS PACK KITS AND FLEE AFTER EXPOSE

Old Doc Gill Does His  
Ancient Stuff.

(Picture on back page.)

As the wrath of enlightened victims began to shower down upon the House of Health, the quackery mill at 184 West Washington street, described in yesterday's TRIBUNE, many of the satellites of Chicago's quackdom began quietly to fold up their instruments and beat it to more quiet climes.

Dr. H. L. Giles, nominal head of the House of Health, where a Talmudic reporter in perfect health was told he was prostrating trouble, was reported making an exodus to Montreal. Nearly any town of size will remember Old Doc Giles, who has worked the quack game from Texas to Canada, always bidding good-bye, or at least an evasive, to the cities where his methods were exposed.

Threats of Arrest.

Threats of arrest were made by some of the erstwhile patients of the House of Health, one of them, F. J. Reynolds of Reseville, Ill., promising to go into the Municipal court today to demand warrants charging Old Doc McCarthy and Old Doc Francis with obtaining \$100 by false pretenses.

Back in his home

MITCHELL FIRES  
FIRST BROADSIDE  
AT ARMY CHIEFSAssails General Staff as  
Military Bureaucracy.

BY FLOYD GIBBONS.

Washington, D. C., Feb. 1.—[Special.]—William Mitchell's opening broadside against the war department general staff, issued tonight, reiterates the charges and accusations which the flying colonel has made previously and which led up to his demotion and conviction by court martial and the acceptance of his resignation.

Spokesmen of the army general staff when acquainted with the contents of the statement, said they were surprised at its mildness, in as much as they had expected a much more severe outburst when Mitchell felt that the gag of military discipline had been removed.

Supporters of Mitchell declare, however, that today's statement is only an opening salute in comparison with the heavy blows which will be heaped off when the colonel opens his nationwide lecture campaign in Carnegie hall, New York City, Feb. 10.

Call U. S. Defense Unorganized.

"The United States remains today unorganized for modern defense," the Mitchell statement says. "In spite of the expenditure of nearly five hundred million dollars for aviation since the war and the loss of scores of our air men, we have no real military air force for the protection of our great country. We are left hopelessly behind in our civil and commercial aviation and we have no plan or system whatever for furthering and developing this most important agency."

"This condition is due to the blind opposition of the regular army and navy bureaucracies that have arrogated to themselves the policy of standing squarely in the way of any progress, and constantly advocating the theories of the bow and arrow men of a barbarous age. Calling to their aid the instrumentalities of propaganda and unopposed control, they have consistently and purposely misled congress and the people as to what this country needs to insure its security."

Says Laws Are Manipulated.

"They have entrenched themselves behind a bureaucratic system run by self-perpetuating oligarchies. They have manipulated the laws so that they can control the armed forces even against the action of the President himself. They coerced, bulldozed, and attempted to ruin patriotic officers who have disagreed with their views and who sought to better our national defense which the officers and men of the armed services know is necessary."

"Due to the military bureaucracies, our land and sea forces, composed of splendid men, are shaken in their conception of duty, lacking in confidence in the army and navy as institutions and dubious of their own future. The luxurious losses to our air and sea forces are mute examples of inefficiency and negligence. In spite of the vigorous whitewashing attempted by the army, navy, and executive boards."

Assails Military Secrecy.

"The military bureaucracy, resisting all innovations, has become such that it is impossible to obtain any needed changes in the system. The reasons they give are veiled in mystery and secrecy, so as to confuse the public, whereas actually the conditions to be met are simple and public. This is one of the greatest menaces to our free institutions that has ever occurred."

"The bureaucratic party, as it might be called, in its inner workings in Washington is more powerful than the Democrats and Republicans, more powerful than the influence of any creed or religious order. Our government has become one of bureaucratic domination. This condition must be stopped."

"Our national defense should be organized into a single department and under it there should be subdepartments for the air forces, the land forces, and the sea forces, each with an equal voice and each privileged to present their views, without restraint or coercion, to a secretary of national defense and to congress."

America Neglects Safety.

"In our beloved America, the greatest of all countries, we must adopt a national defense policy founded on the particular needs, based on the abundance of our raw materials, the excellence of our industry and the remarkable intelligence of our people."

"However, the administration of our

ROBT. PECK, CHICAGO  
WRITER, IS GIVEN  
DIVORCE IN PARIS

PARIS, Feb. 1.—(AP)—Robert Peck, a writer, giving a Paris address, today registered a divorce granted to him Feb. 12, 1925, from Florence Reid Peck, whose address was given as the Hotel Plaza, Chicago.

Robert Peck is a brother of David B. Peck of the Bowman Dairy company. For many years he has been known as a wealthy art connoisseur and poet, and has figured in a number of marital entanglements, both in this country and abroad. One was an affair with a pretty French girl, Yvonne Normand, a former nursemaid in his home in London.

His first wife was Margaret Larson of Racine, from whom he was divorced in 1910. He later married Florence Reid. He had several court controversies with his second wife, from whom he was separated here in 1920. Mr. Peck at that time deposited \$200,000 in a Chicago bank to guarantee the payment of \$10,000 annually under a separation agreement. The second Mrs. Peck was at one time principal of a school in Crystal Lake, Ill. She could not be reached last night.

national defense by the bureaucracies, maintained by the army and navy oligarchies, passes the limit of our national conscience and must be thoroughly overhauled at once.

"The growing opposition to modernization exhibited by the army and navy bureaucracies and the inexorable killing of my comrades in the air forces, sent on propaganda missions to county fairs by nonflying service politicians, made drastic and instant action a necessity."

"From now on I feel that I can better serve my country and the flag I love by bringing a realization of the true condition of our national defense straight to the people, than by remaining muzzled in the army."

**DIES OF WOUND  
FROM GUN USED  
BY JAIL GUARD**

Thomas Corcoran of 6018 South Marshfield avenue died at the Bridgeport hospital last night from bullet wounds inflicted last Tuesday by Gust Neubauer of 1434 Fuller street, a guard in the House of Correction, during a quarrel at Forty-fourth and South Wood streets. Neubauer, who was subsequently booked for assault to commit murder, and his companion, John Deluski of 1954 West Fifty-fourth street, who was charged with being an accessory, are being held. Corcoran was 26 years old.

REPORT MARIE  
AND BABU FLEE  
FROM BUCHAREST

**Mid-Europe Papers  
Hint Big Scandal.**

BY KARL LAHM.

[Chicago Tribune Press Service.]  
[Copyright: 1926: By The Chicago Tribune.]  
VIENNA, Feb. 1.—The palace scandals have reached a new high temperature in the last few days, according to the Budapest newspaper, Azest. It is reported from Roumania that a second series of posters against Prince Babu Stirbey have been torn down by the police after they were found posted in the public street directly opposite the royal palace. This time it was a poster in glaring red showing Prince Babu's caricature, under which were the words:

"How do you like him?"  
**Prince and Queen Flee, Report.**  
The report says that Prince Babu has fled from Bucharest, followed by Queen Marie. Before he went he is said to have ordered the chief of police to arrest Deputy Gregoire Philippescu, who acknowledges his authorship of the posters, declaring he will drive Prince Babu from power at any cost. The king countermanded the order for his arrest.

Bucharest is in a furore. The papers are not allowed to print a word of the affair, which is being taken up widely by the Vienna, Budapest and Berlin papers.

**Paper Attacks Babu.**  
Word has been received from Bucharest that after two years' suppression Epoca reappeared today, edited by the Roumanian nationalist deputy, Gregoire Philippescu, and containing a public letter addressed to Prince Babu Stirbey, entitled, "An Interim of Roumanian Immorality."

Epoca accuses the prince of robbing the Roumanian deputies and falsifying the parliamentary reports to deceive the people. It further confirms the Tribune's correspondent's story concerning the opposition's determination to annihilate the influence of Queen Marie's favorite, Prince Babu Stirbey, said to be responsible for Prince Carol's renunciation.

GIVES UP AND  
OFFERS ALIBI IN  
STEIN MURDER

Smith Denies Any Part in  
Gang Shooting.

(Picture on back page.)

Louis H. Smith, 4454 Drexel boulevard, sought by the police since Isaac (Ted) Stein was shot and killed Sunday afternoon at 2153 West 13th street, surrendered late last night to Capt. John Stege of the detective bureau.

Smith, who was once tried for murder in New York and cleared, asserted that he had an iron clad alibi and that he knew nothing of the killing of Stein. He and the latter were friendly, he added, but they had not met for several months.

**Advised by His Lawyer.**  
"I surrendered on advice of my counsel, Harry N. Pritsker," he said. "I didn't know I was being sought until Monday morning. When I told my attorney about the case he told me to give up to Capt. Stege. Here I am. I didn't have anything to do with the murder, and I can prove it."

Stein's death, in the opinion of the police, was due to his mixing into the alcohol racket on the west side. He had shifted gangs recently, Capt. Stege learned, and his old friends were angry with him about this.

**Wife 16 Years Old.**  
Much of this information came from his 16 year old wife, Elizabeth, who lives at 1410 West Roosevelt road. Closely questioned, the girl, who is to become a mother in a few weeks, told of his activities as a booze peddler and incidentally, for she was loath to make the slain man appear in an unfavorable light—his treatment of her.

"I knew he was selling whiskey," she said with a shudder. "I wanted him to quit it, but he wouldn't. I told him they'd get him and he laughed. All I wanted was a nice, quiet home and a husband that was safe."

"He was good to me in a way. Of course Ted was a seltzer and he had lots of women friends. Sometimes,

when he wanted to be cruel, he told me about them and how well they treated him. Sometimes there wasn't much money for me because he spent it on them."

Adding her statements to those that came in from underground sources, Capt. Stege theorized that Stein had long been "due for a ride," and that some rival alcohol peddlers had marked him for death. There is also a possibility that some friend of the girl wife, angry at his neglect of her, may have had a hand in the killing. Smith was taken to the detective bureau for questioning. He said that on Sunday afternoon, from 3 to 6:30 p. m., he was with the members of the firm of Brown & Goldberg, insurance adjusters at 175 West Jackson boulevard, by whom he was employed. Stein was killed about 9:30 p. m.

\$250,000,000 A  
YEAR HELD LIMIT  
GERMANY CAN PAY

[Chicago Tribune Press Service.]  
BERLIN, Feb. 1.—Dr. Dernburg, one of the ex-kaiser's former ministers and ambassador to the United States in 1914, in addressing the members of the American Chamber of Commerce in Berlin today, declared the maximum amount Germany could pay annually on reparations would total not more than 1,000,000,000 marks (about \$250,000,000) a year.

# AIRMAN BATTLES FOR LIFE ABOVE VICTORIA FALLS

Plane Caught Suddenly in Mountain Spray.

BY W. J. MAKIN.

(Chicago Tribune Press Service.)  
CAPE TOWN, South Africa, Feb. 1.—Alan Cobham, the British aviator, flying from London to Cape Town, now has reached Bulawayo, and will fly to Pretoria tomorrow, which will be his first entry into the Union of South Africa. Mr. Cobham considers his welcome at Bulawayo yesterday as the most enthusiastic of his whole tour. About 3,000 people rushed towards the machine as soon as it reached earth. Mr. Cobham said he had the narrowest escape of his career while taking a movie picture of Victoria falls. Awaiting a moment when the heavy clouds of spray would drift or blow away and reveal the 400-foot torrent thundering and racing below, the aviator dived and flew along the deep ravine. The movie photographer obtained some good pictures.

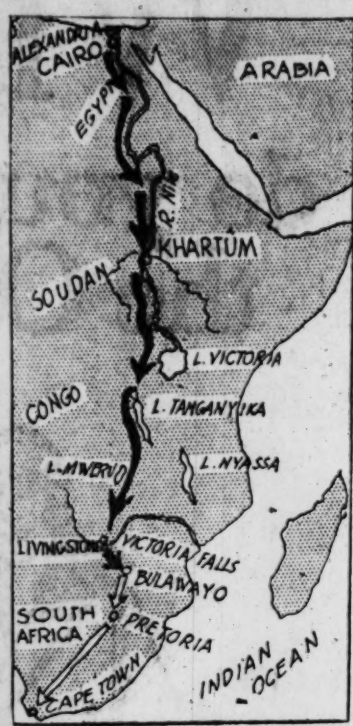

Suddenly, the wind dropped and a mountain of Cobham narrowly escaped disaster while flying over Victoria falls, while his companion made movies of them. The Briton is mapping an air route from London to Cape Town.

Trans-Ocean Filers Near Disaster.  
PERNAMBUCO, Brazil, Feb. 1.—(AP)—With the knowledge that one of his propellers was in a damaged condition, Commander Franco, with his two comrades, Capt. Ruiz de Alca and Mechanician Rada, decided to continue the flight from the island of Fernando de Noronha to Pernambuco yesterday. The Spanish seaplane successfully completed the air flight across the Atlantic, linking Spain and South America, but for many miles on the last section of the third leg there was danger of disaster.

Rough Seas Damage Propeller.  
Only today did the fact become known that Commander Franco's posterior propeller had been seriously damaged by the rough seas along the coast of Fernando de Noronha, which forced the aviators to spend the night in the plane. The propeller finally broke a long distance away from the South American coast. It was possible to tighten the plane by throwing out all unnecessary fuel and as a switch as the forward propeller could carry her the Plus Ultra, keeping close to the water, skimmed through the air to this port.

The Spanish aviators are awaiting a new propeller, which is expected within a day or two, probably aboard one of the Spanish warships which have been guarding the route.

## NEW AIR ROUTE

This map shows the route of Alan Cobham, British aviator, in a flight from Cairo to Cape Town, South Africa. He landed at Bulawayo yesterday and will make his next hop to Pretoria tomorrow. Cobham narrowly escaped disaster while flying over Victoria falls, while his companion made movies of them. The Briton is mapping an air route from London to Cape Town.

## RECOVER \$5,000 RUGS, EVANSTON BURGLARS' LOOT

County highway deputies and the Evanston police yesterday recovered oriental rugs valued at \$5,000, which were stolen by two youthful burglars who were arrested by Lieut. Laird and Sgt. Keilling of the highway force on Sunday.

The rugs and other articles valued at several thousand dollars were found in several apartments in the Wilson avenue district. In every case, it is said, the purchasers were ignorant that the goods were stolen. The property was taken to the county highway station at Morton Grove, where victims of burglaries will be asked to identify it.

Glenn Kenley, 1132 Noyes street, and Ray Slinger, 815 Davis street, Evanston, are held by the highway police.

## U. S. DRY AGENTS SENT TO STATE COURT FOR TRIAL

Maryland Wins a Partial Victory by Decision.

(Continued from first page.)

court to avoid the effect of such prejudice."

Dry Collections Drop.  
Washington, D. C., Feb. 1.—(AP)—Collections by the federal government incident to enforcement of prohibition fell off slightly in 1925, receipts being \$640,142, compared with \$680,975 for 1924. Receipts from enforcement of the narcotic act increased slightly over

## How to Have Soft, Pretty White Hands

Many women will undoubtedly be glad to know how they may have beautiful, white, soft, pretty hands regardless of the work they have to do. The secret lies in rubbing a little Ice-Mint into the hands occasionally preferably just before retiring at night. In the morning you will be greatly surprised at the pleasant transformation that has been wrought by even a single application. Ice-Mint is made from a Japanese product that is simply marvelous for its beautifying properties, whether used on the hands or face. Regardless of what kind of work a woman does she should have pretty hands as they are really the true marks of refinement. A few applications of Ice-Mint will actually make any woman proud of her hands and skin. It costs little and is sold and recommended by good druggists everywhere.

## SHOOT WETS, AGENT SAYS

Pittsburgh, Pa., Feb. 1.—(AP)—"I say that the bootleggers should all be backed against a wall and shot, not jailed or fined."

This declaration made by Prohibition Administrator Frederick C. Baird to an audience in the Point Breeze Presbyterian church last night, threatens to cause the biggest row in government circles that has been known since the Volstead act became a law.

The statement was denounced in the United States court here today when Federal Judge Thomson said: "I assume that no government official

would make such a statement. If he did he is unfit for the government service."

The remarks of Administrator Baird were brought officially into federal court when Attorney Van Barrackman, on behalf of his clients, defendants in liquor violation cases, produced a copy of a Pittsburgh paper containing them and asked Judge Thomson for a delay in the trial. He declared that the minds of the jurors had been poisoned by Baird's statement.

Judge Thomson referred Attorney Barrackman to Judge Schoonmaker, who halted the trial proceedings and informed Attorney Barrackman he could present his motion tomorrow morning.

Judge Flays Dry Agent.  
South Bend, Ind., Feb. 1.—(Special.)

—Breaking in on the testimony of a prohibition agent in U. S. district court today, Federal Judge Thomas W. Slick expressed his distaste for certain methods used by government dry agents.

"It goes against my grain to see government money being used to buy drinks when it is necessary for the federal agents to beg their suspects to violate the law," Judge Slick said.

"It is just as much against the law to buy liquor as it is to sell it. It seems to me that the government agents could catch criminals in some other way than by breaking the law themselves."

The case which drew Judge Slick's comment was against Earl Grimes of Lafayette, Ind. Grimes was let off with a fine of \$25 and three months in jail. The jail sentence was suspended.

## CONGRESS O. K.'S BILL APPROVING BRIDGE ON DRIVE

Unanimous Vote Sends  
Measure to Coolidge.

[Chicago Tribune Press Service.]  
Washington, D. C., Feb. 1.—[Special]—Congressional approval of the proposed outer drive bridge over the mouth of the Chicago river to link the Lincoln and south park systems was given today when the bill introduced by Representative Fred A. Britten [Rep., Ill.] was passed unanimously by the house and senate. The bill now goes to President Coolidge for his signature.

Earlier action on the bill in the house was delayed last week when Representative V. M. M. [Rep., Mich.] of Detroit objected to unanimous consent for immediate consideration of the measure when it was favorably reported by the house interstate and foreign commerce committee.

Withdraws Objection.  
Today, Mr. M. M. explained that he had objected because he wished to satisfy himself that the bridge construction had no relation to the lake level controversy.

Quick action on the bill was obtained in the senate when Senator McKinley moved that the Britten measure passed by the house a few minutes before be substituted for the similar bill which he had introduced and placed on immediate passage.

"This bridge will link the outer drive system of Grant park and Lincoln park and should have been erected long ago," Mr. Britten said in response to questions from Mr. M. M. "It is contemplated that the bridge

## WORLD COURT SEEN AS STEP TO LEAGUE BY COL. E. M. HOUSE

Houston, Texas, Feb. 1.—[AP]—America's entrance into the world court is a mere gesture

now, Col. E. M. House told newspaper reporters here today.

"We have no more privileges now than we had before we entered. As a nonmember we were able to sit in the council and listen. As members we can do just that thing and nothing more," he said.

"Actually we are little further than Col. E. M. House, we were before."

Col. House was an unofficial representative of President Wilson during the world war.

"But the psychological effect of the world court will be a great thing," he said. "To the masses of the people it means that we have entered something like the league of nations. It is a step in that way, and it allows the leaders to release their efforts toward a more active entrance."

will cost about \$3,000,000, which must be authorized by voters in an election to be held in April. The matter is really of much greater importance than the ordinary bridge bill acted upon by the house.

Vital to Chicago.

"The outer drive bridge is a vital necessity to Chicago, and I sincerely hope that no gentlemen on the floor will raise even a temporary objection to the passage of this bill today. Downtown congestion is costing the citizens of Chicago millions of dollars a year. The outer drives are planned to relieve that congestion, but they are worthless as they now stand without a connecting link."

## HUNT THIEF AS KILLER OF WOMAN DURING ROBBERY

Abandon Suicide Theory  
in Razor Death.

CRIMINAL COURT.  
John Synodski, burglar, sentenced to the Bridewell for 1 year by Judge Harry B. Miller.

Police swung last night from a theory of suicide to one of murder in connection with their investigation into the death of Mrs. Ida Klever, 43 years old, whose body, the throat slashed with a razor, was found at noon upon the kitchen floor in the Klever flat at 3727 South Winchester avenue.

The suicide belief was dropped upon discovery that the flat was in a disheveled condition when the body was found and that several small sums of money declared by members of the family to have been tucked away in various nooks had been stolen.

No Suicide Motive Found.  
Richard Klever, husband of the victim, who is employed in the Libby plant at the stockyards, told Capt. James L. Mooney of Brighton Park police about the missing money, about \$30 in all, and insisted that his wife had no reason to kill herself.

The Klever twins, Edna and Lilly, 15 years old, found their mother's body when they arrived at home from school for lunch. The girls ran screaming down the back stairs and neighbors called police and summoned Klever and another daughter from their work.

Beside the body lay Klever's razor, bloodstained, and this, with the fact that Mrs. Klever had recently been under the care of a physician for

nervousness, led to the early suicide belief.

Money in Home Missing.

But, in support of the murder theory, a partially eaten lunch of toast and egg was upon the kitchen table; a drinking glass upon a pantry shelf in which Klever said his wife had about \$15 when he left for work, was empty; a toy bank in which the twins had left \$12 was also empty, and a purse was found upon the floor turned inside out.

"I did not kill herself," said Klever. "Some prowler found her alone eating her lunch. She fought him and he reached up to that shelf and got my razor and killed her."

No one in the neighborhood could remember seeing any one entering or leaving the Klever apartment and neither Klever nor his daughters could throw any light upon the possible identity of the slayer.

## ROBBERS BIND WOMAN IN FLAT; LOOT IS \$6,200

Four robbers early yesterday morning gained entrance to the home of Mrs. Emily Marshall Novak at 18 North Curtis street, and after cutting the telephone wires they tied her and her husband with cord and escaped with \$2,100 in currency and jewelry valued at \$4,100.

Mrs. Novak told the Desplaines street police that the men knocked on her door at 6 o'clock. She admitted them. When she tried to resist they bound her and forced her to lie on the floor beside her husband. Then for a half an hour the men ransacked the house.

According to the police, Mrs. Novak has been arrested and fined on several occasions for running a disorderly house. When she reported the robbery they immediately started an investigation.

## Kentucky Senate Rejects Child Labor Amendment

Frankfort, Ky., Feb. 1.—[AP]—The Kentucky senate today rejected, without a dissenting vote, the proposed child labor amendment to the United States constitution.

## CONVICT CLAIMS \$6,000,000 LEFT BY E. B. JENNINGS

## 'Nephew' in Michigan Prison Files Will.

A new will in which Edwin B. Jennings, pioneer Chicagoan, left his \$6,000,000 estate to Edward C. Koester, inmate of the state prison at Marquette, Mich., serving a term for forgery, was filed yesterday before Assistant Probate Judge Frederick W. Elliott.

The will was mailed by Koester to

Attorney Joseph Z. Willner. In an interview last night, the convict described the circumstances under which the will was drawn up.

"Mr. Jennings made the will at the Victoria hotel in Chicago on Oct. 3, 1918," he said. "I was not present when he made the will, but joined him later. The witnesses were Miss Mary Stahl, public stenographer at the hotel; William Lawrence, whose address I do not know, and Lester Ensigna of Grand Rapids, Mich."

Koester Claims Kinship.

Koester said he was a nephew of Jennings. He is serving a term of from five to fourteen years on a forgery charge. He entered the prison a year

ago. He was said to have had a previous criminal record.

The will is a typewritten document. It states briefly that "all my property, real and personal, is given to my dear friend, Edward C. Koester." The Northern Trust company is appointed trustee.

Jennings' signature is followed by two large "x's" in ink.

A few weeks after Jennings' death in 1923 a torn scrap of paper was mailed to the Northern Trust company. It became known as the mystery will. The person who sent it was never discovered.

Appeal Now Pending.

After three years of litigation, this will, which gave most of the Jennings estate for educational purposes, was

declared not genuine. An appeal on this ruling is now pending before the Illinois Supreme court.

The chief claimants are eight second cousins, who were designated as the legal heirs by Probate Judge Henry Horner. A host of other claimants have appeared, among them a cowboy and a British war nurse. The latter declared she saved Jennings' life several years ago and as a reward was given a \$250,000 bequest.

FRANKS HONEST POLICEMEN.

Miss Loretta Gable, 3011 North Racine avenue, yesterday praised two policemen for their honesty after they had found and returned her lost pocketbook. Policemen James Kerwan and Frank Rosner of the Summerdale station found the purse near Southfield and Barry avenues. It contained money and jewelry to the amount of \$2,000.

## BRICKMAKERS OPPOSE TILE AT ZONING HEARING

Representatives of brick manufacturers who appeared before a subcommittee on buildings and zoning to argue for the use of brick, to the exclusion of all other building materials, for retaining walls in building, spent most of their time, criticizing the United States bureau of standards code which permits a broad use of hollow tile as well as other materials.

William G. Schlake, president of the Illinois Brick company, led the attack. He charged that the report was unfair in the tests stipulated for brick and tile.

"I cannot understand the reasons for the tests adopted by this commission," he said. "They have resorted to foul means to sneak in other materials that do not measure up to brick."

"Do you mean to say that when this commission was meeting and drafting this code which recommends the use of hollow tile that your interests were not present to question the wisdom of all of the specifications?" asked Ald. A. J. Horan (21st).

After some soundering, Mr. Schlake said that the brick people did not know for what purpose the commission named by Herbert Hoover, secretary of commerce, had been appointed, adding, "These commission sometimes sneak things through."

"Well it seems funny to me that you are here trying to convince us that the commission was unfair and that you could not get reputable engineers to listen to your arguments when their recommendations were drafted," replied Ald. Horan.

The council subcommittee is considering an amendment to the building code which would permit use of hollow tile in Chicago with an attendant saving of \$10,000,000 annually in building costs. The subcommittee adjourned without action.

## DRIVE ON HEART DISEASE STARTED; CITY COOPERATES

### Bundesen Lines Up Behind Movement.

Chicago is going to put its shoulder to the wheel in the "Help Prevent Heart Disease" campaign of the Chicago Heart association, which opened yesterday with a flood of mail that nearly inundated the desks at headquarters of the association, 308 North Michigan avenue. There were also scores of telephone calls and personal messages. The drive will continue through February.

At the annual dinner of the organization at 6:30 o'clock tonight at the City club, Mrs. Gertrude Howe Brit-

ton, executive director, will tell of the work the association has done during the last year, and will also report on the encouraging response to the campaign.

### Bundesen Leads Drive.

Among the first of the scores of cooperating organizations that responded to the appeal was the board of the Municipal Tuberculosis sanitarium, which at its regular meeting yesterday collected and sent in \$175 to the drive headquarters, following an enthusiastic address by Dr. Herman N. Bundesen, city health commissioner, who warmly approved the work of the society.

The Chicago Woman's club, the Charity Alliance, the Greenebaum bank, David Mark Cummings, and others made contributions of \$25 each. Small crimson heart stickers bearing the campaign slogan and selling for one cent each are the organization's means of raising the desired \$30,000 for the prevention of heart disease in Chicago.

\$50,000 Fund Is Needed.

They are being distributed through

women's clubs throughout the city, through booths at the Chicago Woman's club and the Friendly Aid organization, by the members of the woman's board of the Chicago Heart association, and are on sale at several of the largest department stores.

While \$30,000 is the minimum quota that it is hoped to secure from the

campaign, \$50,000, if it can be realized, will permit much additional research work and extended clinical facilities necessary to assist in combating the increase in this disease, which claimed 175,671 lives in 1924 in the registration area of the United States. One out of seven deaths in Chicago in 1924 was due to heart disease.

## Teeth Made White —glorious, gleaming!

Your gums like coral to contrast them—just  
remove that dingy film, see what happens

Please accept 10-day tube to try

HERE are beautiful teeth for the asking. Those dazzling clear teeth that add so immeasurably to one's personality and natural charm.

Millions have found them in this new way. Dental authorities urge it. In a few days you can work a transformation in your mouth. Dull teeth thus are made to glisten. Gums are firmed and given a healthy, coral color.

Now a test is being offered. Find out what can be done with your teeth, quickly, amazingly. Just mail the coupon.

Film—that's the trouble. Dental science now traces source of teeth and gum troubles to a germ-laden film that forms on your teeth.

Run your tongue across your teeth and you will feel it—a slippery, viscous coating.

That film absorbs discolorations from food, smoking, etc. And that is why your teeth look "off color" and dingy.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack and your teeth open to decay. Germs by the millions breed in it. And they, with tartar, cause pyorrhea.

More beautiful  
won't do

Ordinary dentifrices and cleaning won't fight film successfully. Peel for it now with your tongue. Note how your present cleaning method is failing.

New new methods are being used. A dentifrice called Pepsodent—different in formula, action and effect from any other.

Longest on dental advice the dentifrice turned to this method.

Removes that film  
Firms the Gums

It accomplishes two important things at once: Removes that film, then firms the gums to healthy coral tint.

A few days' use will prove its power beyond all doubt. Send the coupon. Clip it now before you forget.

FILM the worst  
enemy to teeth  
You can feel it with your tongue

## Buy in Libertyville

—suburb of opportunity—in the  
beauty region of Lake County—at  
the terminal of the New Skokie  
Valley Route of the North Shore Line.

These pictures show you the kind of place  
Libertyville is. No pioneering here.

It is an established thriving community.

It has sewerage, water, gas, electricity, tele-  
phones, fire and police protection.

By means of the new electric transportation  
service to Chicago's "Loop"—soon to start  
—it will be a more convenient place to live  
than many sections of Chicago proper.

Now—while there are choice locations left  
—choose a home site in our Libertyville High-  
lands—a beautiful new development right in  
Libertyville with all the conveniences of  
Libertyville ready to serve you.

Low prices rule in Libertyville Highlands.  
Convenient terms of payments can be ar-  
ranged. "Safety Policies" insuring to your heirs  
or estate the lot you choose without further obli-  
gation, should you die, are given without cost to you.  
A special building financing program enabling  
you to have a home soon after  
you buy a lot is at your service.

Thousands have been waiting for just  
such a chance as this. Don't postpone  
investigating. Phone our offices or mail  
the coupon now.

## For Big Profits and Quick Returns— BUY GREATER CHICAGO ACRES

Acres today—city lots tomorrow

Priced  
at **\$350** Per  
Acre

Terms: \$10 a month

This land is located near stations, on rapid transit; near schools, stores and churches and right in the path of Chicago's greatest future development. You can make big money by purchasing these acres today that can be subdivided into city lots tomorrow. Such land should pay you big profits on every foot you buy and in this way you can profit by the tremendous growth of Chicago.

All titles guaranteed by the Chicago Title and Trust Company

Every acre of this land will divide into eight city lots. You can live on this land now and pay for it with your rent money—or you can cultivate it and make money by raising fruits, poultry and vegetables. Later you should be able to cut up this land into city lots and each lot should then sell for as much as you now pay for a whole acre. In the last few years hundreds of our purchasers have made big money by the increasing values of their land, which was bought with a few dollars down, balance like rent.

A few years ago one of our customers bought five acres of such land for \$1,800 and recently refused \$12,000 for a 100-ft. lot off this land.

Another customer, who paid us \$1,850 for five acres of land a few years ago, sold a 100-foot piece off this land for \$8,000 and still has left over 4½ acres.

Acres on the Northwest Side that we sold a few years ago for \$800 each are now selling for as much per lot as the purchasers originally paid for an acre.

We have hundreds of other such instances of profit-taking on our lands sold only a few years ago.

You can make similar profits—and you need only a few dollars to start with.

At Rate of  
**\$43.75**  
Per Lot

Each acre will divide into eight lots. At  
the price you are now paying (\$350 per  
acre) each lot is costing you but \$43.75.

## MERGE SURFACE LINES AT ONCE IS HARRIS' PLAN

View of Security Owners  
Presented to Aldermen.

Immediate consolidation of the surface lines into one company with a complete financial reorganization to assure needed capital is recommended by A. W. Harris, chairman of the Harris Trust and Savings bank and chairman of the protective committee of the first mortgage bond holders of Chicago Railways company, as the first step in reaching a solution of Chicago's traction question.

Mr. Harris' views are set forth in a statement made yesterday to Ald. Joseph B. McDonough (13th), chairman of the council committee on transportation, in response to an invitation from Ald. McDonough to meet with the committee in the near future in an effort to agree on a traction ordinance.

**Merger Committee Urged.**  
Appointment of a reorganization committee from the membership of the six protective committees of security holders of the surface lines at an early date to work out a merger was urged by Mr. Harris.

"It may be possible to secure legislation necessary for the required franchises and ordinances while the financial reorganization of the properties is taking place," Mr. Harris stated. "But no time should be lost from the security holder's point of view, in bringing about this reorganization or on the part of the city in cooperating to get the needed legislation."

No authority is vested as yet in the respective protective committees to act, Mr. Harris pointed out, and until the bonds and certificates are deposited to actual agreement can be consummated. But a satisfactory arrangement has been agreed upon before February, 1927, the courts will have these matters in hand, he said.

**Get Ready for Proposals.**  
"It is hoped that the security holders will be able to agree upon a plan of reorganization which will put them in a position to agree immediately with the city upon an ordinance under an indeterminate franchise as soon as such right is secured from the legislature so that no time will be lost," Mr. Harris said.

Replies to the transportation committee's invitation to meet with them as soon as possible were also received from four other chairmen of protective committees of surface lines security holders. Frank O. Wetmore, chairman of the First National bank; E. E.

Sunny of the Bell Telephone system, J. E. Blunt of the Illinois Merchants' Trust company, and E. L. Loddell, investment banker, in their replies pledged cooperation and agreed to meet with the committee at an early date.

### Blair Cites Former Plan.

Replying to requests from the committee to submit a statement of fundamentals as a basis for a traction ordinance, Henry A. Blair, president of the Chicago Railways company, stated that his views were clearly outlined in the plan offered the city in 1924.

Mr. Blair said he had nothing further to offer the city and renewed his

plea for cooperation of the city in obtaining enabling legislation which he declared is a prerequisite to the financing of any comprehensive transportation plan.

### Caught in Barbed Wire Fence Man Freezes to Death

Racine, Wis., Feb. 1.—[Special.]—Myron Jacobs, 73, froze to death during the extremely cold weather of last week when he became caught in a barbed wire fence through which he attempted to crawl. His body was found yesterday. Jacobs disappeared from his home on Jan. 26.

# CARSON PIRIE SCOTT & Co

In the Section of Moderately Priced Frocks  
**Frocks of Crepe de Chine at \$20**

Each frock brings a new style feature. So that there is a keen interest in choosing as well as satisfaction in saving here in this section.

**Fagoting Makes the  
Yoke and Pockets**

That and the clever handling of pleating tell how important in spring fashions is this frock. The silk is of notably good quality as is, too, the workmanship. This frock sketched may be had in sizes for misses and women.

In Almond-Color, Green,  
Bois de Rose, Black, White

Fourth Floor, Wabash Avenue Building.

In the Sports Section  
**The Smarter New Versions of  
Wool Jersey Frocks at \$25**

Here is a frock that retains the simplicity of line necessary to success in a jersey frock and adds the cleverest of details in the

**Embroidery of  
Fluffy White  
Angora Wool**

And here and there through the embroidery a touch of black.

**Tiny Silvered  
Buttons and  
Silken Loops**

Carry out the unusual details of this frock sketched. In sizes 14 years to "38." Colors are jade, almond green, powder blue, pearl gray and moth-color.

Fourth Floor, South.

**Tub Silk Frocks at \$22.50**  
White Organdie at Collar and Cuffs

They are essentially the frocks of springtime.

The soft, shimmering silk, the crisp, fresh-looking organdie, the lovely colors, tell that.

**Pleats Skillfully Placed  
Give a Tailored Air**

So that these frocks may serve for general as well as for dress-up, and prove a practical choice.

They may be had in green, orchid, old blue, peach, white. Sizes 16 years to "44." So that there is a wide choice both in color and sizes.

Fourth Floor, North.

**Shantung, Silk-and-Cotton Mixed  
Unusual at 65c Yard**

Fabrics of this texture are promised a great vogue this season. The weave presented here is especially silky and finely woven. Many colors offer wide choice. 36 inches wide.

Old Blue	Jade	Tangerine	Havana	Pink	Mulberry
Natural	Tan	Navy Blue	Gray	Reseda	Black
Old Rose		King's Blue		Old Gold-Color	

Second Floor, North.

**February Sales  
For the Home**  
Furniture, China,  
Rugs, Lamps, Glass,  
Curtains, Draperies,  
Housewares

**In the Gray Shop  
Frocks of Crepe Satin, \$55**  
Successful Adaptations of Fashions

The new silhouette, the distinguishing style details, the brighter colors are skillfully handled in this frock for women who require

**The Extra and  
Larger Sizes**

A long, unbroken line is attained by a slender panel at the back, and this length of line is carried out by a scarf collar.

**Flare Without  
Fullness**

This is successfully accomplished by godets in the frock sketched.

The frock may be had in an exquisite petunia shade, golden brown, green and black. Not every size in every color.

Ninth Floor, North.

**A Sale of Extraordinary Sort—**

**Automobile Wardrobe Trunks**  
A Value Seldom Equaled  
At \$21.50

New, specially purchased trunks of superior kind. Strongly the value is stressed. When such trunks are offered at this low price, a selling occasion that cannot easily be surpassed is created.

**For Automobile Travel or Use Aboard the Steamer**  
Compact and Very Well Equipped  
Furnished with Cover and Fastening Fixtures

There are eight hangers, two trays. The lining is of cretonne, as are the shoe pockets. There is a convenient trolley to aid packing and unpacking.

The trunk is sturdily built of veneer covered with heavy fabric and has nickel-trimmings. The covered trunk is sketched at the right.

First Floor, Wabash Avenue Building.

**Fine All-Wool Jersey Cloths**  
The Weight Wanted for Spring Frocks  
**\$1.85 Yard**

CLOSELY knitted of fine worsted yarns, whose excellent quality give at once a lightness of weight and a firmness to this jersey cloth.

No new and desirable color seems lacking. Among many are the tans, grays, blues, beige, buff, golf red, reseda green, in their various shadings, as well as navy blue and black. 54 inches wide. \$1.85 yard.

Second Floor, North.

The fabric is cleverly chosen to interpret the style and deftly handled, so that "line"—that all-essential in hats—is achieved.

Bengalines, felts, taffetas and satins, each serve in their own individual way and the hats which result attain a smartness decidedly out of the ordinary. Note the sketch.

**Prices Are \$20 to \$35**

Fifth Floor, South.

OUR MR. MOORE IN THE  
WORLD COURT.

America is in the world court, provided the 48  
league nations will accept the senate reservations.  
When they do, if they do, will Judge John Bassett  
Moore resign as one of the present sitting judges?  
He was given a place on the international bench,  
although the United States was not attached to the  
court, ostensibly to command the services of a  
distinguished authority on international law. He  
has been on the Hague tribunal for thirteen  
years. He has been assistant secretary of state  
and adviser to the state department and plenipotentiary  
on several occasions to international  
conferences. He belongs to a string of foreign  
and international societies.

His election was a recognition of activities in  
many years in international affairs, but it also  
was an apparent preparation for the reception of  
the United States and an influence to that end.  
The league may have wanted Mr. Moore in the  
court, but it wanted the United States still more.

Among the conditions of American participation  
in the court is the reservation that the United  
States shall vote in the league in the election of  
judges and shall bear its part in the expenses of  
the court. Mr. Moore was nominated for the court  
in 1921. The procedure is that the national group  
in the Hague court of arbitration shall present  
names to be considered by the council and the  
assembly of the league of nations separately. The  
first election required the choice of eleven judges  
and four deputy judges by majority vote in each  
house of the league.

The initial proceedings convey a sense of night-  
mare. Eighty-nine candidates were presented by  
the national groups which are confidently expected  
to keep away from the influence of their govern-  
ments and consult only their supreme judicial  
authorities and persons interested in the teaching  
and study of law. Jealousy confidence. The four  
American members of the court of arbitration kept  
out of this, saying that they had no authority to  
participate.

Mr. Moore was the candidate of Italy. Elihu  
Root was the candidate of Bolivia, Brazil, France,  
Uruguay, and Venezuela. James Brown Scott was  
the candidate of Haiti, and Roscoe Pound was the  
candidate of Spain. Four Americans were thus in  
line for an international judgeship. Pretty com-  
plications to their character, but that does not  
relieve the sense of nightmare. If Siam had  
guessed better if might have been god-papa to  
Judge Moore.

He was elected on the second ballot in the as-  
sembly and was on the final list of the council. Roy  
Barbosa of Brazil, one of the first judges elected,  
died before he could take his seat, and in 1923 the  
secretary general of the league notified the national  
groups of the Hague court that nominations would  
be received for the election to fill the vacancy.  
Here the American group appears to have joined in  
Epitacio da Silva Pessoa of Brazil was pre-  
sented as the candidate of his own country and of  
Belgium, Chile, Colombia, Cuba, Denmark, the British  
empire, Spain, the United States, Finland,  
France, Haiti, Italy, Japan, Panama, Peru, Poland,  
Portugal, Sweden, Switzerland, Uruguay and  
Venezuela. The Tower of Babel was at least  
begun without a confusion of tongues.

Mr. Moore is on the bench with the compliments  
of Italy but, as we see, it might have been of Haiti  
or Siam. Inasmuch as it is the confident hope  
that no national group in the court of arbitration  
will allow itself to fall under the influence of home  
politics or government in presenting a candidate  
it is in the form of order for the American ad-  
ministration, executive or legislative, to have any-  
thing to do with the selection of the American  
judge.

He must be divested of his national garments  
and be all dressed up in international law before  
he can appear as a candidate before that singu-  
larly nonpolitical body, the council of the league,  
or that overgrown kindergarten, the assembly. It  
might be an evidence of good faith if he couldn't  
speak the language of the country to which he  
was accredited.

Nevertheless we feel that the continuance of Mr.  
Moore in the court would leave something to be  
desired by the equities of the case. His term does  
not expire until 1930, and it has been said since  
the senate vote that Europe, Asia, and Africa will  
not tolerate the thought of losing him. The United  
States has insisted that it must have part in the  
election of judges, which puts it in the league of  
nations. We might say that we'd like to have  
something to say as to the judge accredited to this  
country. Possibly we'd put Mr. Moore back in  
again, or possibly the assembly and the council  
would not have anything else. If so, there's nothing  
much we could do about it.

We might feel that in courtesy we ought to  
return the compliment to Italy, Siam or Haiti, and  
present an Italian, Siamese or Haitian candidate  
for Mr. Moore's place. There'd be a comfortable  
feeling of independence in being allowed to do it,  
although it wouldn't be independence. We chuckled  
that when the senate chuckled us into the court.

but if we wanted a Siamese judge, shouldn't we  
be allowed to say so even if we didn't get him?  
Confidence in the same functioning of an  
organization composed as above indicated requires  
an amazing credulity. A first class international  
ministry show might come out of such processes,  
but as a court the processes can produce only  
intrigue or absurdity. We know that some people  
think otherwise, but it takes an optimism which  
nothing yet has justified.

Courts represent the experience of people in  
common. This, which is called a court, is a  
congeries of diverse and conflicting peoples, who,  
even if they were on the square in assembling a  
judiciary, would have to divest themselves of  
everything which has made them what they are.  
Every time they make agreements they seek their  
own self-interest generally regardless of justice  
and we are to believe that in another form they  
will seek justice regardless of self-interest. Our  
Mr. Moore is our judge in that attack on the  
credulity and we did not have anything to say  
in making him judge.

THREE COAL MINE  
EXPLOSIONS.

Three coal mine explosions occurred a few days  
ago in various parts of the United States.

Of fifty-three miners in the Mossboro mine  
near Helena, Ala., at the time of the explosion  
27 were killed.

Of 36 men in the Bear Cañon mine in Colorado  
three were killed and the other 33 were severely  
burned. Not a man in the mine, the dispatches  
say, escaped injury.

Much the same kind of explosion occurred in  
the Orient mine near West Frankfort, Ill. This  
is one of the largest mines in the world. Eleven  
hundred men were in it when the explosion took  
place. Only five were killed. They were in the  
immediate vicinity of the explosion.

There is no law in Illinois requiring the rock-  
dusting of coal mines but that important safety  
measure had been installed in the Orient mine.  
There seems to be no doubt that the area of the  
explosion was limited by rock-dusting and that  
many lives, perhaps hundreds of them, were  
saved by that circumstance.

Rock-dusting consists of spraying the mine  
workings with pulverized rock. This method of  
preventing serious mine accidents due to explo-  
sions of coal dust was developed first in Great  
Britain. It has repeatedly proved its worth and  
nowhere more convincingly than at the Orient  
mine. It is difficult to understand how proprie-  
tors of some other mines in this state can remain  
blind or indifferent to the advantages of rock-  
dusting. There are few other industries in which  
safety measures which had so thoroughly proved  
their worth would not long ago have been adopted.  
The safety of the workman must always be the  
first charge against any well conducted industry.

CLEAN THE SCHOOLS  
OF ISMS.

Chicago school trustees, headed by Col. Edward  
B. Elliott, are moving on pacifism, with the inten-  
tion of wiping it and all other un-American isms  
from the curriculum.

That such a pamphlet as the syllabus, prepared  
during the previous school board régime for use  
in the eighth grade, could have been introduced  
into the public school system is incomprehensible.  
It is high time, indeed, that it should be thrown  
out.

It opens the door to pacifism and communism.  
Adults can discuss such topics in the light of their  
own experiences. Elementary school children have  
no such ballast and must depend on their teacher.  
One teacher infected with the yellow virus of  
pacifism and the red germ of communism, espe-  
cially in schools where classes rotate from one  
teacher to another, can contaminate a whole  
school. Such propaganda as the syllabus in ques-  
tion has no place in the eighth grade, nor in high  
schools either.

"The Boredom of the Training Camp," "The  
Initiative: How This Tool Takes Power from the  
Political Bosses and the Big Interests," "The  
Overthrow of Autocracy in Russia. How the Peo-  
ple of the United States Are Assisting the People  
of Russia. How May We Assist Them Further?"

These are some of the subjects contained in the  
syllabus. They sound like the agenda of an  
I. W. W. meeting instead of a school program.  
Training camps are boring. The political bosses  
and big interests may have too much power.  
When Russia recovers from her jaw undoubtedly  
the United States will help her. American money  
already has fed her starving children. But an ele-  
mentary schoolroom is not a forum for the discus-  
sion of problems that puzzle fully developed intel-  
lects.

The function of the elementary school is to put  
the pupil on the way to straight thinking. To fill  
him up with isms he cannot grasp is to defeat this  
function, if it does nothing else, and does not turn  
him into a softy and a parlor pink. The develop-  
ing child ought to get his Americanism first and  
the modifications afterward, instead of modifica-  
tions first and straight patriotism on the side.

## The Other Side

## SHALL THE INTERIOR BE TIED TO CHICAGO?

(Spokane Spokesman-Review.)  
The Chicago Association of Commerce revealed its  
attitudes at the hearing on the Gooding-Hoch bill be-  
fore the senate committee last week. Chicago wants  
to destroy boat service from coast to coast through  
the Panama canal, but it wants the United States  
government, at a cost of hundreds of millions of  
dollars, to develop the Great Lakes-St. Lawrence  
waterway to the Atlantic.

The policy of the transcontinental railroads is to  
force the products of the Rocky mountain and Pa-  
cific coast states eastward to Chicago territory.  
They are hostile to the delivery of the products of  
the interior to the Pacific coast cities. They are  
hostile to the Panama canal and favorable to the  
Great Lakes-St. Lawrence waterway.

The transcontinental railroads want to destroy  
steamship service through the Panama canal. A  
high official of the Northern Pacific has declared  
publicly that "We would all be better off if some  
one filled it in." They are against the canal and  
against the movement of the products of the interior  
to the harbors of the Pacific coast. They are for  
the Great Lakes-St. Lawrence waterway because they  
want to move the products of this region to the east.  
And the amazing thing is that the chambers of  
commerce of the Pacific coast cities, with the sole  
exception of the chamber of commerce of Los An-  
geles, are helping Chicago and the transcontinental  
roads to run the ships out of the harbors and make  
the interior tributary to Chicago.

LACTEAL LINES.  
Motorist (after the smash)—This is what comes of  
keeping to the left of the white line.

rible.—Boston Transcript.

How to Keep Well.  
By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, if  
matters of general interest, will be answered in this column. Where space will  
not permit, or the subject is not suitable, letters will be personally answered,  
subject to proper limitations, and where a stamped, addressed envelope is in-  
closed. Dr. Evans will not make a diagnosis or prescribe for individual dis-  
eases. Requests for such service cannot be answered.

(Copyright—1926: By Dr. W. A. Evans.)

CITY AND COUNTY  
HEALTH.

"W"ITH such conditions the efficiency of the public school  
system is necessarily low, and it is clear that by divert-  
ing to public health work some of the money ap-  
propriated for school purposes to the extent, if necessary, of causing all  
the public schools to be closed for one  
year in five—a net gain would be realized  
in the educational results from the pub-  
lic school system.

The man responsible for this opinion is  
Dr. L. L. Lumsden of the United States public health service. The conditions  
he referred to were some instances of  
100 per cent infection with hookworm,  
and others of 90 per cent infection with  
chronic malaria observed by him in his  
work for the improvement of the health  
of people in the rural districts in all  
parts of the United States. The health  
of the people who live on the farms is  
still as good, or a little better, than that  
of the people who live in the cities. But  
at that, the improvements in rural  
health have not kept pace with the im-  
provements in city health. The man in  
the city now is about twice as well off  
than was the man in the city forty or  
fifty years ago.

The farmer, his wife and his child have  
come pretty near standing still in the  
same period. One reason for this is the  
lack of county health departments.  
Farmers have county attorneys, county  
veterinarians, county farm advisers,  
county sheriffs, clerks and surveyors,  
but they do not have county health offi-  
cers.

The United States public health service,  
after years of study in the field, prin-  
cipally under Dr. Lumsden, has come to  
the conclusion that the county is the  
proper unit for a health department.  
They believe in it so strongly that they  
press given them about \$75,000 to be  
used in helping out. The service loans  
well trained men to the states to get  
the work of promoting the people stand-  
ing and keeping them on the job and all  
the beginning trial-and-error period has  
passed.

In some places the county health depart-  
ment is not best. In Cape Cod district  
in Massachusetts a group of ten nearby  
towns have a single health department  
serving the collection, and it is working  
well. The service helps out there. In  
Georgia, a group of four counties lying  
side by side have one department for the  
three. That works well. In some parts

of Virginia they have a district plan  
which is working nicely. In the pre-  
sent year there were 79 of these cooperat-  
ing county districts in operation.  
They served something like three hun-  
dred thousand people. In addition, there  
were many counties where county and  
district health departments doing rural  
work were so well established that they  
needed no cooperation.

In all, there are now 230 county and  
district health officers. Ohio is the  
banner state. In all these counties the  
state health department, the tuberculosis  
associations, local Red Cross chapters,  
children's bureaus, infant welfare soci-  
eties, social hygiene societies, visiting  
nurses—are all working together.

HAD T. B. A YEAR.  
A Reader writes: I am 37 years old  
and have had tuberculosis for one year.  
In the past four months I am getting bet-  
ter and better. I look well and am gain-  
ing and at present weigh 175 pounds.  
I would like to remain this weight. I  
look big and healthy and feel very  
strong, only that when I cough I raise  
that green sputum, at night only.  
Now, doctor, if you will be so kind,  
please let me know if I can go to busi-  
ness again, and if I can marry.

REPLY.  
You ought to be able to do both in time,  
if you will follow your physician's advice.  
Be careful to live properly after you dis-  
ease has been arrested and you have returned  
to work.

GUM CAUSES HUNGER.  
H. P. writes:  
1. I am on a diet and at times I feel  
very hungry. In order to lose that  
hunger I chew gum. Is that a bad sub-  
stitute?

REPLY.  
2. No acids, such as grapefruit and or-  
anges, help to reduce?  
1. There is no harm in chewing gum except  
that it makes you hungry.  
2. No.

DON'T USE A THERMOS BOTTLE.  
Mrs. M. McC. writes: Will you kindly  
tell me if a baby's food prepared with  
milk could be kept safely in a thermos  
bottle without souring?

REPLY.  
I presume you mean to ask the following  
question: Is it proper and then to keep it warm in a  
thermos bottle for several hours?  
If so, the answer is NO.  
Please note that I have said "No"  
loud and often.

THE TRIBUNE'S COLUMNS  
65 YEARS AGO TODAY

FEBRUARY 2, 1861.  
NEW YORK.—The Tribune's Wash-  
ington correspondent asserts positively  
that dispatches were sent to Alabama  
that Fort Pickens must be stormed at  
once as the only way to precipitate  
Virginia into secession.

WASHINGTON.—It is understood  
that the first movement in the conven-  
tion of commissioners from the states  
on Feb. 4 will be propositions by Vir-  
ginia for the withdrawal of the Federal  
troops from Washington, guaranteeing  
there shall be no hostile demonstration  
affecting the peace of the capital.

WASHINGTON.—A cabinet officer  
said that if Virginia should decide to  
go out of the Union on Feb. 4, a raid  
would be immediately made on Wash-  
ington by Virginia forces and he could  
see no way to defend it except by a  
small all-Union force for volunteers.  
Orders have just been issued for the  
enrollment of all persons subject to  
militia duty in the District of Colum-  
bia.

WASHINGTON.—Representative  
Kellogg of Illinois offered a joint resolu-  
tion for an amendment to the con-  
stitution prohibiting slavery, except  
for punishment for crime, in all ter-  
ritory north of 36°30' while it shall  
remain under territorial government,  
and allows it in all territory south of  
that line while in a territorial con-  
dition, and providing that states shall  
be admitted as slave or free as their  
constitutions may provide.

SPRINGFIELD.—The senate passed  
a resolution to name commissioners to  
the Washington convention as urged  
by Virginia. The house will pass it by  
a strict party vote. Gov. Yates prob-  
ably will make the appointments to  
return. President-elect Lincoln has re-  
turned from his visit to old friends  
in Coles county. He was met by a  
committee from Cincinnati, who in-  
vited him to stop off in that city on  
his way to the inauguration, and he  
accepted.

25 YEARS AGO TODAY

FEBRUARY 2, 1901.  
CHICAGO.—The Cook county grand  
jury voted indictments against the  
county civil service commissioners,  
James D. Morrison and Walter Lantz,  
and also against George W. Lovejoy,  
who until the morning was a member  
of the board. The charge is that they  
certified applicants under the civil  
service law without holding "public,  
competitive and open examinations."  
NEW YORK.—The syndicate com-  
posed of William K. Vanderbilt, J.  
Pierpont Morgan, the Rockefellers, and  
E. H. Harriman, acting for the Union  
Pacific Railroad company, which it  
controls, has acquired a majority of  
the stock of the Southern Pacific com-

## A LINE O' TYPE OR TWO

How to Line, let the  
quips fall where they may.

## LINES TO A GROUND HOG.

A kindly notice sent to warn you, Ground Hog,  
Would tell you not to linger here today.  
Transact your business, take one look around,  
And if you're wise, continue on your way.  
And if you spy your shadow, Mr. Ground Hog,  
Don't hesitate to see how nice you look.  
Take that for granted for the next six weeks,  
And hunt at once your subterranean nook.  
And more than all, if humans you should meet,  
Don't wink and nod and cock a knowing head.  
I've always liked you, Ground Hog—I'm your friend  
And it would grieve me much to see you dead.

BILLY MITCHELL is out of the army. He is  
free, free, free. Now he can say what he likes.  
All you old ladies, and you children stand back from  
the ropes. Quick, now. Get back there, boy. Hey,  
madame, you can't stand there. Get back every-  
body. Now, then, Billy, go to it.

Why Wait?  
R. H. L.: If you don't like the weather just  
wait a few minutes.

Pooh, Our Story's Funnier 'n 'At.  
R. H. L.: I know the rest of it. The coach was  
full and so was the band. A kindly minister per-  
ceiving their hilarious behavior said: "Boys, you  
are all going to hell." Whereupon the bandmaster  
shouted, "All out, we are on the wrong train!"  
W. O.

## THE CANDID HEAD WRITER.

[From the W. G. N.]

CHICAGO'S BIRTH  
RATE INCREASES,  
FIGURES SHOW

JUST EV.

You Go Hunt for Your Crystal and Keep  
Hunting, Too.

Goeh, Dick, I'll tell you what to do, spring the  
rest of the story about the band and the conductor  
on Line Nite! Ain't that a fine idea? HOWARD.

"ON ALTERNATE NIGHTS," says THE TRIB,  
"Lady Diana Manners enacts the rôle of the nun,  
demanding a weary and sustained period of run-  
ning, running, running—miles of distance are  
covered at each performance." And the Lady Diana  
quintally added, "I felt almost when I was called  
to 'The Miracle' I had a vocation." Well, if you  
have to run around like that, Lady Diana, it must  
be a vocation; it certainly is no vacation.

THA RITCHOUSE ANGER OF A  
GRATE POTE.

Tuh Chicago Blues: Lissen, sister! Yew an'  
mo mit an' I have it o' er! Tuh begin  
with, yew sed I wuzn't hi-brow. How kum? How  
kum? I know wuz so dam long that Webster  
woudn't put it in the dictionary fer fear they  
woud start a epidemic uv stuttering. Gawd knows  
I argued in favor uv puttin' them in. "No," sez  
Noah, "sich words woud be entirely too difficult  
for the ordinary college professor or diplomat!  
Keep 'em fer yerself!" "Well," sez I, with my  
usual nonchalant, sang-froid an' brazen affron-  
tery, "have it yer own way, hombra, it's yer dic-  
tionary." Yew have also made a statement tuh  
the effect that I aint no gentleman. Having seen sum  
uv tha hombra yew are classed as such, I en-  
terly thank yew fer the compliment. But yer  
all wet if yuh think I'm going' tuh dedicate that  
piece uv mine tuh yew ferget that this is my  
penna be tha greatest poem wot ever appeared in  
the Line. It will cause a sensation! It will be  
talked about fer years! My photograph mite even  
appear in the people's gas gazette! Dedicate my  
words (wuh will be ready in a day or two) tuh  
yuh female? NAW! LEMME ALONG! YEW  
WIMMIN BOTHER ME. SNOWSHOE AL.

Look Out, Thally, He Ith Going  
to Walk on Yuh.

R. H. L. Women are like carpets. If they  
aren't walked on occasionally, they're no good on  
earth.

Eat More Corn.  
Sir: I notice that our friend Mr. Burbank has  
developed a new variety of corn that grows eight  
feet tall and produces twelve ears of corn to the  
stalk. Low is sunk. Surplus is right. They  
won't let us drink it and we never could eat it.  
Suggest something and save Iowa. M. J. B.

Hasten, Phantom! They Want 'Em for Feb. 14.  
R. H. L.: Just had an idea, it's too sweet for  
words. I'm going to send my best and only copy  
of The Phantom Lover's new book, all done up in  
white paper with red ribbon and "Help prevent  
heart disease" seals all over it, for a Valentine!  
LA FILLE AIX CHEVEUX DE LIN.

OIL, THE BIG RED CAR, THE GREAT BIG RED CAR  
of Iowa that Ham of Sac City sent in. It drew  
the bound book prize yesterday, but it's so pretty  
that Mr. Hennes says she won't let the club Pub.  
Bo. have it for their Iowa corn display in one  
of the big windows of the Trib Loop Office at Dear-  
born and Madison streets Wednesday. It was Con-  
tributors' Day yesterday and so we had no oppor-  
tunity to mention that C. T. Hilmers of De Witt  
(Iowa, of course) won the bound book Saturday  
with a whacking fine ear of good, old-fashioned yal-  
low corn.

We Will Take Space from Dockevans and Vox  
Poppa.

Say, Dick, considerin' how long Snowshoe Al is  
about writin' that pome, d'ya reckon you can get  
it in the column at one settin'? ICHABOD.

More Litany.  
R. H. L.: S. L.'s "Litany" of things he prayed  
to be delivered from was comprehensive, but cer-  
tainly not complete. How in the world did he ever  
forget the jokes the newspapers print about the  
Dempsey-Wills match, Carpenter's Farewell (and  
fare well he will) Tour, "Red" Grange's picture  
in the racoon coat, news about Mary Landy  
Baker's wills or won'ts, and Peggy Hopkins Joy-  
ce, etc., Morner? Also Valentino's divorce! And loose  
galleons, and spit curls, and cretione coats, and  
sheik's rolled socks, etc., etc., etc.

JASON OF DEBUQUE.

GROUND HOG, when you come out today and  
look for your shadow, remember this: don't look  
too darned sharp. Your shadow will probably be  
there, all right, but you had better rubber at the  
sparrow crows or the reporters or the street cars  
or anything else but your shadow.

FOR if you happen to see it, ground hog, we're  
in for six weeks more winter. So, ground hog,  
yow's better be careful. If you see that shadow,  
ground hog, we're going to give you a kick in the  
panta.

R. H. L.

## THE FRENCH VIEW OF THE DEBT

[La Rire, Paris.]

(The Americans wish to audit our accounts.)

The Frenchman (to Uncle Sam): "Don't you also wish to glance over  
our death register from 1914 to 1918?"

## VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full names  
and addresses. No manuscripts can be returned. Address Voice of the People,  
The Tribune.

## FIRE PROTECTION.

Chicago, Jan. 30.—On Dec. 31, shortly  
after 2 p. m., Engine Company No. 78,  
located at 2100 Eastwood ave., Rawas-  
wood, rolled out of its station and pre-  
ceeded northward as though on a regu-  
lar fire call.

Little the neighbors or community at  
large know that this was to be the last  
run from the old station that had housed  
the company for thirty-two years.

The engine was on its way to a new  
location in the Rogers Park district,  
where the people of that community had  
long demanded more adequate fire pro-  
tection.

So indignant were the residents and  
business associations of Ravenswood that  
petitions of protest contained hundreds  
of signatures were rushed to Mayor  
Dever and the fire commissioners. This  
is, indeed, a sad situation for a district  
made up of frame residences, schools,  
churches, garages, manufacturing plants  
and department stores.

If the Rogers Park district has in-  
creased its fire hazard to such an extent  
that it needs more fire stations, then  
they should be organized and not taken  
from the Ravenswood district with its  
increasing risks. JAMES A. BILLINGS.

## BULL FIGHTING IN FLORIDA.

New York, Jan. 21.—In none of the  
papers that I see have I found any edi-  
torial upon the bull fights and cock fights  
in which Florida has been indulging.

The papers report that the worst fea-  
ture of a bull fight—the gored horse-  
was not permitted in the Florida affair,  
and that the bull was not killed but only  
tortured. Nothing was said about amelio-  
ration of the cocks' woes.

Such performances appeal only to the  
cruelty that is still a part of human  
nature. Only those who have a danger-  
ous kind of cruelty within themselves  
can find amusement in looking upon  
cruelty.

Cruelty is at the bottom of every crime  
—high brow or low brow. These fights  
involving dumb animals are nothing but  
a school for cruelty.

RALPH MONROE.

## GOWN REPROVES TOWN.

Notre Dame, Ind., Jan. 23.—"Hard  
Knocks" sure scores a knockout when  
he suggests that college students be  
given last chance at the Army-Navy  
spectacle ever held in Chicago will take  
place.

We're laughing. "Hard Knocks," we're  
laughing! How would you know just  
what team was ahead? Who would  
tell you the plays used? Would you  
know a line back from a forward pass?

In all probability Notre Dame will be  
playing that day, and when a Notre  
Dame team plays, who wants to see the  
Army-Navy game? SONNITA.

NOT SO GOOD AS POETRY.

CHINESE Blackwood side and armchairs, Early American and European tables, chairs, dressers, commodes, and benches are among the pieces of this group. They are all specially priced during the month of February.

Second Floor, South, Wabash

### Comforters Are All Reduced

The complete lines of comforters in our stock are reduced for this special February Selling.

Wool Comforters, 72x84 inches, sateen covered, in solid colors of rose, blue, lavender, yellow, \$9.50.  
Down Comforters, 72x84 inches, covered with figured chintz—9-inch border, \$18.50.

Silk Mull Comforters, 72x84 inches, \$8.50. Filled with the very finest cotton.

Second Floor, North, State

### The Sale of Domestic Rugs Includes Floor Coverings From the Finest Looms of the Country

In Beautiful Effects and Patterns

WHEN Rugs whose qualities set a standard in fine floor coverings are reduced for a special event, as they are in this February Sale, the opportunity to replace your worn rugs with ones that will give long service should not be neglected. Of unquestioned durability, these domestic rugs, Wiltons and Axminsters, score a new mark of achievement in color and design.

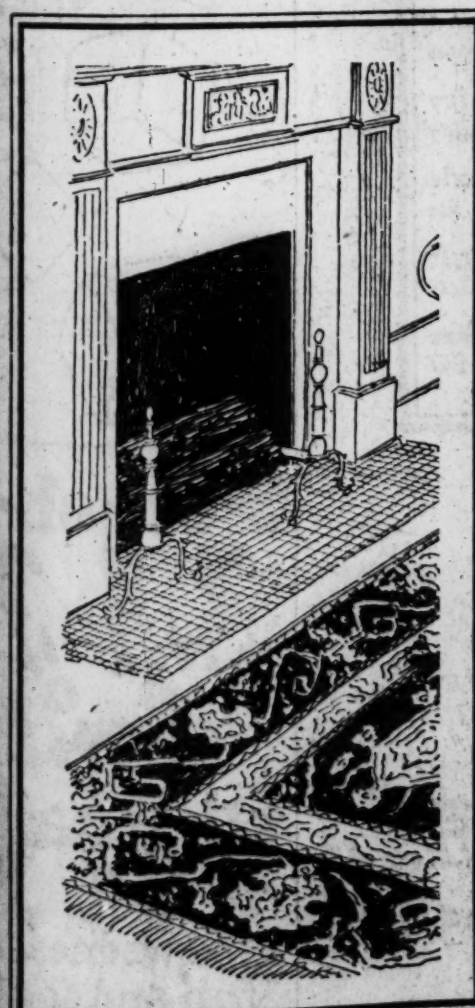

#### Lower Prices Prevail on All Rugs

Finest Seamless Wiltons, highest quality Worsted Wiltons, wool Wiltons, heavy Axminsters, Chenilles, Scotch Wools. All Summer Rugs, Linen Rugs, and mohairs are some of the kinds, each available in many sizes and patterns. From foreign lands are gathered representatives of the best that the European rug manufacturers have to offer—genuine French Wiltons, English Wiltons, German Wiltons, Spanish Alpujarras and Handtufted rugs. Cotton and wash rugs, as well as all our bathroom and bedroom rugs, are priced at low figures.

#### Seamed and Seamless Wiltons of Best Quality, 9x12 Ft., \$107.50

The 9x12 foot size, in particular, presents pronounced values. The range of patterns and colors in these best quality Wiltons is indicative of the variety which this sale commands.

Third Floor, South, Wabash

### Special Purchases of Fine Drapery and Upholstery Fabrics Feature the February Sale

And All Are Very Low Priced

THIS sale includes in its sweeping reductions a wide range of drapery and upholstery fabrics. Special purchases enable us to offer upholstery and drapery materials of fine quality at prices seldom quoted. See the exceptional values in this fifth floor section.

### Wool Tapestries and Mohairs Are Among the Materials of the Special Group

Thousands of yards of fabrics, wool tapestries among them, are marked at unusual prices. The range of the assortment includes among many others the following items:

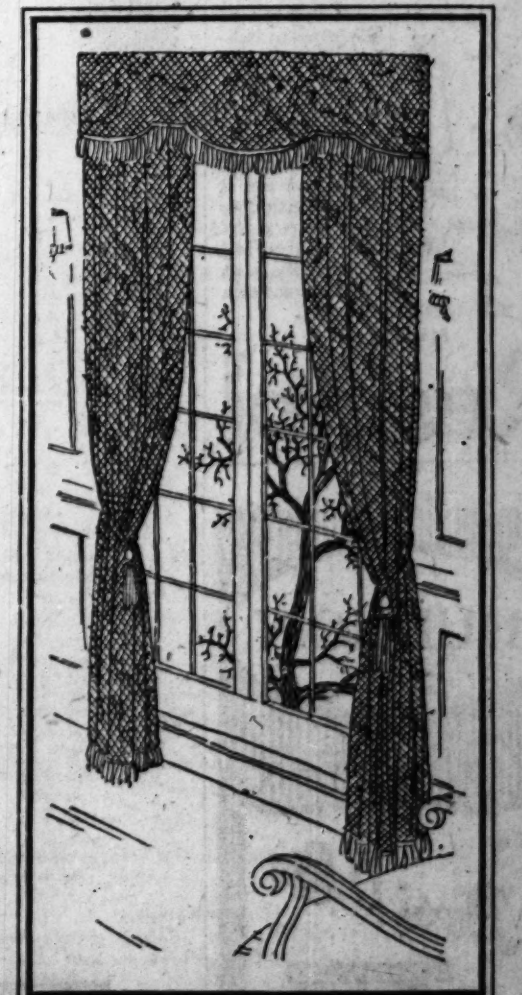

Tapestries, \$4.50 to \$8.75 yd. Brocade, \$5.75 to \$6.75 yd.  
Damask, \$1.25 to \$5.25 yd. Velvets, \$5.75 to \$6.75 yd.  
Mohair Plushes, \$6.25 to \$7.75 yd.  
Armures, \$1.50 yd. Velours, \$2.75 yd. Imported Cretonnes, 55c yd.

#### New Designs in Rayon Net Curtains

Strictly new designs and stocks are offered in this Sale of Fringed Rayon Net Curtains, secured for this occasion. The Curtains are of fine rayon net, in the file weave. They come in new bronze, gold and natural colors. They are \$8.75 and \$10.75 the pair.

Attractive Window Shades—With the purchase of Draperies comes the need for new Window Shades. Our stock includes the practical opaques and tinted cambrics, and imported and domestic Holland cloths. Colored stripes and figured patterns distinguish the imported cloths. Our shades are made to your order.

Fifth Floor, Middle, Wabash

## 3 PEDESTRIANS KILLED BY AUTOS; TOLL IS NOW 70

Truck and Taxicab Run  
Down Victims.

Three pedestrians were knocked down and killed by automobiles yesterday. Seventy persons have been fatally injured in Cook county motor accidents in the 32 days of 1926.

BENJAMIN ALBIN.

Stepping into the street in front of the Town club cafe, 619 South Wabash avenue, where he is employed as a doorman, Benjamin Albin, 37 years old, 1348 South Keeler avenue, was struck by a taxicab. He died a short time later in St. Luke's hospital, where he was taken by Benson Medler, the driver.

**Aged Man Is Victim.**  
Alexander Cleghorn, 76 years old, 5944 Patterson avenue, was killed when struck by a motor truck driven by George Dittmer, 2026 Kedvale avenue. The accident happened at Western avenue and Irving Park boulevard. Dittmer was held by police for the inquest. Cleghorn, 34 years old, 420 South State street, who was struck by a taxicab, died in the county hospital.

Victim of an automobile accident at 22d street and Mannheim road, near La

Grange, Mrs. Emma Lagergren, 21 years old, 636 North Central Park avenue, died at the Hinsdale sanitarium. The automobile in which she was riding collided with one driven by G. A. Kelly, 236 Grand avenue, Aurora.

Farmer Severely Injured.

Blinded by the headlights of another automobile, C. J. Roberts, 39 years old, a farmer living near Watseka, Ill., was severely injured when he drove his automobile into an elevated railroad support at Wells and Monroe streets.

The number of persons killed at street crossings outnumbered all other deaths caused by automobiles in January, according to figures issued by Chief of Police Collins. Collisions and jay walking were the main causes of a majority of the other deaths.

## CROWN PRINCE GOES TO DOORN TO SEE KAISER

(Chicago Tribune Press Service.)  
THE HAGUE, Feb. 1.—Former Crown Prince Frederick Wilhelm arrived at Amersfoort from Berlin today, where his uncle Heinrich, the former Kaiser's brother, awaited him with an automobile, and they immediately continued the journey to Doorn. The prince, although traveling as a private citizen, was accompanied by an adjutant, several aides, and servants. On the prince's arrival at Doorn, the former Kaiser, although suffering from a bad cold, greeted his son.

## 2 FIRES SWEEP SOUTH BEND, IND.; LOSS \$1,500,000

(Picture on back page.)

South Bend, Ind., Feb. 1.—Fire in the business district today destroyed nine retail establishments causing a loss estimated at \$1,500,000. While the downtown fire was burning a blaze destroyed the Standard Oil company office building in the southeast section of the city with a loss of \$300,000.

John Devieschower, captain of a fire company, was killed when, blinded by smoke, he fell from a building. Two other firemen were injured.

**Wind Carries Sparks.**  
The origin of the downtown fire, which was discovered at 2 a. m., is unknown. Sparks carried by a high wind are believed to have set fire to the Standard Oil building.

The first fire started in the basement of the Brandon-Durrell department store and swept through a quarter block bounded by Michigan street and Jefferson boulevard.

The entire Brandon-Durrell building, a three story structure, crumpled under the intense heat. The Kuehn-Shore store, in an adjoining building, was completely destroyed.

**Other Places Suffer.**  
Other business places that suffered heavy losses were: Springs' Ready to

Wear store; F. W. Woolworth store; United Cigar store; Burke Optical company; Schull's Jewelry store; Newman's clothing store; Leslie Novelty shop; Payman's Jewelry store; Radio Laboratories, and a shoe shining parlor.

**Robbers Get Watch Valued at \$1.**  
Two armed men who robbed Ralph Felted, 6750 South Lincoln street, a Premier cab chauffeur, at 54th street and Dorchester avenue, last night, got only a nickel plated watch valued at \$1 for their pains.

(Chicago Tribune Press Service.)

On Feb. 10 the little entente will hold a conference at Temesvar, Roumania, in which Dr. Edouard Benes, Czechoslovakian foreign minister; Jon Duca, Roumanian foreign minister, and M. Nintebitch, Jugo-Slav foreign minister, will participate.

Foreign Ministers of Little Entente Meet Feb. 10

Wife of Prof. E. C. Higgins Given Divorce and Alimony

Prof. Edward C. Higgins, common law pleadings expert, acted as his own lawyer yesterday before Judge George F. Rush, defending himself against charges of infidelity brought by his wife, Mrs. Helen M. Higgins of Los Angeles. An amended bill charging only desertion was filed and a divorce granted Mrs. Higgins. Mrs. Higgins, who had received \$24,000 from her husband prior to the divorce, will get \$6,000 more and \$125 a month alimony. Prof. Higgins and the widow of his law partner, Mrs. Abbie C. Dejmek, were arrested together in the latter's apartment several months ago.

## THE NEW SIX-CYLINDER HUPMOBILE

# Study the Sixes— Then Back to the Hupmobile

Here is Hupmobile experience crystallized and climaxed—all the old sturdy soundness with a new quality of brilliant performance which has taken the public by storm. Here's a six you must reckon with if performance means a thing to you—a six that is bound to win you if you care one iota for the very utmost, and at the same time the most economical, in six-cylinder motoring.

## The New HUPMOBILE SIX

NEW SERIES HUPMOBILE EIGHT—There is not an eight power plant in existence more soundly engineered, nor a performance program which can surpass it

## ASK \$7,674,491 MORE TO CHASE RUM SMUGGLERS

Coast Guard Wants Sea-  
planes, Destroyers.

Washington, D. C., Feb. 1.—(Special.)—Appropriation of \$7,674,491 for coast guard activities providing for a deficit when the regular appropriation bill was passed a few weeks ago, "practically all of which is due to the increased duties placed on the service in connection with the prevention of smuggling of liquor," is asked in the \$381,233,728 deficiency appropriation bill submitted to the house today.

The \$7,674,491 includes \$600,000 for the reconditioning and equipping of five 1,000 ton destroyers to be transferred from the navy for rum blockade work; \$3,150,000 for the acquisition of 35 patrol boats; \$150,000 for the purchase of five seaplanes; and \$1,842,297 to permit the enlistment of 80 additional warrant officers and 803 privates to man the new boats.

"The extent to which the service would have to go in carrying out its new duties could not be foreseen," the appropriations committee reported to the house, explaining the coast guard features of the deficiency bill.

The American and Jugo Slav debt commissions struck a snag in the negotiations for a funding of the Jugo-Slavian debt of approximately \$68,000,000. The situation resulted in a determination by Secretary Mellon to refer to the personal negotiation method and the American commission designated under Secretary Winston, the commission secretary, to act for it in individual conferences with selected members of the Jugo Slav delegation.

Construction of a national hard surfaced highway system to comprise approximately 53,000 miles of roads and highways, to be financed by Build 53,000 the sale of \$3,000,000,000 of federal bonds, is suggested in the bill introduced by Representative Holaday

(Rep., Ill.). License and gasoline taxes imposed on automobiles traveling the proposed highways are proposed in the bill to amortize the construction bonds. The bill provides for simultaneous construction in each of the states throughout the country and completion of the entire system within five years. Grade crossings are to be avoided wherever possible and a uniform marking and numbering system is to be adopted.

Immediate return of property held by the alien property custodian and payment for damages resulting to owners of Alien Goods seized by U. S. Customs is proposed in the bill introduced by Representative Berger (N. Y.). The seizure Mr. Berger denounced as brazen looting not outdone since the 17th century and unjustified by law or necessity.

Establishment of federal grain warehouses at rail and water terminals and in partial inspection of grain by U. S. to Build Grain Warehouses, was urged today as the solution of the agricultural problem by Edwin W. Sims, former district attorney at Chicago, during a conference with President Coolidge. Mr. Sims would have the warehouses built at both large and small selected cities in the grain producing territory. He asserted that the plan, if adopted, would

## Don't dope YOUR COUGH

It is not wise to use remedies which depend upon "dope" such as narcotics, chloroform, cannabis or tar products. They may stop your cough temporarily by numbing the tissues, as most cough mixtures do, but this is not enough. The inflamed air passages must be soothed naturally, the germ-laden mucus loosened and expelled in order to effect a lasting recovery.

PERTUSSIN soothes nature to accomplish these results in a remarkably short time—and it is absolutely harmless. Sold by all druggists in large and small bottles.

**PERTUSSIN**  
Safe for  
Every Cough

## ROBBERS LOOT POSTOFFICE OF \$260,000 STAMPS

Boston, Mass., Feb. 1.—(AP)—The loot taken by armed robbers from the Pawtucket, R. I., central post office early today was worth \$260,000 and consisted entirely of stamps, it was announced at the post office here after a checkup.

Parke D. Colvin, chief inspector for New England, said the stolen stamps constituted the entire supply of the Pawtucket office. They were done up in \$1,000 to a packet and included stamps of every denomination.

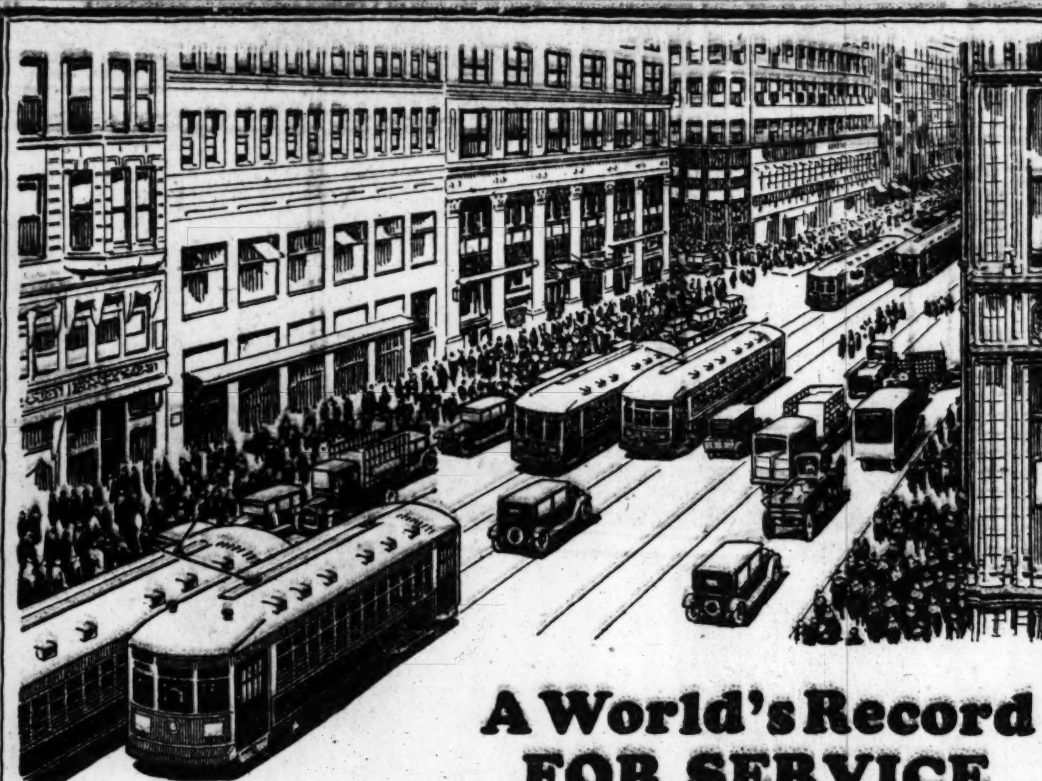

"This is the biggest postal robbery that has ever taken place in New

## ROBBERS LOOT POSTOFFICE OF \$260,000 STAMPS

England," Mr. Colvin said. "There is a standing offer of \$1,000 for information leading to arrest and conviction in any postal robbery, and \$1,000 additional if it is proven a weapon is used." A special reward covering the Pawtucket robbery probably will be offered, Mr. Colvin said, but announcement as to that will be made in Washington.

## Senator Hiram Johnson's Father Dies at Age of 84

Sacramento, Cal., Feb. 1.—(AP)—Grove L. Johnson, father of United States Senator Hiram W. Johnson, died at his home today at the age of 84 years. Mr. Johnson served one term in congress.

## A World's Record FOR SERVICE

IN 1925 the Chicago Surface Lines set a new world's record for street car service. No other system ever has approached the year's total of 1,515,572,630 rides. No other large system, as far as reports show, ever has equaled the Surface Lines' record of 99.8 per cent of all equipment in use during peak load periods.

There were over 25,000,000 more rides on the lines than during the previous year.

Convenience and regularity of service stimulated riding. Careful attention to maintenance of cars, roadbed and wires made it possible to meet increased demands.

The Surface Lines begin the last year under the 1907 franchises with the best physical plant of its kind in the country and in fit condition to continue carrying more than three-fourths of the transportation load of the city.

If there is still any question as to the importance of street cars, a comparison of car riding and other surface riding during recent months should be a sufficient answer.

There is no substitute for street car service.

**Dividends Regularly for 40 Years**

Constant war on waste  
Products of first quality  
Uninterrupted dividends  
Stability of earnings  
Small profits per pound on large volume

The life history of Swift & Company's operations is thus briefly summarized.

The chemical laboratory and the constant search for improved methods have reduced waste to a minimum. They have also enabled us to improve greatly the quality of your meat.

Thrift and conservative policies have made it possible to pay dividends without interruption for 40 years, although our profits have averaged only a fraction of a cent per pound of product.

Swift & Company thrift has benefited others beside Swift shareholders. A portion of the gains resulting from thrift is passed along to the producers of live stock and to the consumers of meat. Competition sees to that.

## One bathroom is everybody's room and nobody's room!

The curtain at the Follies rises at 8:15 and it's already after 7:00! Again the women folks have monopolized the *one* bathroom. Impatient and peevish as father is, he will refuse to forego his shave. So it looks like the whole family will miss the first act.

How often has a similar experience occurred in *your* home? If you are an average member of the average family you are tired of the daily skirmish for the one family bathroom. You would like to have time for a careful and leisurely toilet. You would like to eliminate once and for all the hectic scenes and inconveniences that are unavoidable when an entire family must vie for the use of one bathroom. Why continue to tolerate the nerve-racking situations brought about by inadequate bathroom facilities?

### A Matter of Great Importance to Every Family

Americans are the cleanest people in the world. They like to feel clean and like to be clean. Yet it is safe to say that 85% of homes and apartments today need more bathrooms. In fact, almost all home owners, tenants, architects and builders agree that it is a mistake to economize on bathrooms.

There is today no excuse for practicing this false economy in bathrooms. The Weil-McLain Company offers builders dependable plumbing fixtures at prices that put more bathrooms within the reach of everyone.

### Why Weil-McLain Can Serve You Best

First—The Weil-McLain Company sells millions of dollars worth of quality plumbing equipment yearly right here in Greater Chicago and the Middle West—and therefore knows what people want and what will best fit their requirements.

Second—For more than 30 years the Weil-McLain Company has been closely identified with the rapid development in modern plumbing—and today Weil-McLain Plumbing Equipment embodies refinements representing the highest developments of the Plumbing Industry.

Third—The Weil-McLain Company has made a special study of the need for more bathrooms in modern homes and apartments, and is in position to offer ideas on how to have more bathrooms and how to keep the cost within the reach of all.

### Call at Our Showrooms and See Weil-McLain Bathroom Fixtures

We invite you to come to our showrooms, where you will find a complete assortment of bathroom fixtures from which you can make a choice suitable to your needs and your pocketbook.

We will gladly consult with you or with your architect, builder or plumbing contractor. Or we shall be glad to send you, upon request, our new booklet, "More Bathrooms for Better Health."

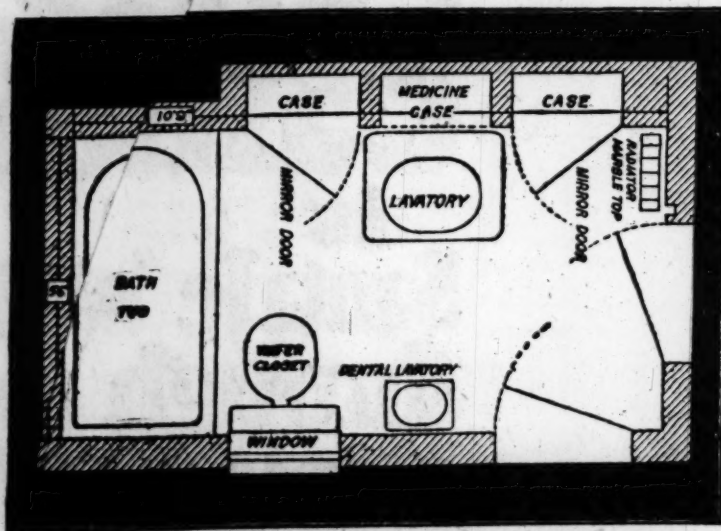

Reliable, responsible, plumbing contractors in your community sell and install Weil-McLain Plumbing Equipment.

Look for the Weil-McLain label on every piece of Plumbing Equipment you buy

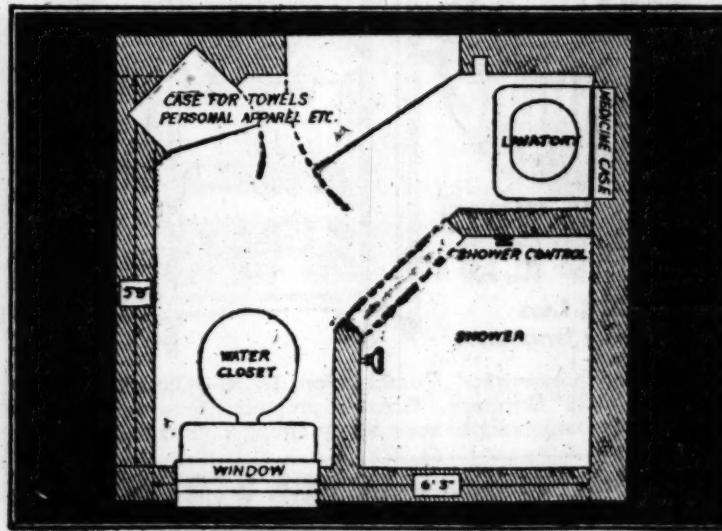

Select equipment bearing it and you are assured of beauty, durability and satisfaction.

**WEIL-McLAIN COMPANY**  
Plumbing Division

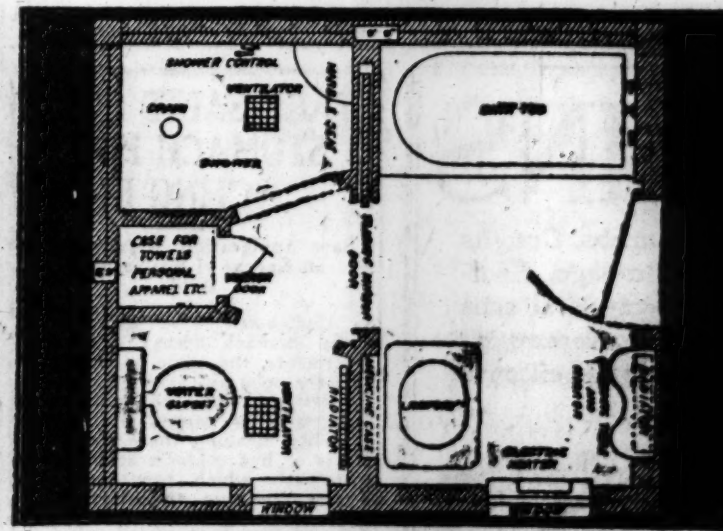

Showrooms and General Offices: 641 West Lake Street, Chicago  
(Manufacturers of the well-known Weil-McLain Scientific Combination Bathtub)

**CHILDREN'S OR GUEST BATHROOM**  
The two cases for personal items, in addition to the medicine cabinet, are appreciated conveniences. The dental lavatory will be a daily reminder to the children to brush their teeth.

**SON'S BATHROOM**  
In such a bathroom as this the son of the family may splash to his heart's content. He can be under the shower as often and as long as he likes without inconveniencing others.

**DAUGHTER'S BATHROOM**  
The above bathroom has been planned with a distinctly feminine note. The distinction and charm of all the appointments will have an irresistible appeal to the daughter of the family.

## LINER SAVES 27 ON DOOMED SHIP WHILE SEA RAGES

New York, Feb. 1.—(AP)—The story of the rescue of the crew of the Dutch steamer Alkaid in mid-ocean by the Hamburg American liner Westphalia was told tonight for the first time in any detail in a radio description from Capt. Graaff from the liner to his office here.

The message follows in full: "Sunday, 2 a. m. received S O S call from the Dutch steamer Alkaid, Rotterdam. By means radio bearing, I was able to find direction of her position. Wind W-N-W, force 10. Her calls very urgent. Went full speed and sighted her 11:15 a. m. Heavy waves washing over whole ship. Rafts fore and aft, deck houses, and hatches carried away. Boats smashed to

pieces. Decks badly damaged on account of heavy storm.

"No possibility of rescue work Sunday, but waited for better weather. During night wind decreased to force 8. Sea a little handler. At 7 a. m. Monday I sent message to Alkaid that I would send a boat. At 8:30 everything was ready. Boat was lowered and got safe alongside Alkaid. Whole crew, twenty-seven, taken on at one time. Alkaid was set on fire, and when we left her burning all over. Boat was taken alongside Westphalia and the more or less exhausted on deck. No body hurt. Our light boat was lost. Capt. Roose of Alkaid nearly drowned when, as last man leaving his ship, he fell between ship and boat. I can only praise the brave behavior of my crew. At 11 a. m. proceeded to New York."

German Ship Saves Six.

QUEENSTOWN, Ireland, Feb. 1.—(U. P.)—A modest German skipper, Capt. Wurpts of the North German Lloyd liner Bremen, came out of the roaring ocean into port here early today to put ashore six men he had saved from death aboard the now sunk British freighter Laristan.

"The Germans were good fellows,"

observed Michael McCann, one of the rescued. "They couldn't have treated me better if I'd been the Kaiser."

"We ran into a 75 mile hurricane," McCann explained, "and the heavy seas smashed our boats. All the bulkheads and hatches except one were also smashed, causing the vessel to ship a lot of water."

Capt. Wurpts said he had kept at his task while wind and snow raged. More than twenty men were lost.

"I regret very much that our continued efforts to save the remainder of the crew proved fruitless," he said. He was deeply moved when he referred to this loss of more than 20 of the men aboard.

Fried to Radio Story.

(Chicago Tribune Press Service.)

LONDON, Feb. 1.—Capt. George

Fried of the American steamship President Roosevelt on Saturday afternoon

will broadcast the story of the rescue

of the crew of the British steamer

Antinoe by the President Roosevelt.

He will talk from the British broad-

casting company's London radio sta-

tion. Capt. Toss of the Antinoe will

broadcast his story tomorrow night.

The British government has decided

to award Capt. Fried a medal for his

gallantry in saving the Antinoe's men.

## JUDGE KERSTEN IS RESTORED TO CIRCUIT BENCH

(Picture on back page.)

George Kersten again is Judge

George Kersten of the Circuit court.

In fact the record shows that he

never lost that title or his rights

and authority under it.

County Judge Jarecki yesterday

erased his order of last August which

pronounced the veteran jurist insane

and thereby automatically vacated his

place on the bench. With the order

expunged the status of Judge Kersten

is the same today as if the sanity

hearing never had been held.

He will not return to active service

at once—possibly not until after the

summer vacation. To complete the

physical rehabilitation already under

way he is going away for further rest.

But there will be no special election

to fill his place. He will draw full

salary for the time he has been sick

and completion of this term, his fourth.

will entitle him to a pension.

Had he followed his original plan of seeking election to his own vacancy he would have been almost certain of winning, but the loss of these several months would have left him short of the pension qualification mark—twenty-four years. He is 72 years old and has no private means. The outlook was a dreary one—until yesterday.

Mrs. Kersten filed the insanity petition against her husband because of his repeated refusals to go to a sanatorium following a physical breakdown last year. She did not realize the far reaching legal effect of such proceedings and joined in his recent efforts to recover his former rights.

The happy outcome was made possible when Attorney Timothy J. Fell, coming into the case out of friendship for Judge Kersten, showed Judge Jarecki some errors in the August proceedings.

The most important of these was failure to fill in a date for the insanity hearing in the blank space left in a legal service form and the failure to serve legal notice on Judge Kersten.

## NORFOLK . . . a distributing center where freight rates are lower

SHADED central section indicates territory where freight rates are cheaper from Norfolk than from a North Atlantic port. Rates to Pacific Coast are equal.

SHADED central section indicates territory where freight rates are cheaper from Norfolk than from a South Atlantic port. Rates to Pacific Coast are equal.

SHADED sections indicate territory where freight rates are cheaper from Norfolk than from a Great Lakes port.

Big business today, facing the necessity of economical distribution—is turning its eyes to the Norfolk-Portsmouth area of Virginia.

From this rapidly growing industrial area finished products can be shipped to any part of the country at low freight costs. Eight railway systems—linked together by a jointly owned belt line within the city limits—stretch out into every section of the United States. Direct, short hauls to the great consuming markets cut down the cost and time of distribution. By sea, to the Pacific Coast through the Panama Canal, freight shipments are handled at lower

cost than from middle western cities.

This saving of distribution costs has already attracted many leading industries to Norfolk, yet the city is only at the threshold of its future greatness.

Norfolk's abundant acreage provides unexcelled plant sites at moderate cost. Our industrial engineers will be glad to discuss with you the problems relating to your own industry. All inquiries will be held in confidence. Address the Norfolk-Portsmouth Industrial Commission, Dept. 59, Chamber of Commerce, Norfolk, Va.

## TAKE SALTS IF STOMACH ISN'T ACTING RIGHT

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays or rather ferments, the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas; we eructate sour food or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescent, and furthermore, to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used for many stomach disorders with excellent results.

USE  
CANTHROX  
Shampoo

Beautiful Hair This Way

Hair that lies in fluffy softness about the face and neck; hair that is lustrous and lovely, seeming much more abundant than it really is—this is the way which actresses and famous beauties have found. And it is a way you, too, can find by simply getting a package of Canthrox from your druggist.

This shampoo can be given with very little effort, and at trifling cost. Dissolve a teaspoonful in a cup of hot water. This makes enough to go all over the hair instead of just on the top. Be sure that every strand is given the benefit of this daintily perfumed, delightful preparation. It removes every bit of excess oil and dirt, and by keeping the scalp healthy you avoid dandruff.

One shampoo costs only three cents and you will never know really healthy and beautiful hair until you use it.

## NEIGHBORS

## Where Friendships Are Made That Endure

There is a neighborly spirit about Des Plaines that is not to be found in the selfish, busy, every-man-for-himself attitude that prevails in big cities—a spirit of friendly courtesy that is possible only in a small municipality where people know their neighbors, where it is natural to meet friends on the street. This is a wholesome environment—especially for children. For it is highly important that our boys and

girls make friendships of the right sort—friendships that will endure. Surely, their very character will be affected by those with whom they associate.

Women, too, enjoy the neighborliness of Des Plaines Gardens. It is so different from life in the city where it is a rare thing to have a speaking acquaintance with the folks across the hall. In Des Plaines Gardens neighbors know each other.

(Des Plaines Gardens is a community of modern homes and homesteads. It is only thirty minutes from the Loop, and there are 52 trains daily. Modern homes on beautiful lots—out in the fresh air and sunshine—can be purchased for \$75 or \$50 a month. Full particulars will be sent on request—without any obligation. Write today.)

# Shop in Evanston

EVANSTON—buying center of 150,000 people—is attracting shoppers from Chicago and nearby suburban towns in ever-increasing numbers, and for very good reasons.

- 1—Shoppers save money in Evanston.
- 2—There is a selection of merchandise equalling that to be had anywhere.
- 3—There is no terrific traffic congestion; no tiresome jostling with crowds, and you can take your time in making selections.
- 4—The Evanston shopping districts—reached by North Side residents more easily and quickly than the crowded loop—are made especially easy of access by fine transportation—frequent electric Rapid Transit and North Shore Line, and Chicago & Northwestern Railroad suburban trains.
- 5—Plentiful free parking space, for an hour or a day, is to be had by the shopper who uses her private automobile.

To the shoppers of Chicago's North Side and of the suburban towns, it means a big saving in time, energy and money to shop in Evanston. You can buy anything you want—for the home, for the table, for all members of the family. Furniture and house furnishings; clothing, hats and shoes; foods and household supplies—anything and everything to fill any household or personal need.

Over 1,000 business houses are here to supply your every need. Many of the best and largest stores of Chicago's loop district have branch stores in Evanston, making available to you all of the stocks of those institutions. The shopping trend is such that other Chicago stores are seeking locations.

You can get just what you want and at prices that give you the utmost in value for every dollar you spend, for the cost of doing business is less in Evanston and this advantage is noted in the prices you pay.

Evanston merchants, in close competition with the largest of retail stores, are especially alert to keep their stocks large and varied—and to offer

values that make it interesting for you to trade with them.

You will find it vastly easier and immeasurably more pleasant to shop in Evanston.

Here you will find that merchants and their sales people take a deeper personal interest in YOU and YOUR NEEDS. There's a greater spirit of friendliness. There's a welcome absence of the jam and jostle—the smoke and the nerve-rack. You can shop without a headache.

You can accomplish more—do it in less time—and with less money.

Evanston merchants stand back of the goods they sell, and guarantee you satisfaction. Delivery systems are well organized for quick delivery.

Yes, indeed, there are excellent reasons—and many of them—why people in growing numbers go to Evanston to do their shopping. Why don't you learn these reasons at first hand? Don't wait. Come to Evanston today, or some day this week.

Why Put Up with Intolerable Traffic Conditions?  
No Congestion in Evanston!

## CHICAGO'S DEBT \$47.23 FOR EACH PERSON IN CITY

Increases \$18.93 Per  
Capita in 7 Years.

Washington, D. C., Feb. 1.—(Special.)—Indebtedness of Chicago increased from \$28.20 per capita in 1917 to \$47.23 in 1924, according to a summary of its financial statistics issued today by the department of commerce.

The per capita debt was \$43.70 in 1923, the increase reported for 1924 being due mainly to bond issues for street improvement, bridges, and water supply system.

The net indebtedness of Chicago on Dec. 31, 1924, was \$138,983,642. Of the total net indebtedness \$8,097,750 was for the city, \$26,051,026 for the parks, and \$37,790,550 for the sanitary district.

Include Parks and County.

In order to put Chicago on a basis

comparable with those cities in which the county organization has been merged with that of the city, and in which the schools, parks, and sanitary district are a part of city corporation, the figures given by the department include 91.5 per cent of the transactions of Cook county. They also include the total transactions of the board of education of Chicago, the total transactions of the independent park districts, and 93 per cent of the transactions of the independent sanitary district.

The payments for maintenance and operation of the general departments of Chicago, for the fiscal year ending Dec. 31, 1924, amounted to \$113,475,701, or \$18.86 per capita. In 1923 the comparative per capita for maintenance and operation of general departments were \$36.41, and for 1917, \$22.26.

**Paid Out \$186,732,351.**

The total payments for expenses of general departments and public service enterprises, interests, and outlays including the county, school, parks and sanitary district were \$186,732,351.

The total revenue receipts of Chicago for 1924 were \$175,788,983, or \$59.74 per capita. This was \$46,691,193 more than the total payments for permanent improvements, but \$10,943,268 less than the total payments including those for permanent improvements.

For 1924 the taxation valuation of Chicago property was \$3,788,198,295. The levy for all purposes for 1924 was \$49.248,344. The per capita tax levy was \$50.72.

## BREAD MERGER DRAWS FIRE ON ADMINISTRATION

Washington, D. C., Feb. 1.—(AP)—Moves looking to bread investigations of combinations and trusts were made today in both the senate and house as a result of the announcement of the formation of a huge Ward Food Products corporation to deal in bread and similar products.

In asking for action by the judiciary committee on his resolution proposing a sweeping inquiry, Senator King (Dem., Utah) assailed President Coolidge and the investigating agencies of the administration in a vigorous speech in the senate.

The senator declared that while combinations which "must destroy the economic and industrial life of the country" are being formed, the department of justice is "sleeping"; the

federal trade commission is "impatient," and President Coolidge has "pronounced his benediction."

In the house, Representative La Guardia (Soc., N. Y.) offered a resolution calling upon the attorney general and federal trade commission for information regarding bread and flour trusts. A report in regard to investigations authorized by the senate in 1924 would be ordered, with special reference to the Ward Food Products corporation.

Under authority of the senate resolution, the trade commission has been investigating the bread industry for a number of months. Members of the commission said they had no detailed information as yet regarding the newly organized company.

## 1,200 DAIRYMEN PLAN TO CONTROL CHICAGO SUPPLY

City Officials Fear Effect  
on Tuberculin Tests.

Plans whereby the distribution of milk from most of the dairy herds that supply the Chicago market will be controlled absolutely by the Milk Producers' association, were approved yesterday by twelve hundred dairy farmers, members of the association, meeting at the Hotel La Salle.

City officials pointed out that the association is the one which obtained an injunction to restrain Commissioner of Health Bundesen from demanding pure milk, coming from cows free from disease, for Chicago.

No Boycott Intended.

Rumors that the association officials planned to boycott the city should Commissioner Bundesen carry out his intention of barring impure milk from Chicago on April 1, were denied vehemently by Frank A. McCarthy, state representative and legal counsel for the dairymen.

"We farmers are willing to give Chicago any kind of milk they want—

provided they will pay us a fair price for it," Mr. McCarthy declared after the meeting. "We want to cooperate with the health department and with the milk distributors, but it will cost us more to furnish tuberculin tested milk, and we will need a better price."

The plan approved by the dairymen is to be drafted by Mr. McCarthy and a committee of fifteen to be selected by him.

**Plan Three Year Contract.**  
In general, the plan was explained by McCarthy as follows:  
"Each member of the association is to sign an agreement to market his milk through it only, for a period of three years. He agrees to sell only through the association. The money does not pass through the organization, but is paid direct to the producer, the association being paid a fee not to exceed two per cent for its expenses."  
The three year phase of the agreement roused fresh suspicion among city officials, that period of time being sufficient to enable all farmers to have their herds tested and replenished by indemnities paid in part by the state. In the meantime the dairymen, through their marketing combination, could, if they desired, refuse to deliver any milk to Chicago unless Chicago accepted both tested and untested milk. Commissioner Bundesen, meeting yesterday with another group of dairymen, those whose herds are already tested, and who have joined the Pure Milk association, declared flatfootedly that there must be no increase in the retail price of milk when the pure milk ordinance becomes effective on April 1.

The commissioner received the promises of those attending the meeting, including representatives of some of the large Chicago milk distributing companies, that they would be able to deliver pure milk, at the same price, beginning April 1.

## PROBATE COURT BEGINS FRENCH DEATH INQUIRY

Probate Judge Henry Horner yesterday took up the investigation into the death of Mrs. Marie C. Sterling French of Park Ridge, subjecting Edmund Ostranski, executor of the woman's \$50,000 estate, to a searching examination.

Despite strenuous objections by Ostranski's attorney, Jacob Berger, who declared that his client's constitutional

rights were being violated, the judge made Ostranski reveal for the first time the circumstances under which Mrs. French's will was drawn up. She gave her property to a neighbor, Mrs. Harriet Dahman, appointing Ostranski executor.

Mrs. French died last Jan. 8. An investigation was started immediately by the public administrator, and Coroner Oscar Wolf later ordered the body exhumed and a post-mortem examination made. This report will be made public this afternoon, it was said.

When the judge learned that Ostranski had burned up many papers found in the French home, he termed it

"most unusual conduct." Then, he took examination of the witness from the attorneys and conducted the questioning himself.

When Ostranski filed the will, he stated that Mrs. French's property was worth \$1,500. He admitted to the judge that he knew the property was worth at least \$7,500. He said he did not know of the stocks and bonds

found later which brought the value of the estate up to \$50,000.

Judge Horner closely examined Ostranski about Mrs. French's signing the will. He asked what type of pen she used and the kind of ink. He brought out that the will filed was a carbon copy of the original will and ordered Ostranski to bring in the other will at 11 o'clock this morning.

Quality Creates Demand

## "SALADA" TEA

Is Demanded By Housewives

THE new 90-degree, eight cylinder Cadillac is on the crest of a nationwide wave of public enthusiasm.

Here at the show the Cadillac display is drawing crowds. In appearance these new Cadillacs are eye-compelling, and in performance they are thrilling.

They do everything so much better—acceleration, speed, power, smoothness, ease of handling—all are developed to new and finer levels.

Greater simplification, advanced design, fine manufacturing, these are the causes for Cadillac superiority, and at the same time they are responsible for the attractively lower prices.

Take this opportunity to see the greatest success of the year—come to the show.

Prices range from \$2995 for the Brougham to \$4485 for the Custom Imperial. F. O. B. Detroit. Tax to be added. Buyers on the payment plan are afforded the savings of the GMAC financing system.

## Catarrh Colds-Flu

COLDS are dangerous; they often develop into something worse. Don't let a cold get hold of you. Don't let catarrh develop. If you have it, don't put up with it—use KONDON'S CATARRHAL JELLY. Guaranteed by 35 years service to millions of users. The first drop used does good.

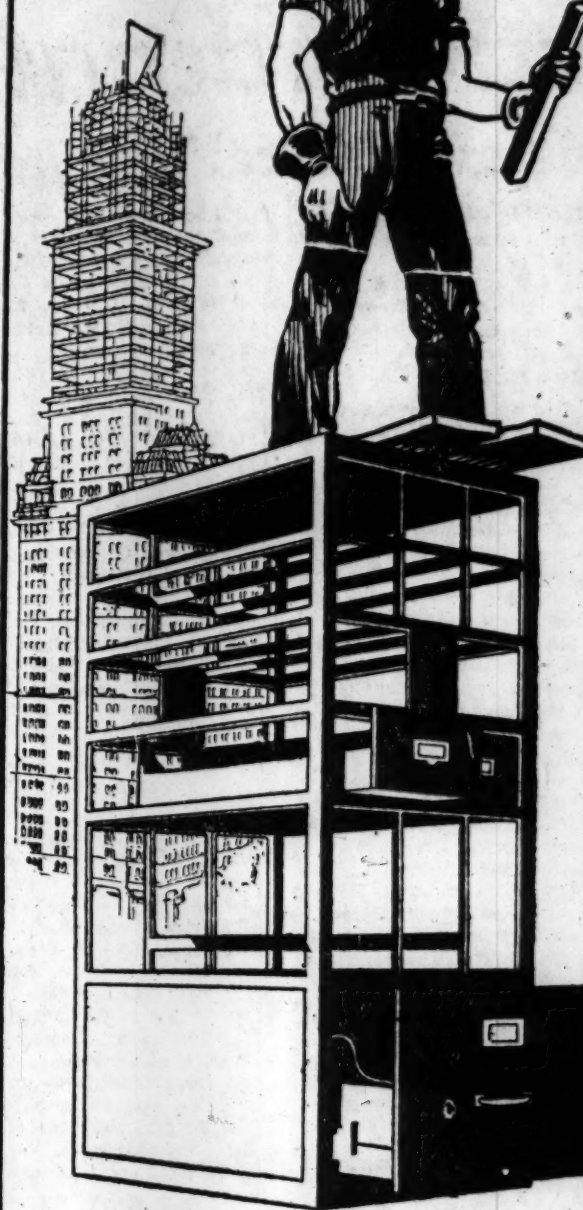

Get a tube and use it quick for Cold in head, Catarrh, Sneezes, Hacking Cough, Stopped Up Nose, Headache, Bad Breath, "Flu," Croup, Hay Fever, Nasal Catarrh. Ask your Doctor, Nurse or Dentist; thousands of them recommend KONDON'S to patients and friends. No dope in KONDON'S; safe for everybody, young and old. At all druggists. 30c and 60c sizes.

### KONDON'S CATARRHAL JELLY

2608 Nicollet, MINNEAPOLIS, MINN.

OUR GUARANTEE—Go to your drug store and buy a tube of KONDON'S. If it does not give you results worth five times the cost we will gladly refund what you paid for it.

## "Built Like a Skyscraper"

## Going the Skyscraper One Better

WHEN we say a Shaw-Walker steel filing cabinet is "Built Like a Skyscraper," we understate our case. It is built *better* than a skyscraper.

The skeleton is built of skyscraper steel, with uprights, cross-pieces, girders and reinforcements spotwelded together—built *like* a skyscraper. Then we put on sides and top and spotweld the whole structure into one solid piece of steel—built *better* than a skyscraper.

And the drawers are not back-breakers! Each one, a solid piece of steel, rolls in or out at a touch when *fully* loaded.

The only genuine "Built-Like-a-Skyscraper" file bears the name Shaw-Walker. The same name goes on, the same quality goes into, Shaw-Walker desks, safes, indexing, cards, folders, guides and bank equipment.

Shaw-Walker products cost no more. Why accept substitutes?

"Send for a Skyscraper man—he's trained."

The Illinois Central Railroad  
The Edgewater Beach Hotel Interests  
The Louisville and Nashville Railroad  
The Mississippi Power Company  
Insull Public Utility Interests

Now, by recent extension and improvement of Illinois Central direct fast service, Chicago is only 23 hours from the rapidly developing Mississippi Gulf Coast.

Conservative Northern capitalists, attracted by the natural wealth and awakened progressive spirit of the Coast, have invested millions of dollars in long-time developments which contribute to the permanent stability of this growing country. Their investments open the way to profit for all investors.

Railroads, hotels, public utilities—these necessities, backed by Northern investors, are foundations for the substantial growth which has begun. Cities, counties, the State and U. S. Governments are working together on permanent improvements which assure the economic future of the Mississippi Coast. The alert Coast cities, through local civic organizations, are improving property. The already excellent highways are being extended. Along the beach a wide double boulevard and protected parkway, twenty-eight miles long, is now under construction.

As the natural result of this activity, the Mississippi Gulf Coast is today an unrivalled opportunity for investors, for all businesses, for everyone who would live happily in perpetual springtime. In this charming country, where the tradition and romance of the Old South is stirred by the progressive spirit of the New—here is your opportunity to profit as the Coast increases its splendid wealth.

Tourists and Winter Resorters  
Hotel Interests and Builders  
Investors and Merchants  
Conventions—

## AN INVITATION

Northerners now find the Mississippi Gulf Coast more than ever the ideal playground.

Healthful, enjoyable, year-round living conditions are unequalled. Fine water supplies are abundant. Fish and game are plentiful. Golf and tennis are at hand. Expenses are moderate. Beautiful home sites are still available.

Real estate values are increasing rapidly, soundly, backed by thriving agriculture, active ocean shipping, lumber and fishing industries.

Because of its growing wealth, because of its charming beauty, the Mississippi Coast is attracting more and more visitors, investors and home-seekers. Merchants, hotel interests, builders who establish now on the Coast will profit increasingly as the population grows.

The Mississippi Coast Club, an organization representing all the interests of the Mississippi Coast, will supply information concerning opportunities in this famous American Riviera. Use the coupon below to learn what this awakened expansion means to you.

Before you visit the Coast, let the Mississippi Coast Club send you information about living accommodations. Winter visitors have crowded the present hotels to capacity.

## WET PLANK TO BE EMPHASIZED BY DEMOCRATS

BY PARKE BROWN.

The three chief planks of the Democratic county platform were outlined to the managing committee yesterday by Michael L. Igoe, chairman of the resolutions committee. They are the following:

1. A specific proposal for modification of the Volstead act.
2. Home rule for Chicago and Cook county, with particular emphasis on constitutional representation in the legislature.
3. Democratic achievements in county offices such as those of the county board, county treasurer, and county clerk.

### Emphasis on Wet Plank.

There is no doubt that the first of these will be the one the Democrats will emphasize most heavily from now until the November election.

Before Chairman Igoe forecast his committee's report to the county convention in Car Men's hall, the necessity of an exact proposal for modification of the dry law was hammered upon by A. J. Cermak, president of the county board.

"It will not do for us to say that we are for beer and wine and stop there," said Cermak. "You know and I know thousands of people who think as we do but believe that an amendment to the federal Constitution is necessary to restore to us a portion of our former liberties. They have got to be shown that a reasonable interpretation of the language of the eighteenth amendment will give us beer and wine that are drinkable and beneficial."

### "Just Our Platform."

"That's just what the platform we are drafting will make plain," said Chairman Igoe, referring to what Cermak had said. "It will show in plain words just how the Volstead act can

be modified and how we want it modified."

Speaking of Cook county's demand for home rule, the same speaker declared that a citizen is "handicapped for living in this community."

"The instant that a man from down-state moves into Chicago he loses part of his vote," he said, "although he is the same man he was before."

Following a meeting of the Deneen state subcommittee, consisting of Thomas J. Healy, Recorder Joseph F. Haas and Commissioner William Busse, it was strongly hinted that there may be no Lundin ticket this year, but that a straight Deneen ticket may be put in the field. This was brought out by a statement that the slating of Sanitary Trustee Alex Todd, a Lundinite, for renomination is not final.

The subcommittee approved Lachlan William Maclean, son of the late Commissioner William Maclean, as the fifth Deneen candidate for county commissioner from the country towns. The others are Commissioners Busse, Dudley D. Pierson, George A. Miller, and Frederick A. Penfield.

## KING TO OPEN PARLIAMENT IN LONDON TODAY

LONDON, Feb. 1.—King George and Queen Mary, both in deep mourning for the late queen mother, Alexandra, returned to London from Sandringham this afternoon in readiness for the state opening of parliament tomorrow.

The king immediately held a privy council at Buckingham palace, when the royal speech to be delivered from the throne tomorrow was approved.

A notable absentee from the state procession from the palace to the house of lords will be the prince of Wales. Owing to his fractured collar bone, received in a recent fall from his horse while hunting, he will be unable to wear the uniform necessary for such a state occasion. He may,

however, attend the house of lords as a private member to witness the opening ceremony.

David Lloyd George, former prime minister, this evening was re-elected sessional chairman of the parliamentary liberal party and leader of the party in the house of commons.

### Health Agent Imposer Fined, Sent to Hospital

Benjamin Shaliman, 5245 Calumet avenue, was fined a total of \$800 yesterday by Judge Joseph L. McCarthy on four charges of disorderly conduct.

He is alleged to have represented himself as a city health inspector and in this guise forced four women to undergo personal examinations. Judge McCarthy continued imprisonment charges and ordered that Shaliman be sent to the psychopathic hospital.

## C. & E. I. ROAD PICKS WINNER IN TITLE RACE

Chosen from more than forty thousand nicknames submitted, the name "Connecting Link" was selected yesterday by officials as a new title for the Chicago and Eastern Illinois railroad company.

The contest, it is said, was held for the purpose of finding a name with popular appeal by which the railroad may become universally recognized. Three people submitted the winning title and were awarded \$100 each. They are Mrs. G. K. Jacobs of Chicago, M. M. Nohrden and Miss Janie Ogilvie, both of Charleston, S. C.

Second prize was given to J. R. Rice of Cumberland, Md. He suggested the name "Middle Link."

**Prove the Strength of Choc-o-Yeast by this easy experiment**

1. Take 2 glasses of lukewarm water.
2. Dissolve a teaspoonful of sugar in each.
3. Crumble a piece of Choc-o-Yeast in one and half a cake of compressed yeast in the other.

Note that in seven minutes both will start to rise from the bottom and form foam, proving they are of equal strength—and equally fresh. Try the same experiment with other dry yeast cakes or tablets and note how many HOURS they require to show any life at all.

**Makes Faded Cheeks Bloom Anew!**

Yeast is now a famous food for building vitality, clearing the skin, and bringing to the cheeks that beauty bloom that comes only with bounding health—the beauty that cosmetics seek to simulate.

What a boon Choc-o-Yeast has been to thousands of drooping, tired-out men and women! Supplying in palatable form the vital food elements that build sturdy, disease-resisting bodies—that bring rosy cheeks and sparkling eyes. And it gently relaxes the intestines and makes cathartics unnecessary.

Buy it in the new convenient package. Also in economical one-dollar boxes.

Eat a few cakes of Choc-o-Yeast each day for Health and Beauty.

But be sure you get this full strength yeast—Choc-o-Yeast. Prepared by a new secret process, it retains the full strength and value of fresh compressed (soft) yeast, and preserves it indefinitely. Its coating of delicious chocolate makes it pleasant to eat.

The new convenient package costs 10c at better drug stores, groceries, and candy stores.

RAPID SERVICE to the Loop by the NEW "L" EXTENSION

PRESENT PLANS FOR WESTCHESTER CALL FOR ZONING OF CERTAIN SECTIONS FOR APARTMENTS. THIS PICTURE SUGGESTS A FINE RESIDENTIAL STREET FOR WESTCHESTER IN THE NEAR FUTURE IN ACCORDANCE WITH OUR RESTRICTIONS.

**Choice APARTMENT SITES**  
In the Most Desirable Section of  
**Westchester**

Are Now Offered at  
**Bargain Prices** Terms as Low as \$300 Down. Balance 4 Years to Pay.

Another fine apartment district is being started in Westchester, where the New "L" Extension soon will be giving rapid transportation service to the Loop.

Centrally located in this Model City, only 2 blocks from a proposed "L" Station and the proposed civic center, we are now selling apartment sites at prices which are under today's market, and will rise rapidly with increased development and building.

Values here should double or treble soon, as they did in other new "L" extension districts in recent years. You know what happened in the Ravenswood, Wilson - Broadway, and Howard Ave. districts. Realty values started soaring and never stopped. Similar profits should be made by buyers of our apartment sites and business frontage. Make your fortune in Westchester. Start now—by mailing the coupon for full details.

OF INTEREST to  
**MOTORISTS**  
**AUTOMOBILE**  
**SALES AGENTS**  
and  
**AUTOMOBILE**  
**MANUFACTURERS**

THAT'S a nice new car of yours—good looking all the way from the front bumper to the tail lamp.

The works don't show, of course, but the things you can see—the paint job, the upholstery, the plate glass and the hardware—are the last word in good looks.

The paint has got to wear. The upholstery must be proof against a million rubs. The hardware looks to be up to those standards. But will it fight for its looks? Will it stand off rain, dampness, dust and moist hands?

It will if it is solid BRASS or BRONZE hardware. BRASS and BRONZE do not rust.

Queer, isn't it, how quickly a car gets a shabby look just from rusty, spotty hardware!

Candidly, we don't know of one good reason why hardware on good cars should ever be the kind of hardware that rusts. Does anyone?

Stops Pain!

**KEEP LOOKING YOUNG**  
It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

Grow with The Tribune in 1926

# A Message to the Million and More BUICK owners

TODAY, every automobile owner in America faces the possibility of a substantial increase in the cost of tires, both for replacement and as original equipment on new cars.

Crude rubber has advanced in price approximately 150% during the past twelve months.

In a letter from the Secretary of Commerce, Herbert Hoover, to Senator Arthur Capper, written late in December, the reason for this condition is described as follows:

"The control of rubber production in the British East Indies was organized under the Stevenson Plan in 1922. That area produces about 70% of the world's rubber, and we consume about 70% of the world's rubber. At the time the plan was put into effect by Colonial legislation the claim was made that its purpose was to assure a fair price to the growers. The Growers Committee stated that such a fair price would be from fifteen to eighteen pence (30 to 36¢) per pound. Exhaustive investigations of the Department of Commerce showed that at that price the capital invested in the industry would earn an annual average profit of from 15 to 25 per cent.

"At the price declared by the price-fixing body as 'fair' to them, our next year's supply would cost us about \$324,000,000, but at the present price of \$1.10 per pound, it will cost us \$990,000,000 or \$666,000,000 in excess of the 'fair' price.

"These increased prices of rubber are a very real thing to every family in the United States. The price over and above

the so-called 'fair' price means an increased charge of probably \$20 or \$30 for each set of tires on a light automobile, and \$50 to \$70 for each set on a heavy car."

## Buick Owners Use 5,000,000 Tires

Buick considers it a plain duty to the million and more Buick owners now using 5,000,000 and more tires, to discuss this situation, and

## Save Tire Wear

These simple rules, observed by every motorist will help:

1. Maintain the proper pressure of air in every tire.
2. Repair tires promptly when they are injured or worn.
3. Turn corners gently, avoiding scraping or burning tires.
- 4\* Apply brakes gently and do not slide tires in coming to a stop.

\* Buick mechanical four-wheel brakes automatically cut down tire wear by applying the pressure to all four tires instead of only two.

to call attention to certain suggestions which Secretary Hoover has advanced to protect car owners against the threatened increase in the cost of motor car operation.

## Secretary Hoover Urges You To Save Rubber

Foreseeing the hardship that an

additional tire cost would work on the American public, Secretary Hoover, aided by the National Automobile Chamber of Commerce, has undertaken to reduce the normal demand for crude rubber 25% during 1926. He feels certain this can be done by placing the facts squarely before you, and by asking you to observe a few fundamental tire saving rules, that most people neglect.

With this aid from a nation of motorists, Mr. Hoover hopes to reduce considerably the consumption of new rubber, and perhaps bring rubber prices to a lower level.

## Buick Urges Your Aid

Buick lends its unqualified support to the Hoover program and urges every Buick owner to add his cooperation. You are not asked to drive less—only to drive with more consideration for your tires. In this way, the tire economy which Buick has designed into Buick motor cars may be realized to its fullest extent.

On this page you will find the driving suggestions offered by Secretary Hoover. Observance of these rules will make us a nation of more thrifty tire users. And save our money, *not only now, but for years to come.*

## DRYS QUIT FIGHT TO PASS DRASTIC STATE MEASURE

### Anti-Saloon League Lifts Legislative 'Blacklist'

BY FRANK BUTZOW.

George B. Stafford, new superintendent of the Illinois Anti-Saloon League, admitted yesterday that the dry organization will not make an issue in the coming legislative campaign on its pet measure—the bill to establish a state prohibition bureau.

"Why?" Mr. Stafford was asked. "Because," he replied, "we don't know whether we could pass the bill—I mean the situation has changed." Since 1921, when under the leadership of F. Scott McBride, the league put through the Illinois prohibition act, it has been attempting to establish a state dry enforcement bureau. The league was then at the height of its power in Illinois.

**League's Fight Lost.**  
The league lost its first fight on its pet measure when it sought to establish a prohibition commission as an appointee of the governor. Last year it made a shift in its tactics and tried to win the job onto Attorney General Charleston. He said frankly he didn't want it and the bill was defeated. Eleven dries in the house, some of whom supported Anti-Saloon programs for years, rebelled finally against the league's whip last year. They were blacklisted by Frank B. Ebbert, then superintendent, and marked for defeat when the came up for reelection this year.

But some of them are powers in their districts. Mr. Stafford was asked yesterday about the league's program for the coming campaign, specifically about the eleven legislators on the blacklist.

**Won't Fight "Backsliders."**  
The program, he said, has not been completed in concrete form, but he said "We will not make an issue of

Refreshed!

## CHRYSLER IMPERIAL

Best Oil  
EQUIPPED

the prohibition bill this time." His answer indicated that the league will not attempt to defeat the eleven "backsliders" this year.

The eleven legislators are: Frank E. Abbey (Rep., Henderson), William Adcock (Dem., Knox), Fred Bippus (Rep., Cook), Reed E. Cutler (Rep., Fulton), John P. Devine (Dem., Lee), H. W. Faulkner (Dem., Jefferson), Charles E. Mariner (Rep., Cook), John McElvaine (Dem., Hamilton), Thomas P. Sionett (Dem., Rock Island), Lewis B. Springer (Rep., Cook), and George A. Williston (Rep., Cook). This admitted weakening of the Anti-Saloon league comes in the face of a growing demand by those who are disgusted with prohibition to make it an issue in Illinois.

"The time is ripe for a real or-

ganized campaign," says E. Thiele, state director of the Association Opposed to Prohibition. "The sentiment is for modification. We know that from the surveys we are making with the limited funds at our disposal. All the modification movement needs is organization, real leadership and enough money to finance a campaign to meet the propaganda of the radical dries. The people are ready for modification."

**THREE HELD AS HAT THIEVES.**

Three men charged with stealing cloth and hats worth \$8,000 from the D. B. Flak company, 325 North Wabash avenue, were held to the grand jury yesterday. They are Joseph H. Webster, 35, 119 West Chestnut street; Burton Durburn, 54, 2514 Ellis avenue; and Samuel Palasolo, 530 North Clark street.

## LEWIS DECLINES TO ENTER RACE FOR U. S. SENATE

While the two candidates for the Republican nomination for United States senator have been going at top speed for weeks in their campaign, the Democratic senatorial situation got back yesterday to no place at all. Former Senator James Hamilton Lewis definitely eliminated himself, and the Democrats have no candidate. Col. Lewis sent word to Democratic leaders that personal reasons impelled him to withdraw his name from further consideration. Although a main cog of the Dunne-O'Connell-Harrison

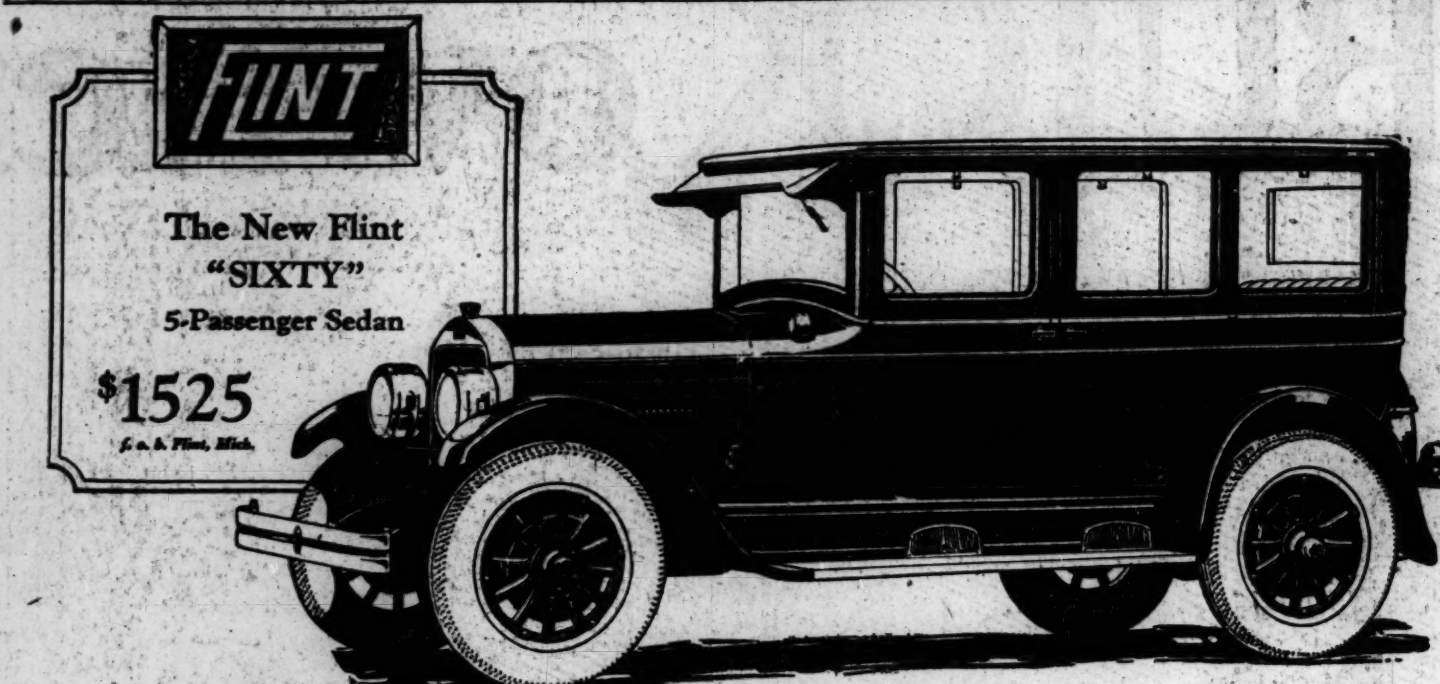

combination, Lewis had received the O. K. of the Democratic regulars.

In withdrawing, Col. Lewis congratulated the regular organization on its stand for modification of the Volstead act.

Local Democratic leaders indicated they would be glad to support Bruce Campbell of East St. Louis, former state chairman, if he is put forward by downstate Democrats as a candidate for senator.

**KILLED IN A STORY FALL.**

St. Louis, Mo., Feb. 1.—(AP)—Gustav Alchut, 30, of Detroit, a nephew of Julius Baer, vice president of Stix, Zee & Fuller Dry Goods company, one of St. Louis' largest department stores, was fatally injured today when he jumped or fell from a sixth floor window of the store.

## To the Policy-Holders of New York Life Insurance Co.

A Mutual Organization • Founded in 1843 • Incorporated Under the Laws of New York

346 BROADWAY, NEW YORK, N. Y.

LIFE Insurance is not a commodity; it is service, scientific social service. Its beneficence, however, is not limited to paying death-claims. It touches society at many points and renders many services of which few people ever think. As policy-holders you are public benefactors, not merely because you have protected society by protecting your dependents, but because you are advancing human efficiency and human happiness through the beneficent activities of this Company's assets.

The assets of this Company benefit both the insured and the uninsured. They reach all—even as the rain falls on the just and on the unjust.

In the year 1925 the Finance Committee invested in securities that demanded discrimination and judgment

**\$151,371,950.10, to yield on the average, 5.36%**

Analyze that total and you at once see how widely and directly it touches and helps the community at large. This is the picture:

**MUNICIPAL BONDS:** A capital investment of \$1,044,177.06, to yield 4.33%.

**REAL ESTATE MORTGAGES:** During 1925 the Committee made 6,895 separate mortgage loans in forty-one States, the District of Columbia and Canada, aggregating \$93,534,753.22 to yield 5.57%. These mortgages in detail were divided as follows:

5,151 Loans on residential property, representing a capital investment of \$28,562,173.86, accommodating 5,240 families.  
635 Loans on apartment and housing projects, a capital investment of \$26,327,240.00 accommodating 8,117 families. A total of 14,897 families.  
178 Loans on business properties, a capital investment of \$32,801,781.18.  
939 Loans on farms, a capital investment of \$5,843,698.26.

Capital soundly invested in Mortgages on Real Estate is safe; it yields good return, and renders a genuine public service. Your investment in mortgages of over ninety-three million dollars in the year 1925 appears in the balance-sheet below as part of your total investment in mortgages amounting to \$353,627,202.42. That total is divided into exactly the classifications I have made of the investments of 1925 and is all equally useful.

**RAILROAD BONDS:** In this class of securities the Committee in 1925 made a capital investment of \$21,416,375.55 to yield 4.99%, as follows:

In bonds secured by mortgages on bridge and terminal properties.....\$ 1,838,365.00  
In equipment trust certificates secured by locomotives, freight and passenger cars.....8,882,184.18  
In bonds secured by mortgages on railroads, covering mileage located in 31 States and the District of Columbia.....16,975,826.37

This Company has long been a large investor in Railroad Bonds. It fought vigorously to secure the Transportation Act of 1920 under which the railroads of the country have been rehabilitated. The twenty-one millions and over invested in 1925 is a part of the total which appears in the balance-sheet below, \$325,062,694.07.

**PUBLIC UTILITY BONDS:** Here in 1925 the Committee made a capital investment of \$35,376,644.27, to yield 5.04%, as follows:

In bonds secured by mortgages on gas, electric light and power properties.....\$25,685,115.07  
In bonds secured by mortgages on telephone properties.....9,771,529.20

Public Utility enterprises represent a relatively recent development, and are closely allied to all the comforts, conveniences and necessities of present-day life. Your investments in bonds of this class in the year 1925 represent properties operating in twenty-five States in which dwell approximately 73,000,000 people. These institutions have 13,000,000 consumers, and a fixed capital investment of three thousand million dollars. Through your investment of over thirty-five million dollars in 1925 and your earlier investments of the same sort you have become a considerable supporter and a definite part of that great and indispensable modern development. Every dollar of the total investment in public utilities is hard at work adding to the sum of human comfort.

In the balance-sheet below the activities of the Finance Committee for the year 1925 and in previous years are projected on a larger screen. After eighty-one years of business the Company's assets on December 31, 1925 (taking bonds at market value), amounted to \$1,149,471,556.92. We are not here considering the strictly Life Insurance function of that accumulation, which of course is its first function. We are emphasizing the fact that every dollar of that huge sum is working every minute in the public interest; something you as policy-holders seldom think of, something the public is scarcely aware of. You insured your lives in this Company primarily to protect your old age and your dependents. You performed a good deed. Good deeds go far. They illustrate the truth of what Portia says in the "Merchant of Venice":

"How far that little candle throws his beams!  
So shines a good deed in a naughty world."

Your policies are separate candles; they shine far.

DARWIN P. KINGSLEY, President.

## 74 TEACHERS ARE RETIRED AS NEW SEMESTER OPENS

### Opponents of New Sys- tem Ready for Battle.

Safely through a critical readjustment in its teaching force, the Chicago public school system today will enter a new semester under complete supervision, for the first time, of persons under 70 years of age.

Fear that the release of seventy-four teachers and principals, retired yesterday into emeritus service, might cause confusion faded away last night. Reports from all parts of the city indicated that the changes were carried out in a quiet and efficient manner.

#### Tears Mingle with Flowers.

Here and there a touch of sadness was felt at the absence of the older folks from the desks. A few tears mingled with the congratulations and flowers for those newly promoted. But these, aside from the registration day bustle, were the only evidences of anything unusual.

Supt. William McAndrew and board of education officials were delighted with the alacrity shown by the new appointees in taking over their duties. They predicted that results will soon prove the benefits of the emeritus rule.

In the meantime, the 70 year old educators are splitting into two groups—those who are satisfied with the rule and those opposing it. As shown by letters and interviews, the groups apparently are about equally divided.

#### Opponents Support Suit.

The opposing group, led by James E. Armstrong, retired principal of Englewood High school, is vigorously supporting a suit to declare the rule illegal, brought last week by Mr. Armstrong. Chester C. Dodge and Mary Hecox. The case will be heard by Judge Hugo M. Friend in Circuit court Thursday.

Upon the advice of his attorney, Mr. Armstrong yesterday sent a form letter to each of the seventy-four members of the emeritus service, warning them to accept only "under duress" any "service" to which they may be assigned. Otherwise, he said, they may waive rights of their contracts, al-

leged to have been broken. Supt. McAndrew characterized this "danger" as a "bugbear." So far, he explained, the seventy-four have simply been asked to check their preferences on a list of suggested types of activity.

#### Former Mayor Hylan

##### Pension of \$4,215 a Year

New York, Feb. 1.—(Special.)—The Walker administration today fixed the pension to be paid former Mayor Hylan at \$4,215 a year. Mr. Hylan will receive the pension as long as he lives and in case of his death it will go to his wife as long as she lives.

## SACKETT SENT TO PSYCHOPATHIC TO TAKE TESTS

E. H. Sackett, former mining engineer, who created a disturbance at the Berwyn Medical Unit hospital on Sunday by drawing a revolver and making a dash to liberty rather than submit to a sanity test, was turned over to Psychopathic hospital authorities yesterday following his arrest at the Union depot by Policeman Michael Conn. Sackett was the center of an extensive police search for hours after

he escaped from the hospital. He jumped into a taxicab and forced the driver at the point of a revolver to drive him to Chicago.

## 3 U. of C. Football Stars Tied in Beauty Contest

A male beauty contest at the University of Chicago ended yesterday with three football stars tied for first honors. The \$10 prize for the handsomest man was therefore given to the University Day Nursery. Those tying were Austin McCarthy, full back; William Abbott, quarterback, and Fred Hobscheid, lineman.

# NASH

Leads the World in Motor Car Value

## 25% Greater Power and New Smoothness Quietness Responsiveness

## Displaying the New "Enclosed Car" MOTOR

Now Nash has solved the problem of providing power, speed, acceleration, quietness and long life, in a passenger car engine from a standpoint entirely new to the industry.

Reversing general engineering custom which developed the motor to the open car standard of needs, Nash has created a motor which endows the closed car with a radically new type of performance.

Larger—and with 25% more power—this new Nash "Enclosed Car" motor gives to a Sedan the brilliant "liveness" and sparkling responsiveness that has hitherto identified the finest kind of touring car action.

In all those qualities dear to your heart

—smoothness, quietness and flexibility, through the entire range of speed and power—Nash has literally re-created former standards.

The thoroughly remarkable "pick-up" of this new "Enclosed Car" motor is vividly evident when you realize that it flashes from stand-still to peak-speed in 23% less elapsed time than before.

Yet it is so economical that consumption of fuel has not been increased one iota.

And the design is such that with normal usage you may expect the mileage to mount well up into five figures before you give the motor the slightest thought beyond ordinary care in changing oil.

PRICES: Special Six Series: Touring, \$1135; Roadster, \$1115; Coupe, \$1165; Sedan, \$1215; 4-Door Sedan, \$1315; Special 4-Door Sedan, \$1445. Advanced Six Series: Touring, \$1340; 7-Pass. # FACTS

## for Automotive Advertisers *Proved by Results*

The 30 automobile distributors in St. Louis who made the substantial gains in sales in 1925 *all* used commanding advertising space in The St. Louis Globe-Democrat.

Car distributors and manufacturers have *proved* the selling power of St. Louis' Largest Daily—the greatest single automotive sales influence in The 49th State.

The Globe-Democrat is the car owner's guide in the St. Louis market.

It reaches more automobile owners than any other St. Louis daily . . . covers The 49th State as no other newspaper even claims to do . . . regularly carries the big volume of passenger car, truck and national tire display advertising.

**Reserve space now for the special annual SHOW NUMBER, Sunday, February 21st.**

*The St. Louis Automobile Show is from February 22nd to February 27th, inclusive.*

The St. Louis Globe-Democrat is the outstanding medium for automotive advertising in The 49th State, one of America's greatest markets—radius 150 miles surrounding St. Louis.

It is read by more car owners in metropolitan St. Louis than any other St. Louis daily. . . . Reaches 3 times as many families in The 49th State outside of St. Louis as the second St. Louis daily.

The circulation you pay for is circulation you want. . . . concentrated in the sections of St. Louis where greatest car-purchasing power exists—where the families with buying power live—where 69% of all the automobiles are owned—and where 65% of the families own cars.

Globe-Democrat Sunday circulation almost exactly parallels automobile ownership, ward by ward and in the suburbs.

Success of  
The 49th State Tour Club  
Reflects Reader Interest  
Among Car Owners

The success of The 49th State Tour Club reflects the great reader interest which The Globe-Democrat enjoys among car owners. Although barely six months old, this motoring club, organized and maintained by The Globe-Democrat, numbers more than 3,500 members and keeps on growing.

## WALSH URGES FULL INQUIRY ON MELLON'S FIRM

Washington, D. C., Feb. 1.—(AP)—A general investigation by the senate of the practices of the Aluminum Company of America, in which Secretary Mellon is a stockholder, appeared tonight as a possibility.

Such an inquiry was proposed to day to the judiciary committee by Senator Walsh (Dem., Mont.), prosecutor of the investigation to determine whether the department of justice has proceeded with due diligence in determining whether the company has violated federal court decrees.

**Gives Informal Opinion.**  
After the committee had taken this proposal under advisement, Attorney General Sargent advised the senate in an informal opinion that the justice department was without authority to compel the federal trade commission to furnish evidence in the case, which the commission holds to be "confidential." He refused to furnish a formal opinion.

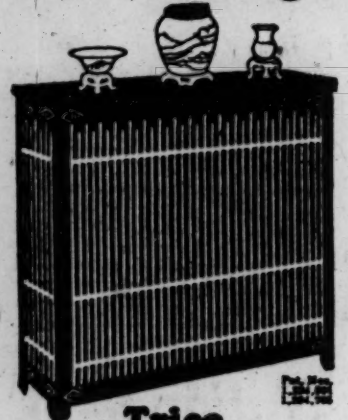

Senator Walsh's proposal is that the senate direct the commission to furnish this evidence to its investigating committee. The commission withheld it from the justice department on a 3 to 2 vote.

Characterizing this as "senseless," Senator Walsh, in his report, requested that the senate call not only for this evidence, but for all of that in the possession of the commission upon which that body based its conclusions in 1924 that the company had violated the 1912 consent decree.

**Doubts Good Faith.**

In recommending a separate senate investigation to supplement those conducted by the commission and the justice department, Senator Walsh said he took this course "in view of the doubts as to the vigor and good faith of the department of justice" in the conduct of its inquiry, which has extended over nearly a year and still is incomplete. He sharply criticized Attorney General Sargent.

## NORRIS HALTS SPEEDING UP OF TAX BILL ACTION

### Defies Steam Roller; Hits Mellon Banks.

Washington, D. C., Feb. 1.—(Special.)—Efforts on the part of administration leaders to speed up action on the tax bill were met today by a charge of "steam roller" tactics.

Senators Norris (Rep., Neb.), objected to a request by Senator Smoot (Rep., Utah), chairman of the finance committee that the senate commence its session an hour early tomorrow.

**Meet Second Rebut.**

The Republican leaders also met with a rebuff in an attempt to obtain a promise from the insurgent group to allow the controversial provisions to come to a vote without extended debate.

Senator Norris insisted that he is not attempting to delay the bill, but merely wants proper consideration. "Nobody is trying to delay this bill, but I want to serve notice now that if they try to start any steam roller business they will not make any headway," he said.

In today's session surtaxes were technically under consideration but no amendments were acted upon. Senators Norris, Couzens, and King (Dem., Utah) all made attacks on the bill.

Senator Norris, in advocating publicity, assailed the action of the Union Trust company, the Union Savings bank, and the Mellon National Bank of Pittsburgh, and the Mellon Trust

company, institutions in which Secretary Mellon is interested, for the filing of a consolidated tax return.

**Saved \$22,000 in Taxes.**

He quoted from an affidavit by a former tax official to the effect that by this move the banks saved \$22,000 in taxes, this method permitting losses of one institution to be offset against profits of another. Senator Reed of Pennsylvania insisted that this action was proper under the law.

Senator Couzens declared that the Curtis Publishing company by the consolidated return method had been able to apply losses of the Philadelphia Public Ledger against profits of the Saturday Evening Post.

**Highway Police Pick Up  
Thief Driving Stolen Car**

Recognizing the license number of an automobile passing through Willow Springs in Archer avenue yesterday, County Highway Policemen Mandernack and O'Neil arrested the driver, a paroled convict, for theft of the machine. He was identified as Frank Kure, 20 years old, of Lockport.

Police say that he served term at Pontiac for robbery and another term for auto theft in the Will county jail. He admitted stealing the car a week ago in Chicago.

**North Center District to  
Stage Pageant Tomorrow**

Plans have been completed by the North Center civic organization for a gala celebration in connection with the opening tomorrow of the new North Center theater at Lincoln avenue and Robey street. Merchants in the neighborhood have trimmed their windows and entered floats in a parade for a silver loving cup. An elaborate stage pageant, has been prepared depicting the history of the community.

**Mothers, Do This—**

When the Children Cough, Rub  
Musterole on Throat and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister. As first aid, Musterole is excellent. Keep a jar ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frostbitten feet, and colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. Jars & Tubes

**MUSTEROLE**  
WILL NOT BLISTER

Better than a mustard plaster

**FOR**

**Acid Stomach**

**PHILLIPS' Milk**

**of Magnesia**

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

**Better Than Soda**

For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution

of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

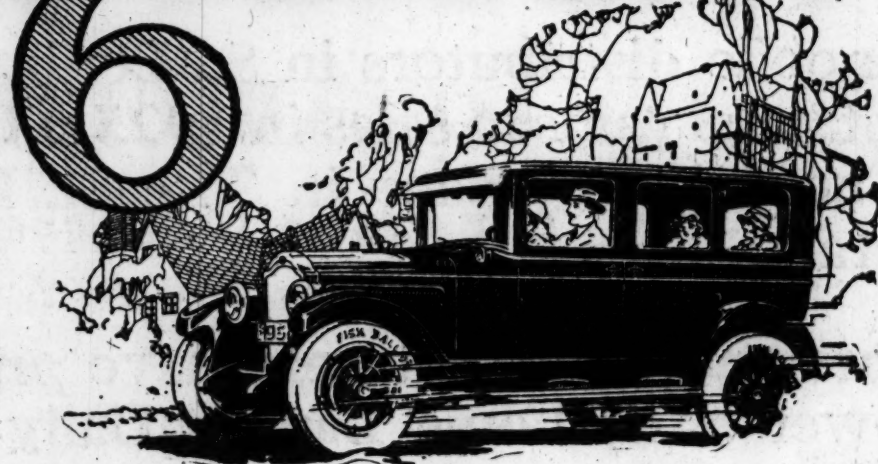

**Try a 25c Bottle**

Insist upon "Phillips'." Twenty-five cent and fifty cent bottles, any drug-store.

# Super-efficiency that challenges all cars

## the new "70" WILLYS-KNIGHT

... powered with the internationally-endorsed Knight sleeve-valve engine ... a car whose demonstrated super-efficiency excels everything else of its size, and price, and class ...

At its price, the new "70" Willys-Knight Six becomes, we believe, the outstanding value of the world in the six-cylinder field.

The Knight type sleeve-valve motor in this car utilizes the principle of high-speed engine construction with startling results. With a 2½-inch bore and a 4½-inch stroke, this power plant delivers greater power per cubic inch of piston displacement, throughout its complete range, than any stock American motor-car engine built today.

This is measured in car performance by a speed capacity well in excess of 60 miles an hour, an acceleration which is startling in its accomplishment, and a power on hills which is a revelation.

These features of performance are embodied in a Sedan of distinctive elegance, superbly equipped and finished in the height of luxury; and in a touring car of refined smartness and grace.

**Results are amazing**  
No other stock car of comparable size, in speed and power can perform alongside this new "70" Willys-Knight. For here is a car of superlative efficiency, combining all the advantages of the sleeve-valve engine in its most highly developed state, with the most advanced engineering achievements.

**A perfected mechanical four-wheel braking system**  
This new car is equipped with absolutely positive

**SEDAN \$1495**

Roomy 4-Door  
**TOURING \$1295** PRICES FOB FACTORY

mechanical four-wheel brakes—the approved and perfected braking system used today on the finest, most advanced European and American cars. . . .

**A body of rare beauty, and real comfort**

The body designers have outdone themselves in producing a body whose appearance is in full keeping with the car's outstanding engineering features. Its interior has been planned with such scientific exactness that all waste space has been eliminated. Every cubic foot of inside space has been utilized for your maximum comfort.

To make it still easier for you to benefit by the spectacular value represented in this new "70" Willys-Knight Six the new Willys Finance Plan offers easy time-payment terms at the lowest credit cost in the industry.

See this phenomenal new car at Space 16, main floor, Coliseum Show—also at the special Willys-Overland retail Showrooms at Wabash and 13th.

The Detroit Free Press  
TWELFTH ANNUAL  
DIRECTORY  
NATIONAL  
Automobile  
Show - CHICAGO  
COLISEUM  
FEB.

The new plant of The Detroit Free Press, fronting one city block on Lafayette Blvd.

## To Automotive Advertisers

For twelve years one of the features of the National Motor Shows at both Chicago and New York has been the publication by The Detroit Free Press of its Annual Show Directory—a service looked upon as a most invaluable aid in speeding up business contacts during Show Week

This service and others The Free Press provides the automobile business comes as a natural corollary to its dominant influence in the capitol of the motor car world—services that embrace the sponsoring of movements and ideas looking towards the betterment of the business of making, selling and owning motor cars.

Naturally this leadership has brought with it a preferred use of Free Press columns by motor car and accessory manufacturers, not alone because The Free Press is a "good newspaper," but by virtue of the fact that four-fifths of its circulation is now concentrated in the Greater Detroit area, covering, as no other newspaper does here, the real purchasing power of a responsive market. Free Press local circulation coverage is 11% higher than the average for ten other great morning newspapers in their respective cities.

And outside of Detroit in such Michigan cities as Flint, Lansing, Jackson, Ann Arbor, Port Huron, Saginaw and others, The Free Press reaches good homes two to one over any other Detroit newspaper.

To adequately serve an ever-increasing patronage, an ever-growing appreciation of its ideas and ideals, The Free Press has just completed and occupied a new plant representing an investment of over six million dollars, having outgrown a ten-story building in a little over one decade.

These activities represent real service, profitable service to the advertiser, automotive or otherwise whose ambition is to MAKE SALES in the great Detroit market—where selling conditions make the use of a morning newspaper imperative if one hopes to establish contact with the purchasing power of one of the world's most prosperous markets today.

# SECRET TRIAL OF 'BLACK' SLAYERS STIRS GERMANY

BY SIGRID SCHULTZ.

[Chicago Tribune Press Service.]  
BERLIN, Feb. 1.—Despite widespread clamor for the truth about the wholesale murders by the "black reichswehr," a monarchist military organization, the German authorities today drew a veil of secrecy over the first of the sensational trial of the men who have confessed to the political murders. The judge excluded the public and press from the courtroom to "insure the safety of the state."

A storm of indignation was immediately aroused. Vorwärts, a Socialist paper, declared the shielding of the secrets of the conspirators makes the "secrets of the black reichswehr the secrets of the government."

Three Confess to Murder.  
Twelve men were placed on trial for the murder of a youth named Pannier, who was a soldier in a unit of the secret military force. His skeleton was unearthed at Dohert, where his regiment was stationed. His skull was placed on the court's table. Three of the defendants confessed the details of the murder of Pannier, who was sentenced to death by a secret tribunal because he was suspected of communist sympathies.

The men who confessed said the crime was committed in a "forest beside the grave which his comrades were digging while talking to Pannier." They said the death blows were dealt with "a hatchet small enough to hide in a coat."

They contended that they acted under the orders of their officers, who formerly held commissions in the ex-kaiser's army.

Lieut. von Senden Freed.  
Lieut. von Senden, who organized the Doberts regiment of the black reichswehr, was released by the court tonight. The judge decided the state's attorney's evidence was insufficient.

## Washington Notes

Washington, D. C., Feb. 1.—The Associated Press today reported activities in the nation's capital as follows:

CONGRESS.  
The Watson-Darke bill, providing new machinery for dealing with railroad labor disputes, was endorsed before the senate interstate commerce committee by Daniel Willard, president of the Baltimore and Ohio railroad.

Exemption from tariff duty of all articles imported from foreign countries which are exchanged for American farm products for exportation was proposed in a joint resolution by Rep. Evans (Dem., Mont.).

A measure to declare illegal co-operative associations which do not sustain normal competition and which attempt fixing of uniform prices was introduced today by Sen. King (Dem., Utah). The measure would exempt producers of agricultural products and organizations in export trade.

Passage by the house completed the congressional action on two bills to authorize Illinois to construct a bridge across Fox river, one in La Salle county and the other in Kendall county.

Senator Brookhart (Rep., Ia.) has asked the senate elections committee for a brief time in which to study the evidence in the contest brought against him by Dan F. Steck, his Democratic opponent.

An incipient filibuster prevented senate action on the Walsh bill designed to punish three American citizens now residing abroad who have declined to give testimony in the Teapot Dome oil litigation.

MISCELLANEOUS.  
The National Aeronautic association announced the definite assignment of the national air races at or near Philadelphia to be held in connection with the sesquicentennial exposition in September.

The federal government today withdrew six Supreme court appeals in which it had sought to defend its seizure of two suspected run runners outside the twelve mile limit. The ships were the Canadian schooners Frances Louise and Marjorie E. Bachman, both seized off the Massachusetts coast.

# URGE UNIFORM TRAINING COURSE IN AMERICANISM

A uniform training course in American citizenship to direct the youth of America and the potential citizen from foreign lands into the right channels of attitude toward America and its institutions was proposed to commercial and financial leaders of Chicago yesterday.

The meeting was held at the Palmer house under the auspices of the American citizenship foundation established two years ago by Joseph B. Strauss, noted bridge engineer, to show commercial and industrial leaders that a practical course in citizenship training is an economic benefit to them. A unified program can do the work far better than superficial courses conducted by industrial concerns here and there, it was pointed out.

No Imminent Menace.  
No Red menace threatening the foundations of America was held up as a bugaboo yesterday, but the effect of social and intellectual radicalism on American youths and foreign immigrants was stressed as a factor demanding attention.

Few of the big business men who were invited knew exactly what the purpose of the gathering was. When the meeting was over many of them approved the movement.

Mr. Strauss explained how sixty-two clubs established in industries last year turned out 1,500 graduates of the training course. These clubs were formed among employees of the Illinois Central railroad, the Commonwealth Edison company, Marshall Field & Co., the Illinois Bell Telephone company, and others.

Taught by Clubs.  
Mrs. E. P. Sloan of Bloomington, chairman of the citizenship committee of the Illinois Federation of Women's clubs, told how citizenship is being taught in clubs established throughout the state by the women.

Mrs. J. G. Goodhue of the Daughters of the American Revolution deplored the action of college students at the recent student church conference at Evanston who pledged themselves never to take up arms for their country.

"We should pause and reflect very seriously on where our young are going," she said. "An active radical minority is undermining the great passive, silent majority."

A prominent business leader has asked us to find a man to share the direction and administration of his varied interests in America and abroad.

## Wanted Executive Associate—\$25,000

This is an unusual opportunity. The man to fill this position probably now holds an important executive position. He must be a leader—a "big" man, liberal in views, progressive in temperament, with general business knowledge and experience and a particularly intelligent interest in the problems of distribution.

A man who knows one or two foreign languages might have an advantage; the post may require an occasional trip abroad and will certainly demand a knowledge of European conditions. Wide acquaintance with American business methods is very important. Tact and poise, ability to meet business men and to conduct delicate negotiations are required.

This position demands primarily administrative and executive ability, but the right man will be an organizer as well. A major part of his work will be the development of a chain store organization of a new type.

Salary \$20,000—\$25,000 first year; later increase assured through participation. Age 36—44. Headquarters in Boston.

In behalf of our client we invite applications by mail only, giving full particulars as to experience, ability and earnings.

# The Lincoln-V Valentine Finish!

WHEREVER fine cars are seen, the Lincolns stand out preeminently for perfection of finish. Their brilliant deep lustre is remarked by all who see them and the striking beauty of this finish is more than "skin deep," for it is the result of several years of close co-operation between the Ford-Lincoln Engineers and the Valentine technical staff.

The foundation coats are Nitro-Valspar, unequalled for production speed, smoothness and durability. Then come the handsome Lincoln

colors followed by two coats of Valentine Super Finishing Varnish, each coat far more durable than those formerly considered adequate. These two final coats of "Super Varnish" yield a brilliant depth to a finish that is unsurpassed in both beauty and durability.

In the Engineering of this Finish the unlimited Ford-Lincoln resources have been supplemented by the experience gained by Valentine in ninety-four years spent in the production of high-grade finishes.

See the beautiful Lincolns at the Chicago Automobile Show and note the perfection of the Lincoln-V Valentine Finish

# HIGH SCHOOL FOR YOUNG MEN

**Diploma in 3 to 4 Years**  
Central Preparatory School is the largest non-public high school in the Chicago Loop. More than 1250 men are enrolled for day and evening classes each semester. Faculty consists of 45 experienced men teachers, all college graduates. The student organizations and physical activities will appeal to the young man who wants to combine education with recreation.

**Fully Accredited**  
Credits of the Day and Evening High School are accepted fully without examination by the University of Illinois, Chicago, Northwestern and all other middle west universities and state examining boards.

**These booklets will point the way to a high school education**  
The School is a member of the North Central Association of Colleges and Secondary Schools.

Register Now—Classes Fill Rapidly  
Evening Classes Now Forming.  
Day Classes begin Monday, February 8.

## Day and Evening Classes

The day classes of Central Preparatory School will appeal to the young man who is too old to attend the public high schools or who needs the special individual attention only possible in a private school. A capable student can secure a high school diploma in three to four years or in even less time than that.

The Evening High School enables those employed during the day to secure a standard high school diploma in 3½ to 4 years by attending classes during the ten-week summer term in addition to the regular fall and spring semesters of twenty weeks each. Classes meet three evenings a week. A complete program consisting of every accredited high school subject is offered.

Call at the office, Phone or write to Principal O. N. Wing, about day school classes and booklet T-3. Principal H. L. Buck, about evening school classes and booklet T-4. These men and the educational advisers will be glad to answer questions about high school courses and help you arrange your registration.

## AUTO DESIGN NOW STABILIZED, 1926 SHOW INDICATES

But Latest Models Carry  
Many Refinements.

BY J. L. JENKINS.

and motor fans continued to crowd  
about the brilliant Coliseum display  
last night and to break automobile show  
attendance records yesterday after-  
noon and night, but it remained for  
the industrial experts who attended the  
private showing of the morning to  
explain the real meaning of this year's  
exhibition.

This showing, the first of two "trade  
periods," was attended by several hun-  
dred industrial executives, company  
engineers, and factory officials, as well  
as hundreds of dealers and distributors  
who use the show as a concentrated  
showroom and place their orders for  
spring and summer stock. They had  
been here from 10 a. m. to 1 p. m. The  
rest of these trade periods will cover  
the same hours today.

The 1926 show, according to the en-  
gineers who examined all of the dis-  
plays carefully, indicates above all else  
the stability in motor car design.

**Small Changes Important.**  
Changes of this sort do not impress  
the average motorist, but they are of  
great importance to the automobile  
builder in his desire to turn out cars  
of approximate perfection. He is inter-  
ested in every new twist that tends to  
give greater comfort and safety to pas-  
sengers and longer life to the car, and  
especially in the small details that cut  
down repairs.

A striking illustration of this tend-  
ency throughout the industry was  
made by E. H. Anibal, head of the en-  
gineering department responsible for  
the designing of the new Pontiac six,  
the General Motors car which makes  
its initial bow at the Chicago show.  
This job, he explained, represents three  
years of experimental work, despite the  
vast engineering resources offered in  
the Oakland organization and General  
Motors laboratories.

Experimental cars that led up to the  
new Pontiac, he added, have been oper-  
ated more than 150,000 miles under all  
sorts of weather and road conditions  
following the actual completion of the  
engine a year ago, while \$2,000,000 was  
set aside for the working out of the  
tests used on the new production line.

**Two Other Cars Make Debut.**  
Like attention to details is apparent  
in all of the cars shown, although the  
Pontiac, the new Stutz safety chassis,  
and the new Chrysler are the only cars  
at the show making their debut.

Conventions and meetings were held  
by a dozen motor companies yesterday.  
The largest convention on the program  
is the National Automobile Dealers' as-  
sociation annual meeting in the La  
Salle hotel. This convention closes to-  
morrow. Old timers of the industry  
will come into the week's spotlight  
Wednesday with the Five Hundred club  
banquet in the Congress hotel.

## Notes of the Automobile Show

Buick in maintaining a capacity pro-  
duction of more than 1,000 cars a day  
with 5,000 employees less than the big  
plants used in 1923, according to com-  
pany officials attending the show. The  
secret, they declared, lies in careful  
attention to equipment and improved  
methods in handling materials and  
stock, and has been accomplished with-  
out sacrifice of quality in the car.

One of the biggest organization gath-  
erings of the week will be held in the  
Blackstone hotel today when Marmon  
salesmen and dealers are to be enter-  
tained by the company. H. H. Brooks,  
general sales director, will be in com-  
mand. G. M. Williams, president, and  
Homer McKee, vice president, will at-  
tend.

The straight eight, overhead valve  
motor employed in the new Stutz safety  
chassis is credited with an accelera-  
tion of 10 to 60 miles an hour in 15  
seconds and a deceleration and com-  
plete stop in 7 seconds, or about 180  
feet from a 70 mile an hour speed.

According to Edward S. Jordan, the  
day is not far distant when automobile  
manufacturers will be forced by pub-  
lic opinion and legislation to adopt  
all-steel body construction. Jordan,  
who uses the all-steel body in his 1926  
car line, cites the adoption of all-steel  
Fulham's by American railroads as a  
forerunner of what is coming in the  
automobile industry.

Sales plans for 1926 will be dis-  
cussed by the Chevrolet sales ex-  
ecutives in conference today and tomor-  
row at the Sherman hotel. They are  
meeting regional and zone sales man-  
agers from all parts of the country.

Charles Tucker, general sales man-  
ager for Peerless, predicted yesterday  
that the foreign sales of American  
cars will be the biggest stimulus in  
1926 to domestic business. He believes  
that overseas development was the  
outstanding automobile accomplishment  
of last year.

The Overland Motor company deal-  
ers' luncheon is scheduled at noon to-  
day in the La Salle hotel.

**STUTZ**  
8  
IS  
**Prest-O-Lite**  
EQUIPPED

Another feature event of today is  
the Flint luncheon for 250 dealers and  
officials of the Flint Motor company  
in the Congress. J. H. Newmark will  
be toastmaster. Speakers include R.  
H. Mulch, vice president and general  
manager; G. R. Scott, assistant gen-  
eral manager of the company, and E. A.  
Martin of the Chicago Flint company.

F. D. Cerr, Chicago branch manager  
of the Stutz Motor company, added his  
quota to automobile week in Chicago  
yesterday with a special \$100,000 ex-  
hibit of cars in the Stutz showrooms  
on Michigan avenue.

Lady Diana Mahners, the original  
Chrysler "fan" in England, was one  
of the distinguished visitors yesterday  
in the feature Chrysler show in the  
Congress hotel ballroom. She was  
accompanied by Morris Gest, producer  
of "The Miracle," in which she is  
cast as Madonna.

## CONDUCTORS ASK WAGE BOOSTS FROM RAILWAYS

Application for wage increases,  
which spokesmen of the railway man-  
agements said would exceed, in some  
cases, the 1920 peak rates, was filed  
with the railroads yesterday by the  
conductors and trainmen.

Officials of the Chicago and North-  
western stated their employees had an-  
nounced the same action was being  
taken by the employees' representatives  
in other parts of the country. Mean-  
while the United States railroad labor  
board had before it approximately sev-  
enty requests for changes in rates or  
rules. Many of the petitions, it was  
said, have been filed for some time.  
While the train service brotherhoods  
and the firemen are involved in a few  
of these, most of the applications came  
from smaller organizations.

Among the standard organizations  
that have filed wage cases with the  
labor board are those of the clerks,  
telegraphers, dispatchers, and main-  
tenance of way employees.

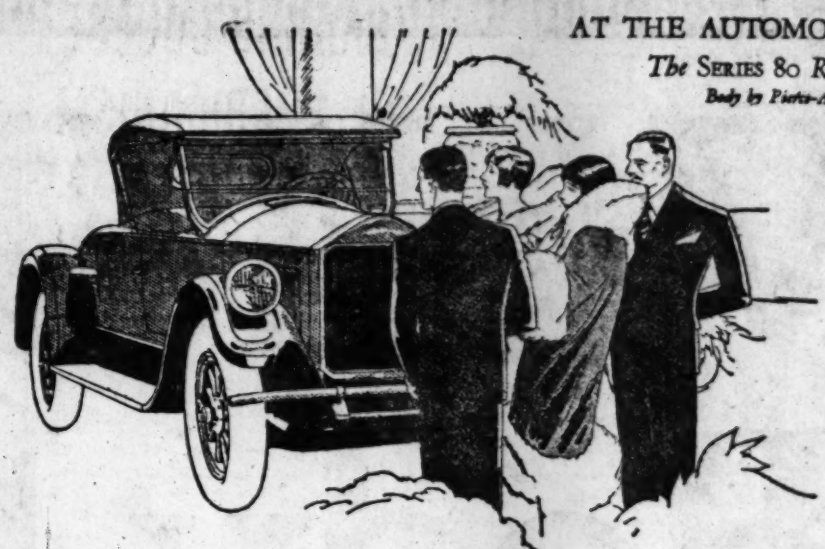

## AUBURN

**BEIGHT \$1795**

In contrast to superla-  
tives in advertising  
and extravagant sales-  
talk, Auburn simply  
says: See, drive, test,  
and compare the new  
Auburn. If it does  
not sell itself on sheer  
merit, you will not be  
asked to buy.

E. L. CORD

AUBURN AUTOMOBILE COMPANY, AUBURN, IND.

AT THE AUTOMOBILE SHOW  
The Series 80 Rumorist  
Body by Pietro Aron

43% of new SERIES 80 owners  
drove \$1500 to \$2000 cars

We recently checked a year's sales of  
Pierce-Arrow cars in 90 cities. We found  
that of all who had bought a Pierce-Arrow  
for the first time, 43 per cent or nearly  
one-half had, until then, driven cars costing  
less than \$2000.

These men have known the Series 33 Dual-  
Valve Six, Pierce-Arrow's larger car, for  
years. But their motoring budgets would not  
support so luxurious a car. Now, however,  
through the beautiful Series 80, a Pierce-  
Arrow of more moderate size and amazing  
economy, they are able to satisfy their desire.

And what do they find? Economy with-  
out precedent among fine cars. Gasoline  
gives, ordinarily, 14 to 17 miles per gallon.

Prices: SERIES 80 cars \$2895 to \$4045 at Buffalo, tax extra. 70-horsepower, six-cylinder Pierce-  
Arrow engine; four-wheel brakes, balloon tires, Houdaille Shock Absorbers and Pines Winterfront  
standard equipment. SERIES 33, Dual-Valve Six, \$3250 to \$3900 at Buffalo, tax extra

A moderate payment now, balance to be evenly distributed over a period of months, will secure early delivery

## HARMON TELLS PLANS AND SITE OF \$8,000,000 STADIUM

**ARENA SEATING  
39,000 WILL BE  
READY OCT. 9**

**Land Purchased for  
\$1,500,000.**

BY DON MAXWELL.  
It would be like Paddy Harmon's dream—the story of the details of the magnificent sports stadium he is planning—but on Oct. 9, the day set for its completion, he thinks folks will be calling it "Paddy Harmon's Triumph."

And they will if the plans he outlines are fulfilled.  
Details of the stadium, the most pretentious in America, were announced for the first time last night a few hours after Mr. Harmon had witnessed the transfer of deeds to the numerous plots of ground which comprise the site for the stadium.

Fitted together, the plots make up a place of ground 540 feet long and 184 feet wide lying between Madison and Warren, Wood and Lincoln streets.

Stadium 152 Feet High.  
Here are a few facts about "Harmon Stadium," which its builder calls "The Palace of the Future."

It will be 152 feet high, with the topmost seat 118 feet above ground level. This is higher than any stadium in the world.

It will be built on a site which will be filled with a large number of the athletic heroes of the world.

When a football game is played the temperature of the stadium will be lowered to the temperature outside.

The stadium's ceiling will be decorated to resemble the sky and the lobby will be filled with bronze statues depicting the athletic heroes of the world.

There are a few of the things Paddy Harmon thinks will make his stadium the most talked about home of sports in America.

The land on which the stadium will be built cost \$1,500,000," he explained.

The total cost of the structure will approximate \$8,000,000. The building will be constructed of brick and terra cotta and will have eight entrances.

Stores will occupy the ground floor on Madison street only. The architects are Hall, Lawrence, Ripple & Rattigan.

Outlining the transportation facilities, Mr. Harmon pointed to the Madison street car line, the Lake street elevated station three blocks away, the Marshall station of the west side elevated lines a short walk, and the Madison street station of Humboldt street elevated line one-half block distant from the stadium.

The floor of the arena will be constructed in this fashion. First comes a layer of cork. On top of the cork will be laid pipes. Over the pipes and around them will be a material formed of crushed marble. This will be leveled off and brought to a fine finish.

30,000 Seating Capacity.  
When he was wanted for hockey or skating contests, the arena will be built on a site of ice frozen on top. When he is desired to remove the ice, hot brine will be piped beneath the arena and the ice melted and scraped away.

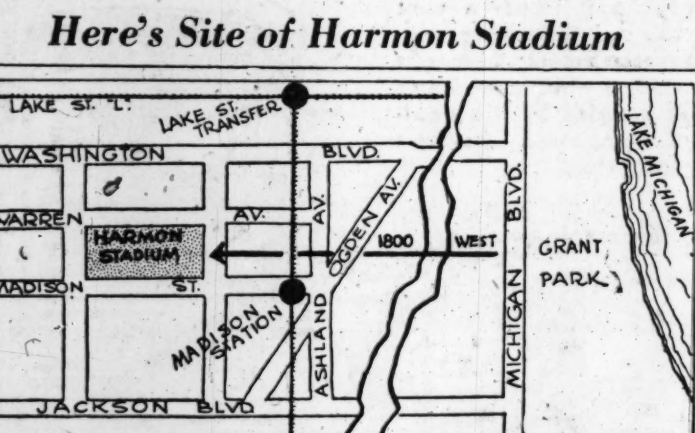

Harmon's plans call for the construction of 39,000 permanent seats. The area of the football field will be 110 by 130 yards. The hockey rink will be 110 by 200 feet.

It can be placed in the hockey rink and then on the rink, on an eight foot track, another circle of ice can be built. Speed races and a hockey game could be staged simultaneously.

When the stadium program calls for fights or wrestling matches, great rows of temporary seats will be lowered into the arena taken up by the football field or the ice rink.

There will be 16 permanent ticket windows with a possible 24, in addition to the four elevators, each of which will have a capacity of 50 passengers.

Opening on Oct. 9.  
There will be huge ramps leading to the various tiers of seats. The seating arrangement calls for a gallery, lobby, mezzanine and ground floors.

Here's Site of Harmon Stadium

P. T. Harmon announced last night the location and plans for \$8,000,000 sports stadium. Building work is to start March 1. The stadium will be completed, Mr. Harmon says, on Oct. 9.

### Indiana Five Gets Revenge on Iowa, 30-20

Bloomington, Ind., Feb. 1.—[Special.]—Indiana gained a tie with Michigan for second place in the Big Ten basketball chase here tonight by trimming Iowa, 30 to 20. The victory avenged an early season upset, when the Hawkeyes scored on their home floor.

Beckner was high scorer for the Deane men, tossing in three goals from a field and four free throws. Miller was high point man for the Hawks, caging a pair of goals from afield and three one pointers.

Iowa gained an edge in the first few minutes of play when Harrison flipped in a long field goal. Beckner tied the count with two free throws. Iowa again forged to the front, but Coach Dean sent Krueger into the lineup and the Hoosiers began climbing.

Iowa had a 16 to 15 lead in the middle of the second period, but Indiana overcame it and flashed to an easy triumph at the end. Lineup:

INDIANA (30): P. T. Harmon, 10; D. Beckner, 12; J. Miller, 6; E. Krueger, 2; W. Harrison, 10. IOWA (20): J. Beckner, 10; D. Beckner, 10; J. Miller, 6; E. Krueger, 2; W. Harrison, 10.

The score at the end of the first half was 12 to 9, with Indiana leading.

### Seeded Stars Win in Indoor Net Tourney

New York, Feb. 1.—[Special.]—Playing the first indoor competitive match of her career today, Mary K. Browne, former national women's tennis champion, from Santa Monica, Cal., triumphed with difficulty over the severe stroking of Florence Ballin of New York in the opening round of the annual Heights tennis invitation tournament.

6-3, 6-4.  
Mrs. Mollie Burdett Mallory drew a first round bye and scored easily in her second round match against Mrs. Edward Raymond of Scarsdale, N. Y., 6-3, 6-0. Other seeded players to advance were Miss Martha Bayard of Short Hills, N. J., who defeated Miss Edwina Cruikshank of New York, 6-3, 6-0, and Mrs. J. Dallas Corbiero of Boston, who eliminated Mrs. J. E. Bailey of New York, 6-1, 6-2.

### Stecher Beats Russian Grappler with Scissors

New York, Feb. 1.—[Special.]—Joe Stecher of Dodge City, Neb., claimed the world's heavyweight wrestling championship, defeated Ivan Poddubny of Russia in what was advertised as a title match here tonight. Stecher scored the lone fall after 1:38:37 of wrestling, with his scissors, combined with an armlock.

### WHO WILL MAKE GOOD?

Minor league baseball players breaking into the big leagues face a hard job to stick. Charles Root's prospects with the Chicago Cubs are here discussed by James Crusinberry

Any young pitcher who can fan 211 batters in a season must have something on the ball besides the cover. There is a young Ohio boy named Charles Root who accomplished that feat last year with the Los Angeles Angels.

Miss Wills rallied and tied the score, 2 all, after a baseline driving duel. The Cubs last spring and he is going to try to do the same this summer as a member of the Chicago Cubs.

After losing the first game of the second set, Miss Wills' savage driving carried her to victory, winning five straight games. She lost the seventh, and then took the set after a spectacular battle, wherein the game went twelve five times.

Helen Drops First Games.  
Miss Contoslavos caused a momentary panic among Miss Wills' admirers by taking the lead, 2-0, in the first set. The Greek girl beat Helen's service the first game after the champion led 40-0, and then added the second game on her own serve by continuing to attack Miss Wills' weakest point—her overhead game, which was woefully weak. It was the second tournament in succession she has won in her Riviera invasion.

Allister McCormick of Chicago and Miss Emily Petchel of England met defeat in the mixed doubles final at the hands of Henri Cochet and Mlle. Didi Vlasto, 6-2, 6-2. McCormick's game was far from the heights he reached yesterday.

### HELEN CRUSHES GREEK STAR IN CANNES' FINAL

Allister McCormick Team Beaten in Doubles.

BY DON SKENE.  
[Chicago Tribune Press Service.]  
CANNES, France, Feb. 1.—Helen Wills added another silver cup to her big collection of tennis trophies this morning by beating Miss Helen Contoslavos, young Greek star, 6-3, 6-2, in the finals of the women's singles of the Gallia tournament. Helen played fine tennis, with the exception of her overhead game, which was woefully weak. It was the second tournament in succession she has won in her Riviera invasion.

Allister McCormick of Chicago and Miss Emily Petchel of England met defeat in the mixed doubles final at the hands of Henri Cochet and Mlle. Didi Vlasto, 6-2, 6-2. McCormick's game was far from the heights he reached yesterday.

### TRADED IN AMERICAN LEAGUE DEAL

JOHNNY TOBIN.

BULLET JOE BUSH.

TOM ZACHARY.

BY WESTBROOK PEGLER.  
[Chicago Tribune Press Service.]  
New York, Feb. 1.—[Special.]—The best digestion of baseball will meet here tomorrow night in the final and championship round of the national banqueting tournament under the auspices of the Baseball Writers' association.

"What else did you intend to say in your speech?" this correspondent asked "Doc" Kohn.

"I don't know," said the indignant president of the writers' union. "That was as far as they'd let me go."

As an added attraction at the National league banquet, Garry Herrmann of the Cincinnati Reds will eat an exhibition fathom of Weinerwurst against time.

Mayor Walker Ruled Pro.  
The banqueting season this year has been unusually lively. There have been as many as four sporting banquets in a week and the competition has been very close, at banquets being lured by the capital prize, consisting of a year's tuition to one of the best hospitals. Jimmy Walker, mayor of New York, would win the championship without competition if he were eligible for the baseball writers' banquet.

Only one mishap has occurred, strenuous though the dining has been, and that one happily turned out to be a minor one. One of the most distinguished baseball men while running through the entries at one of the early season banquets reached for the salt and, in so doing, shook his spectacles off his nose. They fell in the gravy and when he put them on again he could not see through them.

"Merciful goodness," exclaimed the noted gentleman, swooning with alarm as he pushed his glass away from him. "Wood alcohol! I'm blind!"

Harry K. Knapp, Widely Known Turfman, Dies  
New York, Feb. 1.—[Special.]—Harry K. Knapp, widely known New York turfman, prominent in the financial, social and jockey club life of the metropolis and a mainstay of the turf in this country, died Sunday night after a protracted illness. He raced almost exclusively horses that he had bred himself.

## MEYERS VICTOR OVER BYLUND IN 3 FALL MAT BOUT

Champion Pins Gopher  
Grappler Twice.

Johnny Meyers, world's middle-weight champion, demonstrated his mastery over Bobby Bylund of Minneapolis by winning two out of three falls from the Gopher grappler in the windup of the mat show at the Broadway armory last night.

The title holder won the first fall in 47:30 with a head scissors and double wrist lock and the third in 5:10 with a body scissors and wrist lock. Bylund took the second fall in 11:20 with a series of head locks, although it looked as if Johnny was not trying to avoid the locks at times.

### Meyers Takes Things Easy.

Meyers had all the best of the grappling in the two falls he won, and might have ended the contest in straight falls had he tried a little harder. While Meyers may have been in distress as a result of headlocks, he made feeble efforts to pin his man, who was on the offensive during most of the fall.

In the semi-windup, Lou Tabalar and Tony Hadjick wrestled 30:00 to a draw. Tabalar showed his usual cleverness, but Hadjick's great strength enabled him to worm out of dangerous positions.

### Parelli Pins Spierling.

In the opening bout Lee Humbles won from Johnny Carlin with a cross body lock in 24:45, and Joe Parelli defeated Jack Spierling in the preliminary with a head scissors and wristlock in 16:49.

### CALZA PINS LINOW

George Calza pinned Jack Linow in the windup of the mat show at Ashland Boulevard auditorium last night. The time was 67:35. Calza won with a reverse hammerlock and when Linow hit the mat his right shoulder was dislocated.

### Zhyzsko, London Draw.

In the semi-windup, Whaladek Zhyzsko and Jim London went 35 minutes to a draw. John Freiberg defeated John Bowers in 20:25 with a toe hold and Jim Browning beat George Hills in 28:54 with a head scissors.

### A. A. U. TO PROBE RULE VIOLATIONS

Sweeping investigation to determine whether Chicago amateur basketball teams have violated amateur rules will be made by a committee appointed last night at a joint meeting of the basketball and registration committees of the Central A. A. U., which held a hearing on professional charges made against five Chicago teams.

The investigating committee, which comprises the five members of the registration committee, was ordered to make a report Feb. 20. In the meantime the teams under fire are given a clean slate and the right to play as amateurs. The St. Phillips A. C. and Indian Clavers, who previously had been declared professional, are restored temporarily to their amateur standing. The other three teams are Capper and Capper, Kenosha, and Park Ridge.

Bigger meals—better digestion

The Buyer had been at lunch with this Salesman many times before.  
"This lunch will cost you more today, Bill," he said to his visitor.  
"How is that?" the other smiled.  
"Well, I've found a way to fix that old indigestion of mine—by eating Life Saver Pep-o-mints. They've certainly helped me a lot."

Indigestion is a miserable thing. So many people suffer this way. If they only knew that simple old method our grandfathers used—peppermint.  
And now it is available in a new and really convenient form—Pep-o-mint Life Savers; the little candy mints with the hole.

It sounds very simple and old-fashioned. But Pep-o-mint Life Savers really do the trick. Try them after meals when that heavy, lousy feeling comes over you—or to relieve that irritating distress of indigestion. Pep-o-mint is displayed at all good stores so you may help yourself; also Wint-o-green, Cinnamon, Lic-o-ri, Cl-o-ve and Vi-o-let. Five cents a package—Life Savers, Inc., Port Chester, N. Y.

As an aid to digestion

### CATHOLIC LEAGUE

R. Ignatius, leading the pony campaign and tied with St. Mel and Loyola in the heavyweight race of the Catholic league draws St. Mel as its opponent in what promises to be the first round feature affair next Friday.

HEAVYWEIGHT	W L
R. Ignatius	0 0
St. Mel	0 0
St. Patrick	0 0
St. Rita	0 0
St. Rita	0 0

LIGHTWEIGHT	W L
R. Ignatius	0 0
St. Mel	0 0
St. Patrick	0 0
St. Rita	0 0
St. Rita	0 0

De La Salle boys and bantams won two more Catholic league games yesterday, taking the measure of St. Rita at the losers' gym. The boys came out on top, 17 to 6, and the bantams coped, 14 to 8. Bantamweight lineup:

DE LA SALLE (17)	ST. RITA (6)
De La Salle	St. Rita
De La Salle	St. Rita
De La Salle	St. Rita
De La Salle	St. Rita

De La Salle academy bantams and flyweights were victorious in their Catholic league title with St. Rita's boys on the De Paul floor yesterday. The bantams won, 13 to 11, and took second place in the league standings, while the flyweights trounced the St. Rita's boys, 17 to 4, and moved up to fourth position in the standings.

### Arrest Two on Charge of Swindling Boxing Fans

Two arrests were made yesterday of men caught soliciting funds for the Chicago Boxing Boosters association. President John Tyrrell asserted last night that no one is authorized to solicit funds for the association. The bills of the association are paid by the treasurer and no funds are solicited outside of the organization.

### De Paul Cagers Play De Kalb Normal Tonight

De Paul basketball team will play De Kalb Normal at De Kalb, Ill., tonight.

## MOTOR EFFICIENCY

from now until May assured by a

## WINTERFRONT

**PINES AUTOMATIC RADIATOR SHUTTER**

Nothing to remember  
Nothing you can forget

In hot weather cooling is what your motor needs, while in cold weather warmth is the essential thing. When summer wanes if you cover the front of your radiator, overheating will soon burn up your motor.

What you need is to have the front of your radiator covered only until your motor is hot, and after that just enough air let in to keep the motor hot without overheating.

What you need is to have the front of your radiator covered only until your motor is hot, and after that just enough air let in to keep the motor hot without overheating.

## Dean to Direct Indoor Track Title Meet

At a recent meeting of a joint committee from the I. A. C. and C. A. A., which will conduct the National A. U. Indoor track and field championships at the Chicago Riding club March 6, Charles A. Dean, chairman of the Tri-Color club athletic committee, was elected general manager and director of the meet.

Since his appointment Dean is going ahead with plans to make this set of games among the most successful ever held in the city. Entry blanks have been sent to the leading universities, colleges, and athletic clubs of the country. The standard list of championship events will be held and the nominating lists will close Feb. 27 with Director Dean at 113 South Michigan avenue.

A track nine laps to the mile will be installed, while the straightaway will easily permit of a sixty yard dash and seventy yards high hurdles. The track will be made of boards with banked turns, and a wooden floor will be laid for the dash and hurdles.

Director Dean is hopeful of receiving an entry which will be representative of the entire country's amateur track and field world.

## EDGEWATER GOLF HEAD DENIES PLAN TO SELL HOLDINGS

"A real estate salesman's idea of heaven is a sale every day and a commission both ways," the above is credited for the moment to Judge Denis E. Sullivan, who when he is not dispensing judicial wisdom from the bench of the Superior court, is occupied with the duties and pleasures of his home life, is president of the Edgewater Golf club, one of the oldest and certainly the closest to town of our links. Judge Sullivan made the remark at a luncheon yesterday.

"That is the truth about real estate salesmen and they have thought for months that Edgewater was one of the brightest spots in Chicago," the judge said. "The officers of the club would like to announce once and for all that the club and its property will not be sold. We are going to hold Edgewater as a golf club indefinitely. How long that means, I cannot say, but the real estate agents are hereby warned to keep off."

### Jackson Signs, Ready for Giants' Training Trip

New York, Feb. 1.—(AP)—Travis Jackson, New York Giants shortstop, returned his signed contract today with the announcement that his injured knee is mending and that he will be ready for the spring training trip.

### BASKET SCORING.

A axiom of modern football, especially since the effectiveness of the forward pass, is that "a strong offense is the best defense." The theory is that if you score more often than your opponent you win, which, of course, is true. There is always the possibility, however, that the other fellow may prevent your scoring.

We have the contrary of this axiom presented by our two local colleges, Chicago and Northwestern, in the Big Ten basketball race. Chicago, whose really promising aggregation last year was a distinct disappointment, began this season with "nothing" but a prayer, as sporting parlance has it. Yet the comparatively green Maroons have won three of their six games to date, each victory a distinct surprise and upset of the dope. How? Not by scoring, for Chicago has the fewest average points per game in the league, but by guarding—by keeping the other fellow from counting. Fewer points per game have been registered

against the Maroons than against any of their rivals. Then look at Northwestern. It had four veterans and needed a center. Fisher was found for center and is one of the most valuable men on the squad. The Purple has averaged 32 points per game. Only Indiana with 32.5 surpasses. Yet Northwestern has won one of five games. Why? Its opponents have averaged 33 points per game.

The Wake doesn't ask you to be convinced, for Wisconsin, Purdue, and Indiana are fast scoring fives, and Northwestern certainly should win more than one of five games on what it has counted, but it's worth thinking about. Obviously a close guarding and fast scoring squad is the ideal combination, but they seldom come that way. When they do, they're champions.

**Song of Previous Things.**  
Her lips—like bits of coral;  
Her eyes—gold flecked sardonyx;  
Each lock of hair, marcelled with care,  
Is midnight-black as eyns;  
Her smile—like a cameo;  
Her skin of ivory hue;  
I love this maid, yet I'm afraid  
Her head is ivory, too.  
Rock of Highland Park.

### They're Usually Called Boobs.

Dear Wake: These "amateur standing" rules have me all upset, especially the one about playing with professionals makes one a professional. Now, if I bet on a horse race and win I am not a professional. On the other hand, if I lose a bet on a horse what does that make me? Cal A. Senica.

This Wake is  
Harvey T. Woodruff.

**Another Recruit.**  
May I enter a new member to your already long list of Helpers? On the way over to Catalina island saw a whale passing astern of us. He was in the wake.  
J. M. N.

### Suzanne and Helen.

Dear Harvey: Now I know what Suzanne feels like over the prospect of a match with Helen. I have a final in math tomorrow, and no doctor to advise me to preserve my health.

The Ten Thousandth Illini.  
It would hardly be apropos to explain Allister McCormick's success in the mixed doubles against Helen Willis by commenting that he has had previous experience in courting.

**Old Theme in New Casing.**  
Lunching out at the yards, three of us remarked simultaneously: "So tomorrow (Tuesday) is 'Pork Sausage day'."  
C. W. N.

**Dumbbell Pomes.**  
She's a slave to each new wrinkle  
Of the changing style, I vow;  
And that explains the wrinkles  
On her slaving hubby's brow.  
Bobette W.

## Bob Journeys to Land Where Ducks Reign

BY BOB BECKER.

Bayou East, Southern Louisiana, Feb. 1.—(Special.)—After many a chilly mile in a gabat threading our way through crooked, twisting bayous and man made canals, we finally have come to the domain of the ducks. A vast sweep of marsh in which millions of waterfowl are spending the winter. Just a few miles away from our temporary camp is the first of a number of wild life refuges for which Louisiana is famous. On one side is the gulf of Mexico rolling up white crested breakers on a white, dazzling, smooth, sandy beach. To the north is the great "aquatic prairie," mile after mile of low lying marsh in which the herons, geese, ducks, and other birds that like the water have settled down for the night.

We are literally surrounded by waterfowl. Their numbers are uncounted, of course, and a single trip through the marsh shows a vast but a fraction of the entire winter bird colony. The marsh is too extensive, too vast an area, and in many places there are no waterways on which a boat can be run. During the last hour before sunset we stood on top of our little boat to watch the marsh through binoculars. As far as we could see there were flying, wheeling masses of ducks.

With the coming of night these carefully protected bird guests are no longer flying but they're still talking as if each bird were trying to get the floor and drown out the other. Waterfowl! We didn't dream there were so many still sprouting feathers. Yet, our friend Corbiers, the conservation agent with us, says that we haven't seen anything and admonishes us to wait until the morning for the real show.

## Kansas to Hold First Baby Chick Show in America

BY FRANK RIDGWAY.

Kansas poultrymen are planning to hold what is believed to be the first baby chick show ever held in America. It's a good idea and one that might be worth trying out here in the lake states where the baby chick industry is developing so rapidly.

The Sunflower state show is to be a combination exhibit of both baby chicks and eggs at the Kansas State Agricultural college, Manhattan, Kas., on April 13, 16, and 17. It is sponsored by the school and handled by students. A baby chick show like this one, which is open to students, poultry raisers, commercial hatchery men, and produce houses, puts in a practical test the poultry man's ability to produce chicks that are strong enough to be shipped. One of the main objects of the show will be to give credit to hatchery men who can ship their baby chicks and have them arrive in good condition. Chicks entered in the contest must not have been fed. In other words, they must be no more than 72 hours old when entered in the contest.

The college poultry department will not enter exhibits. With the school's stock representatives eliminated, the entry list is expected to be unusually large at the first baby chick show. Prof. H. H. Steup, in charge of the student club, the exhibition of baby chicks is expected to play a prominent part in the poultry business in a few years.

### Big Ten Grid Officials to Be Selected Feb. 13

Announcement was made yesterday by Maj. John L. Griffith, Big Ten athletic commissioner, that officials for western conference football games will be named at a meeting here Feb. 13.

There's a little bit of MURAD in nearly every cigarette - but only a MURAD is ALL MURAD

Almost every great drama staged today reflects the influence of David Belasco.

One play may have scenic effects reminiscent of Belasco's artistry. Another, touches of realism such as Belasco invariably incorporates. A third, a cast that mirrors life truly as Belasco's characters ever do.

Yet only Belasco presents a production that is utterly Belasco to the very last gesture.

There are many good cigarettes, too, that faintly recall the charm of a MURAD.

One may have a wisp of MURAD's winsome fragrance; another, a trace of MURAD's captivating flavor; still another, a hint of MURAD's kindly coolness.

For most cigarettes contain some Turkish tobacco, and it is to this mild and aromatic leaf that their resemblance to a MURAD is due.

But a MURAD is all Turkish and the very finest Turkish grown.

So only a MURAD is all MURAD... only a MURAD is all charm.

# MURAD

The TURKISH Cigarette

There's a little bit of BELASCO in nearly every great theatrical producer, but only BELASCO is ALL BELASCO

All Turkish means All Charm

# Hupmobile

*sells \$1,000,000 worth of cars and increases its sales 123% in The Chicago Territory by using larger space in The Chicago Tribune*

The Chicago Tribune  
Chicago, Ill.

Dear Sir: Attention: Mr. Benham

You will be interested in knowing that the volume of business of our company for the last sixty days of 1925 amounted to \$1,000,000. This is an increase of more than 100% over our previous year in November and December 1924.

Considering the fact that November and December are the two light months in the year in the automobile business, this increase of 100% over 1924 is worth noting.

We attribute this large gain in sales in 1925 over the year 1924 to the fact that in the latter year we took more adequate means of displaying the solid merits of the Hupmobile to the public through larger sized ads in The Chicago Tribune. During November and December we ran five full pages in The Tribune, changing our advertising policy from comparatively small space to large, dominant full-page ads.

Yours very truly,  
GAMBILL MOTOR CO., Inc.,

*W. H. Gambill*  
President

WHEN a manufacturer finds a way to eliminate seasonal slumps in sales, he is increasing his profits. Hupmobile did this in The Chicago Territory.

Hupmobile has been a consistent advertiser in The Chicago Territory and in The Chicago Tribune. The Gambill Motor Company, Chicago distributors, have had a fine record of sales. Many companies would have been satisfied.

November and December have always been light months. Instead of cutting down on their advertising, however, Hupmobile decided to increase it, using full pages in The Chicago Tribune. Formerly Hupmobile had used smaller copy—the ads running mostly 600 to 800 lines.

Results were immediate. The increase over the same two months of the previous year was 123%. Two full pages and a half page were carried in The Tribune in November. Three full pages ran in December. Note the increase in business over the previous November and December done by The Chicago distributor:

Nov. 1924	\$191,654
Nov. 1925	488,264
Increase	\$296,610

Dec. 1924	\$296,164
Dec. 1925	603,605
Increase	\$307,441
Total Nov. and Dec., 1924	\$ 487,819
Total Nov. and Dec., 1925	1,091,869
Increase	\$ 604,050
Percentage of Increase	123%

Hupmobile uses The Tribune as the backbone of its advertising campaign in The Chicago Territory. Experience has shown automobile advertisers that Tribune advertising sells cars. Tribune influence extends to the five states of Illinois, Indiana, Iowa, Michigan and Wisconsin. In 1151 towns The Tribune reaches from 20% to 90% of the families.

In 1925 The Tribune carried more than twice as much automobile advertising as its nearest competitor. The Sunday Tribune in a single issue carried more automobile advertising than any Chicago evening paper carried in six issues. The reason for this preference is proven results.

A Tribune man will be glad to talk over with you methods of increasing your sales in The Chicago Territory.

## Valentino in Town; He's Free; On Way to Play "Sheik's Son"

(Picture on back page.)

Rudolph Valentino, looking like a pretty good picture of himself, spent two hours at the Blackstone hotel yesterday en route from a Paris divorce that actually took place and a French court that almost took place, to Hollywood, a new film, and the life of a dog.

Centaur, an Irish wolfhound, large and expensive, and faithful, was so persistent a companion yesterday of the motion picture actor that she made Mary's little lamb look like a second rate pal. As a reward, however, Centaur who, by the way was the gift of a woman, Mrs. Glenn Stewart, heard Rudy, again and again, shout her praises over those of a mere woman. For women, Mr. Guggenheim has discovered, are so fickle. And dogs are so steadfast.

As for the rest, here's a cross section of Valentino's reactions to some of yesterday's queries.

That far-flung talk of a duel with Baron Imre Lukatz, who objected to Valentino's love-making, love-making with Vilma Banky, was just talk. Indeed it was not. He could have fought a right smart adequate duel, and would have, too, if the Budapest baron hadn't been of the opinion that Vilma's a splendid actress. He doesn't love her. As a matter of fact, perhaps a brunette would be a better leading lady the next time.

The old time decision never to play a sheik role? It's a thing of the past. His new picture, on which he is soon to start work, is called "The Son of the Sheik."

Silhouette sideburns? Not nearly so pronounced as costly cable messages have warned.

Rudy made quite a holiday out of that divorce trip. He met beautiful women; he supped delightful mixtures; he stepped intricate Charleston, and now, of course, he's going back to Hollywood to work and to admire his dogs.

## NEW YORK SOCIETY

New York, Feb. 1.—[Special].—Mr. and Mrs. John Vernon Bouvier of 521 Park avenue and Easthampton, made formal announcement today of the engagement of their daughter, Michelle, to Henry Clarkson Scott of this city and St. Louis. The bride elect attended the Episcopate school for several years and later studied at Farmington. Mr. Scott is the son of Mr. and Mrs. W. Samuel Scott of St. Louis, and was graduated from Yale last June.

Miss Marion M. Wilson, who is leaving for Wilson plantation at Pritchardville, S. C., gave a farewell dinner at the Embassy club.

Mr. and Mrs. F. H. McKnight of London are at the Vanderbilt for an indefinite stay.

Mrs. Henry Rogers Mallory, who has been at the Plaza several months, has gone to Nassau. She will go from there to Honolulu by way of Panama and return to the Plaza next July.

## Bright Sayings of the Children

At the funeral of her grandfather, little 3-year-old Lois observed her grandmother wiping her eyes with a black bordered mourning handkerchief. Turning to her mother, Lois asked: "Please, mother, give me a crying handkerchief, too."

I had gone to the garage and had driven the car around to the front of our house before I went in to get my wraps. When I came out to go away for a drive there sat Billy, my small next door neighbor, on the curbstone all wrapped up in his winter coat. He said: "I was get all ready so if you asked me, 'Will you go, too, Billy?' I wouldn't keep you waiting."

Native lambs, culls, 11.75@11.85.  
Feeding lambs, fair to best, 14.00@14.10.

**COMPARATIVE PRICES.**  
HOGS—Bulk of sales yesterday, 12.15@12.40.  
One month ago, 11.80@11.90.  
One year ago, 10.10@10.20.  
CATTLE—Bulk of beef steers, 8.00@8.10.  
Yesterday, 8.25@8.35.  
One month ago, 8.25@8.35.  
One year ago, 7.50@7.60.  
SHEEP—Western meat lambs, 12.75@12.85.  
Yesterday, 12.75@12.85.  
One month ago, 12.50@12.60.  
One year ago, 11.75@11.85.

Second largest hog receipts yesterday since last November added weakness to general trade but the total at 64,000 was 37,000 smaller than corresponding Monday a year ago when arrivals at 101,087 were second largest on record. Underweights were plentiful and this class closed 5¢ lower, while heavier weights showing quality closed strong, due to active buying on packing accounts. Top light sold at \$12.70, with day's average at \$12.75, against \$12.40 previous Monday, \$10.55 a year ago and \$7.20 two years ago. At the close 13,000 remained in the pens, few of them in first hands. Speculators purchased freely.

Last week's advances in cattle prices attracted too many steers and a big share of the gain was erased in yesterday's reaction. Arrivals at 26,000 were second largest of the year and 6,000 greater than on the previous Monday. Strictly prime steers and fancy yearlings were scarce and on par with the close of last week, while others slumped 1¢. Top at \$11.25 was paid for head lots of 12,000@15,000 lb steers, best yearlings

on sale averaging 595 lbs., at \$11.00. Better grades of butcher stock ruled weak to unsteady lower. Canners and cutters were unchanged. Bulls sold steady. Calves slumped \$1.00. Butchers and feeders declined 10¢ in a slow deal.

**LAMBS.** Lambs were on the toboggan again yesterday and declined 25¢, best to shippers and city butchers bringing \$15.00, equal to the lowest top in over four months. Packers refused to pay above \$14.85, taking bulk of good kinds at \$14.25@14.75. Freshly shorn lambs brought \$12.80. Yearlings shared in the break, good light weights to shippers selling at \$11.25. Prime 90 lb averages reached \$13.00. Bulk of shearing lambs tumbled again and sold at \$14.25@14.75, a load of 64 lb averages, at \$15.10, no criticism. Matured sheep showed little change, with medium weight ewes bringing \$9.00.

Actual receipts in January at Chicago stockyards totaled 254,438 or 27,779 fewer than a year ago. Hogs decreased 470,523, totaling 209,653, and sheep, at 354,543, gained 49,831 over a year ago.

Receipts at Chicago for today are estimated at 12,400 cattle, 28,000 hogs, and 14,000 sheep, against 4,745 cattle, 23,636 hogs, and 29,278 sheep, the corresponding Tuesday a year ago.

**YESTERDAY'S HOG PURCHASES.**  
Hog purchases yesterday by Chicago packers, including "directs" follow:  
Armour & Co., 3,000 Miller & Hunt, 1,800 Swift & Co., 3,000 Independent P. Co., 800 Hammond Co., 3,000 Armour P. Co., 1,200 Morris & Co., 4,500 Others, 2,500 Wilson & Co., 2,500 Shippers, 15,000 Boyd-Lambert, 2,500 Western P. Co., 1,000 Total, 49,400 Roberts & Co., 700 Left over, 15,900.

**MEAT MARKETS.**  
NEW YORK, Feb. 1.—(AP)—COPPER—Steady. Electrolytic, spot and futures, 14c. TIN—Firm; spot and nearby, \$62.00; futures, \$61.50. ### COTTON MARKETS

Cotton interests on the whole are indifferent to prevailing conditions and trading is light in all markets. Buyers of cotton good expect lower prices and are not taking hold to any extent.

Light certified stocks tend to check selling pressure, yet there was a rush to cover sales and a lower range of values. Better sales were at mid prices of 2 to 3 points in Chicago, and 4 to 6 points in other markets, except the distant deliveries in the latter market which added 1 to 2 points. Good in New York lost 15 points to 20.50, and New Orleans was unchanged at 20.10c.

Prices in leading markets follow:

**CHICAGO MARKET.**  
Months, High, Low, Close, Open, Year.

## HEAVY SELLING BRINGS DECLINE IN WHEAT MART

BY CHARLES MICHAELS.

Heavy local profit taking, and a disappointingly small decrease in the domestic visible supply caused a break of 1 1/2¢ from the early high point in the wheat market.

May, after selling at \$1.78 1/2, dropped to \$1.75 1/2, and closed at the bottom. July was \$1.53 @ \$1.52 1/2 and September \$1.44 1/2 at the last.

Net losses for the day were 1/2¢. Corn closed 1/2¢ lower, with May 1 1/2¢ and July 1 1/2¢, while oats were 1/2¢ lower, with May 4 1/2¢ and July 4 1/2¢. Rye finished 1/2¢ lower to 1/2¢ higher, the former on May, which was \$1.09 at the last and July \$1.08 1/2.

Sell Liberally on Bulgies.

House with eastern connections were persistent buyers of wheat futures early, which the trade credited in part to a leading New York trader, but there was a noticeable change in sentiment in some quarters, and all bulgies brought in liberal selling, with some of the local bulgies going out of their lines.

Reports that resellers were offering wheat abroad at 20¢ below a replacement basis had considerable effect on sentiment, and the seaboard claimed there was no demand of consequence from Europe, although there were persistent reports of around 1,000,000 bu. Manitoba sold at Vancouver to England on Saturday.

Visible Decreases Slowly.

A mixup in a report on Buffalo wheat stocks led the trade to look for a decrease of around 2,000,000 bu. in the visible supply, but the actual reduction at all points was only 84,000 bu. As soon as the statement was issued the market eased quickly. Cash wheat basis in the southwest was easier, with the basis as much as 2¢ lower at Kansas City, and messages from the southwest indicated that there would be considerable increase in the movement in the immediate future. World's exports of wheat, which were about as expected, but included 8,000,000 bu. to non-European countries.

Foreign markets were firm, with Liverpool 1/2¢ higher at the last, while Buenos Aires advanced 1/2¢ and March at \$1.54 1/2 and March at \$1.54 1/2. Winnipeg was strong throughout the day, with Chicago houses good buyers of July at times, and the finish was 1/2¢ lower to 1/2¢ higher, with July showing the most strength.

Corn Closes at Bottom.

While trade in corn largely was of a local character the undertone was heavy the greater part of the day, and the finish was at the bottom. Warm weather was unfavorable for handling cash grain and the basis on No. 2 and sample grades declined 2/3¢, as compared with May. Country offerings to arrive were fair with purchases of 20,000 bu. to arrive. An increase of

### GRAIN STATISTICS

United States visible supply of wheat decreased 844,000 bu. last week and oats 569,000 bu. Corn increased 1,601,000 bu. to 90,000 bu. and barley 88,000 bu. Details follow:

	This week.	Last week.	Last year.
Wheat	45,235,000	46,079,000	77,504,000
Corn	28,022,000	28,431,000	26,571,000
Oats	63,076,000	63,063,000	73,570,000
Rye	13,564,000	13,474,000	23,477,000
Barley	6,032,000	6,064,000	3,028,000

Wheat stocks in all positions in Chicago increased 58,000 bu. last week and corn 1,145,000 bu. and oats 18,000 bu. Details follow: Last three crops omitted except in the totals:

	This week.	Last week.	Last year.
Wheat	5,404,932	5,414,514	12,040,000
Corn	2,924,129	2,823,000	22,079,000
Oats	5,509,465	5,180,000	2,277,000
Rye	505,508	508,000	242,000
Barley	58,000	bu. and 98,000 bu. barley	1,803,000

Contract stocks of wheat in public elevators in Chicago decreased 30,000 bu. last week, while corn increased 435,000 bu. Last week includes No. 4 grades. Details follow:

	This week.	Last week.	Last year.
Wheat	332,000	362,000	2,116,000
Corn	20,771,000	21,360,000	13,934,000
Oats	5,540,000	5,430,000	6,430,000
Rye	3,912,000	3,912,000	6,651,000
Barley	5,608,000	6,025,000	6,037,000

World's shipments of wheat were about as expected, decreasing 66,000 bu. from the previous week. Details follow:

	This week.	Last week.	Last year.
Wheat	34,702,000	35,738,000	55,888,000
Corn	20,771,000	21,360,000	13,934,000
Oats	5,540,000	5,430,000	6,430,000
Rye	3,912,000	3,912,000	6,651,000
Barley	5,608,000	6,025,000	6,037,000

Supplies of wheat on ocean passages increased 2,056,000 bu. last week. Details follow:

	This week.	Last week.	Last year.
Wheat	34,702,000	35,738,000	55,888,000
Corn	20,771,000	21,360,000	13,934,000
Oats	5,540,000	5,430,000	6,430,000
Rye	3,912,000	3,912,000	6,651,000
Barley	5,608,000	6,025,000	6,037,000

1,651,000 bu. raised the total to 23,092,000 bu. compared with 26,571,000 bu. last year.

House with eastern connections were on the selling side of oats and the undertone was easy with a range of 1/2¢ for the day. Local longs sold May. Profit taking developed in rye, and while there was investment buying on the dips, the finish was easy in sympathy with wheat.

Flax seed in Buenos Aires closed unchanged to 1/2¢ lower, with February \$1.65 1/2 and March \$1.65.

Lard Prices Lower;

Stocks Are Increased

Lard stocks in Chicago increased 10,942,000 lbs. in January and are 17,062,000 lbs. against 49,748,000 lbs. last year. Total stocks of meats increased nearly 8,000,000 lbs. and are almost 30,000,000 lbs. under last year. Hog receipts were heavy and prices 10¢ lower. Selling by packers in anticipation of a heavy market, and moderate cash demand for all products. Lard future closed 5/8¢ lower; short ribs, 2 1/2¢ higher, and bellies unchanged. Exports of lard for the week were larger and of bacon smaller than last year. Prices follow:

COTTONSEED OIL.

NEW YORK, Feb. 1.—(AP)—COTTONSEED OIL—Closed 5 to 13 points net lower. Prime crude, 9.50¢; 75¢; prime summer yellow spot, 11.00¢; March, 11.04¢; May, 11.10¢; July, 11.25¢; September, 11.42¢.

## WORLD'S GRAIN MARKET NEWS

One of the largest of the local professionals said at the close yesterday that the selling was of such character it showed a disposition to see how much wheat local traders could sell after prices had turned down. He regarded the majority of the local longs as cut and most of the traders short. He construed the technical situation as bearish.

Frank L. Carey, former president of the Chicago Board of Trade, has gone to Florida for two months.

It was said that unless there is more buying put into the wheat market there will be a break. One trader called attention to the selling of wheat that has appeared of late when Chicago gets to over Minneapolis and 10¢ over Winnipeg. Cash premiums southwest have declined of late and the demand for cash wheat is not such as seen by this cash operator as to make a bullish situation.

Wheat traders have it that a large eastern operator who was recently short many million bushels of wheat has turned to the long side after covering his line and taken on nearly as much on the long side.

Despite all the bullish talk at the close yesterday, one of the largest local operators said he regarded the situation as stilling on the edge of a volcano which was likely to erupt any day. He believes that foreigners will buy more wheat from now on and carry prices higher. Supplies are so closely adjusted to the demand, as he sees it, that higher prices are inevitable before another crop is raised. He regards Winnipeg wheat as the cheapest and likely to advance on export buying. Pools are doing the export business, he says, and it is hard to get a line on it.

NEW YORK.—Prices in the local and Calcutta burlap markets were reported firmer today by business men.

NEW YORK.—A heavy silver fox collection was featured today when the New York Auction company continued its fur sale. In some quarters the belief prevailed that prices were quite high. Prices were considered 5 to 10 per cent easier than at the start. Average quality silver skins were the principal offerings.

ROBIN AND TURPENTINE.

SAVANNAH, Ga., Feb. 1.—(AP)—TURPENTINE—Firm. 30¢; sales receipts, 68; shipments, 254; stocks, 15,000. ROSIN—Firm; sales, 481; receipts, 548; shipments, 2,800; stock, 71,854. NEW YORK.—The new month opened in the local gray goods market in much the same condition as the old month had closed. Business was quiet and prices unchanged.

BOSTON.—A waiting mood predominated the local wool market today. The opening of the heavyweight goods season by the American Woolen company was awaited with anticipation. Heavyweight prices showed a decline of slightly more than 11 per cent.

NEW YORK.—Prices in the local and Calcutta burlap markets were reported firmer today by business men.

NEW YORK.—A heavy silver fox collection was featured today when the New York Auction company continued its fur sale. In some quarters the belief prevailed that prices were quite high. Prices were considered 5 to 10 per cent easier than at the start. Average quality silver skins were the principal offerings.

## LEECH DISCUSSES SELLING SCHEMES OF GOVERNMENTS

BY HARPER LEECH.

Whatever may be the outcome of the various proposals for government control of American agriculture exports, one thing is sure. International trade in food stuffs is coming more and more under government control. Every American breakfast is affected by Brazilian coffee control. Australia, fresh from a year of resounding prosperity, despite the persistent flouting by that rich and prodigal young commonwealth of all the sacred canons of economics, goes ever further on the road of national salesmanship.

A dairy produce export control board controls the handling, export, and marketing of Australian butter, cheese, and other products of animal husbandry.

Australia didn't start it. Australia some of Denmark's methods, which were taken up by New Zealand. Another legally established body controls the Australian export of dried fruits. South Africa is following this precedent. It's all very interesting to the organized rain growers of California, who have employed the most advanced modes of cooperation in sales and have carried their trade quest to the very gates of Italian vineyards.

An Australian meat council—not as yet exercising so many governmental powers as the dairy and dried fruits controls, is nevertheless clothed by law with powers which affect every corn belt or Argentine fattener.

Of course, there is this vital difference between the Australian, New Zealand, South African, Danish, and Brazilian efforts to control agricultural exports and the proposals advocated here. For all those countries the foreign markets are the big markets and the big idea of control is to get better prices from the foreigner. Our objective, if we go in for governmentally controlled exports, would be to raise the domestic price—exports to be considered as something to get rid of.

Rev. Malthus would find some funny things in this world if he could come to life. Inhabitants of countries where his law has worked and population has out-run the productivity of agriculture may become the beneficiaries of efforts to force food upon them below the cost of production.

Dailying with seductive deduction, one might spin some interesting dreams as to what the end will be, but, of course, things never happen in this world according to the laws of logic.

When one contemplates Australia and Denmark it certainly seems that capitalism is such a vigorous social system that it can stand a tremendous lot of socialism and survive—prosper, in fact. But look at Britain—lesser doses of the same remedies have made the patient pretty sick.

Here's one pretty good bet, however—no law that congress may enact to help the farmer is going to stop the momentum of American industrialism. Calamity howling is entirely premature.

NEW YORK, Feb. 1.—(AP)—Stock prices turned reactionary in today's curb market after an opening display of strength. Oil lost ground, Vacuum and Standard Oil of California (new) each losing over 1 point. There were a few exceptions. Reiter Foodstuffs jumped nearly 5 points to a new 1926 high at 57 1/2, and the Lugo issues advanced fractionally.

Special buying took place in several specialties new peak prices being attained by Vick's Chemical, American Crammed B. Congress Clear, Utah Apex Mining, Amalgamated Leather, and a few others. Foundation Company, Foreign; Canada Dry Ginger Ale, Land Company of Florida, and Sears, Roebuck were heavy. Net declines of 1 1/2¢ points were recorded by a number of public utilities, including American Light and Traction, Electric Bond and Share, Southwestern Power and Light preferred (new), United Gas Improvement, and United Light and Power.

Tighter money conditions imposed some restraint on bond trading, but failed to hamper United States or foreign government obligations, the strength of which gave the market a firm appearance. Profit taking succeeded the recent speculative operations in traction and oil company issues, but fresh buying developed for other public utilities, industrials, and rails.

Virtually all of the United States government bonds were sold at new peak prices. The United Kingdom 5 1/2 per cent issues rose to the highest levels of the year as did French 4 1/2 per cent issues. Losses of 1 1/2¢ points were recorded by Chesapeake and Ohio 5 1/2, Seaboard Adjustment 5 1/2, Sinclair Oil 5 1/2 and New York, Westchester and Boston 4 1/2. Southern Railway 6 1/2, New Haven convertible 6 1/2 and Erie general 6 1/2 were active in the rail group and other bonds which joined in the upward movement included New England Telephone 5 1/2, Bell Telephone of Pennsylvania 5 1/2, Virginia-Carolina 5 1/2, Eastern Cuba Sugar 7 1/2, South Porto Rico Sugar 7 1/2, Dole Packing 6 1/2, and Dominion Iron and Steel 5 1/2.

Foreign exchanges moved within narrow and irregular limits. Demand sterling ruled around \$4.80 1/2 and cables eased to \$4.80 1/2, after the opening display of strength. French francs were slightly lower, around 270¢. Repaired heaviness developed in Polish zlotys, which dropped 10 points to 13.90¢.

Trumbull Steel Settles Dispute with Stockholders

Cleveland, O., Feb. 1.—(AP)—Settlement of a stockholders' action against directors of the Trumbull Steel company, Warren, O., to which the Cleveland Cliffs Iron company was made a party defendant, was effected here late today.

Trumbull directors, according to the settlement, and the Cliffs company are to pay the Trumbull Steel company \$425,000. The Trumbull company is to resign to its defendant directors and the Cliffs company dividend warrants of the Trumbull Cliffs Furnace company, a corporation jointly promoted by the Trumbull Steel and the Cliffs companies.

The action was an outgrowth of difficulties encountered by the Trumbull Steel company, which were blamed on discrepancies in the account of its former president, Jonathan Warner. Warner has made restitution in the approximate sum of \$2,500,000.

Each share carries a detachable warrant entitling the holder to purchase 25 shares of Class A Common Stock for each \$100.00 note, at \$40.00 per share until January 1, 1928, thereafter at \$50.00 a share until January 1, 1930, and thereafter at \$60.00 per share until January 1, 1932.

Mr. H. E. Coyle, President, has summarized his letter to us as follows:

HISTORY: The business of The Greif Bros. Coopera Corporation, organized under the laws of Delaware, was established in 1877 at Cleveland, Ohio, where its main plant is still located. It is the dominant factor in the industry, has eight divisional offices and 216 manufacturing units throughout the United States and Canada and does an annual business of over \$9,000,000. The development of the business has been accomplished without any public financing, the major part of the earnings having been retained in the business.

BUSINESS: The Company is the leading manufacturer in the United States of "slack" or dry cooperaage, comprising wooden staves and headings, kegs and barrels, used in packing and shipping a diversified line of essential commodities, such as flour, salt, sugar, cocoa, meats, fish, apples, potatoes, glass-ware, pottery, lime, cement, hardware, bolts, nuts, wire, zinc, etc. Among the Company's customers are many of the largest manufacturers in their respective industries in the country.

PROPERTIES: The Company has its own timber tracts, logging equipment, saw mills, cooper shops and barrel factories, and is the most complete and self-contained unit in the industry. Plants for manufacturing staves and heads are located near the source of timber supplies in the States of Georgia, Alabama, Mississippi, Arkansas, Virginia and Michigan. Assembly plants and cooper shops, to which heads and staves are shipped in bulk, are favorably located in the consuming markets throughout the East and Middle West.

ASSETS: The certified consolidated balance sheet as of October 31, 1925, adjusted to give effect to this financing shows net tangible assets applicable to this stock of \$3,901,834 or over \$60.95 per share of Class A Common Stock. The Company has ample working capital, its current assets being \$3,100,536 against current liabilities of \$566,498, a ratio of approximately 5 1/

## Satisfaction

People who purchase the  
real estate bonds under-  
written by S. W. Straus &  
Co., "stay sold." They  
purchase them year after  
year, as these bonds ac-  
cumulate. More than this  
—the owners of these  
bonds constantly recom-  
mend them to friends  
who have funds to invest.

Unquestioned safety—  
diversification—  
and a gratifying interest  
rate of 6% or even more  
—these are the principal  
reasons why S. W. Straus  
& Co. bonds "stay sold."

MAINT OFFICE

37 Wall Street, New York

BY O. A. MATHER.

The second month of the new year

started yesterday with a budget of

cheerful news. An advance in crude

oil prices, encouraging reports on rail-

road earnings, expanding mail order

sales, and corporation mergers were

the most prominent items.

The long awaited advance in petro-

leum prices was ushered in by the Sin-

clair Crude Oil Purchasing company,

which marked up all grades of mid-

continent crude oil 15 cents a barrel.

Most of the other large petroleum

agencies and companies in the middle

west immediately followed suit. It was

the first change since Aug. 26, and the

prices broke to the high level of 1925. At

the same time, gasoline tank car let-

tings advanced half a cent a gallon along

the Atlantic seaboard.

Better Net Rail Earnings.

On the basis of reports from 77 class

1 railroads, the December net operat-

ing income for all the roads will be about

\$25,000,000, compared with \$26,838,227 in

December, 1924.

The current total indicated a year

of 5.24 per cent on a tentative basis of

valuation of \$20,000,000, compared

with 5.24 per cent on a valuation of \$19-

745,000,000 in 1924. December net op-

erating income was \$1,917,000, or 9.7

per cent; while gross revenues were

\$148,545,000, a gain of 4.9 per cent.

Last month's sales of Sears, Roebuck

& Co., largest of the mail order houses,

totalled \$2,599,905, an increase of 2.1 per

cent over January, 1925. Sales of Mont-

gomery Ward & Co., last month totalled

\$15,252,946, an increase of 2.5 per cent.

Sales of both concerns were considerably

below those of December, when the hol-

iday retail business was on.

Manhattan Oil Merger.

A \$20,000,000 middle west oil merger

was announced whereby the Manhattan

Oil company, a Delaware corporation,

becomes the holding company of the

companies of the same name in Iowa,

Kansas and Nebraska, and the Man-

hattan Pipe Line, Kansas City Refining

Pyramid Oil, Greenland City Refining

and Western Oil companies.

Another step in a big combination of

food products interests was taken when

the Postum Cereal company acquired

the Evansville, Ind. deal was

announced for \$1,000,000. The deal

represents the Postum company's ac-

quisition of its 50 per cent interest in

the Evansville Cereal company, which

owns a controlling interest in the

California Oregon Power company and

the Wisconsin Public Service cor-  
poration. The deal will be financed by  
a \$7,000,000 bond issue.

Concrete Consolidation.

Plans for the formation of the Na-

tional Concrete Products corporation as

a \$10,000,000 consolidation of plants

throughout the United States and Can-

ada, which now operate under separate

management, were announced in New

York. A merger of the Portland Cement

company with the Guttis Percha Rubber

and Manufacturing company, which

owns a controlling interest in the

California Oregon Power company and

the Wisconsin Public Service cor-  
poration. The deal will be financed by  
a \$7,000,000 bond issue.

# Judge Kersten Restored to Rights and to Seat on Circuit Court Bench—"The Miracle" Opens in City Tonight

**BIG SCENE IN "THE MIRACLE" IS REHEARSED.** Elinor Patterson, as the Nun, is shown kneeling at feet of the Madonna, played by Lady Diana Manners. (Story on page 35.)

**COURT RESTORES JUDGE KERSTEN TO RIGHTS.** County Judge Edmund K. Jarecki, who set aside insanity verdict, shaking hands with Judge George Kersten (right). (Underwood & Underwood Photo.) (Story on page 14.)

**CHURCH HEAD HERE.** Rt. Rev. John Gardner Murray, Episcopal presiding bishop, visits city. (Story on page 35.)

**SHOCKS CITY.** Blanche McGlone, Toledo, O., who drove auto in bathing suit in Washington. (Aene Photo.)

**GIVES UP AND OFFERS ALIBI IN STEIN DEATH.** Left to right: Capt. John Stege, Harry Pritzker, attorney, and Lou Smith, who was sought by police. (Tribune Photo.)

**VALENTINO, FREE, HERE WITH FAMILY ON WAY TO HOLLYWOOD.** Left to right: Alberto Guglielmi, Rudolph's brother; Mrs. Guglielmi, Centaur Pendragon, Rudolph's new dog; Rudolph Valentino and Jean Guglielmi, his nephew, at the Union station. (Tribune Photo.) (Story on page 36.)

**ASKS ACCOUNTING.** Mrs. John Ersch, sues husband, who is beauty shop partner. (D'Ors Photo.)

**READY FOR OPENING OF "THE MIRACLE" AT AUDITORIUM TONIGHT.** Left to right: Lady-Duff Cooper (Lady Diana Manners), Morris Gest, Iris Tree, daughter of Sir Herbert Beerbohm Tree, who alternates as the Nun, and Maria Bekefi at Central station. (Tribune Photo.) (Story on page 35.)

**EDITOR AND WIFE HERE TO AROUSE INTEREST IN SESQUICENTENNIAL.** George Horace Lorimer, editor of Saturday Evening Post, a former Chicagoan, and his wife, who are interested in celebration of nation's 150th birthday at Philadelphia. (Tribune Photo.) (Story on page 35.)

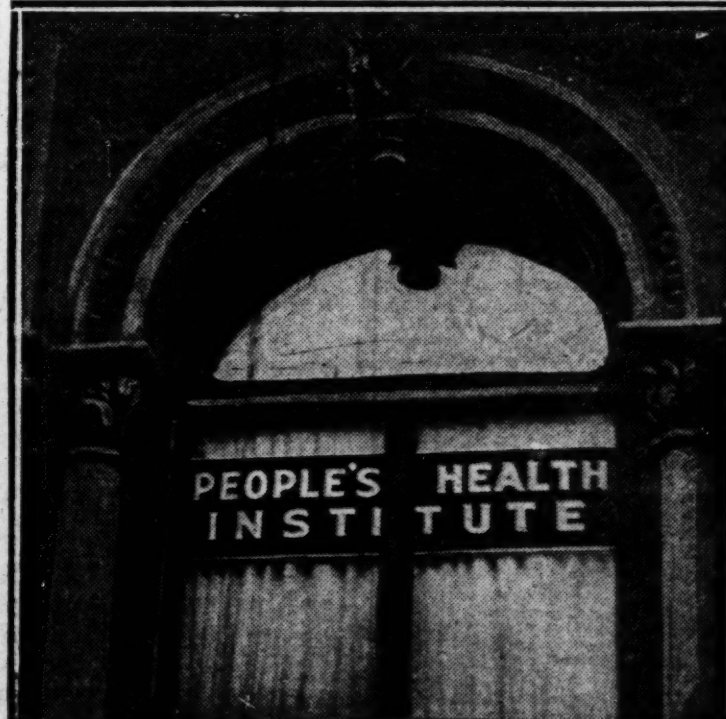

**CONGRESS CELEBRATES CONFEDERATE VETERAN'S BIRTHDAY.** Representative Charles Stedman of North Carolina, who served with Lee, surrounded by colleagues and presents on 85th anniversary. (Tribune Photo.)

**DAUGHTERS FIND MOTHER SLAIN IN HOME.** Standing: Mrs. Richard Klever, who was found dead, and her husband. Seated, left to right: Edna, Elsie, and Lillian Klever. (Story on page 5.)

**SOUTH BEND, IND., BUSINESS DISTRICT SWEEPED BY FIRE WHICH CAUSES LOSS OF \$1,200,000.** This picture, taken at the corner of Michigan and Jefferson streets, shows the business block which was practically wiped out by the flames. The fire started in the Brandon-Durrell company store and spread rapidly to adjoining buildings. (Tribune Photo.) (Story on page 10.)

**QUACKS BEGIN TO FLEE FOLLOWING EXPOSURE.** The People's Health institute at 40 North Wells street where "Dr." Gill holds forth. (Tribune Photo.) (Story on page 1.)

RIO

COOLIDGE S  
WINS COUNT  
FROM CONG

'Politics? Yes.  
Harrison Ret

BY ARTHUR SEARS H  
Chicago Tribune Press  
Washington, D. C., Feb.  
cial—President Coolidge

Democratic lead-  
ers in congress  
exchanged words  
today, accusing  
each other of  
"playing politics"  
with an eye on  
the approaching  
congressional elec-  
tion.

The President  
began it, making  
it known in his  
Friday conference  
with newspaper  
correspondents  
that he attributes  
to political mot-  
ives the attacks being  
made on him and his  
administration. He  
put it very gently,  
but the country to understand  
attacks are seasonal, occur-  
ing years when national elect-  
ions are held. He added that the public  
take them too seriously.

Criticism Was Un-  
fair. Mr. Coolidge appar-  
ently made the in-  
vestigation com-  
mission of justice for  
the federal trade com-  
missioner, Secretary of  
Melvin's aluminum trust,  
charged of Senator Norris  
that the President exerted  
influence to deter the  
from submitting recom-  
mendations to the sugar tariff  
1924 election.

The President wants  
that these charges are with-  
out foundation and that the govern-  
ment is in its duty of  
law. It was made clear  
ed the people to retain  
his earnestness in the pub-  
lic.

Harrison Quick to  
Reply. Shortly after Mr. Cool-  
idge's views to read  
Senator Pat Harrison  
rising on the senate floor  
the charge of politics and  
Mr. Coolidge as "the mu-  
sician."

Senator Harrison pro-  
fessed indignation  
House comments, which  
stood as a mild com-  
bustion on the adminis-  
tration. "It is unworthy of  
the United States," he  
said. "It does not become a re-  
sponsible White House to tell  
all the speeches here a  
political tinge."

"Matchless Politi-  
cian." "There are political  
men here, and we invite  
them to make their political  
speeches. He makes them in the  
west or the chamber of  
New York. He has not  
speech from that in New  
York. It was an effort to  
the people—playing po-  
politics. When he pe-  
speak on the other  
side to change their  
spect to international  
world he performs one  
wonders of the world.  
to him as a matchless  
politician."

Mr. Harrison said  
statement today "has  
in the history of the White  
House, no President before  
courageous to make such  
a statement."

Takes Cue About  
Politics. "Of course," chimed  
in (Dem. Ark.), the  
"there is no politics in  
practice of the majority  
ing or seeking to adjust  
make tax exemptions  
before every election.  
there was a tax rebate  
mitted to the taxpayers  
to make it appear it  
conferred upon the tax-  
payers the activity of the  
President taking up  
it that the majority  
for a tax reduction on  
national election," to  
votes."

"All those senators  
side," continued Harris-  
on for reflection and  
Lowden in the White  
House, or the senior  
Utah (Smoot), or the  
put in the White  
playing for the same  
None of the adminis-  
tration's only replies to Harris-  
on.
